

MORNING STAR.

Vol. VIII—No. 101

WILMINGTON, N. C., THURSDAY, JULY 20, 1871.

Whole No. 1,191

METEOROLOGICAL RECORD.

Table with columns: Time, Barometer, Thermometer, Wind, Weather. Data for July 19, 1871.

Mean Temp. of day, 82 deg.
NOTE.—All barometric readings are reduced to the sea level and to 32 degrees Fahrenheit.

Weather Report.
WAR DEPARTMENT.
Office of Chief Signal Officer.

It is probable that a short but heavy rain will pass over Maryland and New Jersey, and possibly Connecticut, but rising barometer and clearing weather with fresh north-west winds are probable for Thursday from Illinois to Wisconsin, eastward to the Atlantic coast.

THE CITY.

NEW ADVERTISEMENTS.

HEINBERGER'S Live Book Store, 39 Market Street—New Works.
W. R. FRENCH, Cor. Market and Second sts. Fruits, Confections, &c.

Positively Selling Out at Cost at No. 44, Market Street.
Having rented the store now occupied by Mr. John G. Bauman, corner Front and Market streets, and intending to open there with an entire new stock of Goods, I now offer my entire present stock of Dry Goods, Clothing, Boots and Shoes, Hats, Notions, &c., &c., at actual cost.

To City Subscribers.
On the first day of July, Mr. D. M. Cobb will succeed Mr. W. L. Harlow as City Agent of the MORNING STAR for all that portion of the city North of the centre of Market street. From that date all subscriptions in his Division will be payable to him.

To the Seashore.
The excursion to Smithville on the steamer Waccamaw yesterday was attended by a large crowd of both sexes. We learn from several who participated that a very pleasant time was had. A band of music was in attendance and dancing was the order of the day.

Hysterics.
Assafoetida is said to be an efficient remedy, but as some females object to taking such a drug, we copy the following recommendation for their cure:
"Caraway seeds, pounded with a small proportion of ginger and salt spread upon bread and butter, and eaten every day, especially early in the morning, and before going to bed, are successfully used in Germany as a domestic remedy against hysterics."

The Mails.
We are requested to state that the mail for Harrell's Store leaves Magnolia every Friday, at 9 A. M., after the mail arrives from this city, and the mail from Harrell's Store arrives at Magnolia every Saturday, at 6 P. M. As the mail between Magnolia and Harrell's Store is only a weekly one, papers or letters must be sent up Friday morning to make connection with the latter place.

Appreciated.
We notice that Virgilus Ballard, Esq., a former citizen of this place, after serving the Carolina Council Friends of Temperance, of Raleigh, as President for two terms, has been made the ex-President of the same Council for the present term, and that he has also been elected Recording Scribe of Centrol Lodge, K. O. P., of the same place. It affords us pleasure to know that old Wilmingtonians are appreciated abroad.

A Brilliant Meteor.
Last night, about 8 o'clock, one of the most brilliant and startling meteors we ever saw passed over this city, from South to North, leaving in its wake a trail resembling sparks from the smoke-stack of an engine. The meteor resembled a ball of fire, of about four or five inches in diameter, and the streets in its course were for a few moments as brilliantly illuminated as when the moonday sun shone upon them.

Wilmington Building Association.
At the annual meeting of the Wilmington Building Association, held at the Commercial Exchange last evening, the old Board of Directors were re-elected, as follows: W. L. Smith, W. H. Bernard, W. L. DeRosset, I. B. Grainger, Robert Henning, John Colville, W. A. Cumming, Roger Moore, Jas. Kelly, J. F. Divine, T. H. McKoy.

Printing Ink.
A full supply of Robinson's Printing Ink kept constantly on hand at the office of the MORNING STAR. These inks are equal, if not superior, to any manufactured in this country. Kegs of 25 lbs kept in stock for the special benefit of weekly papers. Cash orders solicited.

Local Dots.

— Cream candy, it is said, is made of plaster of paris.
— There was no session of the City Court yesterday morning.

— If somebody would only turn the cold shoulder upon us this weather.
— Two male patients were granted permission, yesterday, to enter the City Hospital.

— Every voter must remember that he is required to vote in his own township. Let every one see that he is registered in his township.

— Messrs. J. & H. Haar, corner of Second and Princess Streets, were dealing out lager to thirsty customers yesterday on rather a huge scale.

— This morning, at 10 o'clock, in front of their salerooms, Messrs. James & Meares will sell an assortment of Chromos, Lithographs, &c.

— R. Bradly Jewett, Esq., has been elected Financial Secretary of Mt. Olivet Council No. 9 Friends of Temperance, of this city, for the present term.

— Those enterprising commission merchants, Messrs. Worth & Worth, are having erected a commodious brick office on the corner of Mulberry and Nutt Streets.

— Counterfeits of the denomination of \$20 are in circulation. They are well executed, and scrupulous care should be exercised by our business men that they are not victimized.

— In the Supreme Court on Tuesday the case of Henry King, executor, vs. Will & Weldon R. R. Company, from Wilson, was called and continued under the rules. No counsel.

— Annie Lee and Mattie Ballard, two white females of easy virtue, whose presence in our city the authorities concluded they could dispense with, were shipped to Fayetteville, their former home, yesterday morning.

— The front room in the Northern part of the City Hall building, formerly occupied by the Wilmington Library Association, was surrendered to the city authorities yesterday, and will hereafter be used by City Marshal Canaday as an office.

— We were shown by Mr. J. C. Lumsden of this city, yesterday, a twin cantelope, being two perfect cantelopes joined together after the manner of the Siamese twins or the two-headed girl. This season abounds in curiosities in the vegetable and fruit line.

— The example of the citizens residing on Seventh street, in petitioning for a sidewalk to be erected at their own expense, is worthy of imitation, but we must urge upon the residents of that locality (as we suppose they will shortly have their walk) to further improve their pretty street by setting out oak or elm shade trees along the proposed sidewalk.

From Robeson—Lowery Still on the War Path—The Wives of the Outlaws Released.
The news from Robeson yesterday, though very meagre, was sufficient to demonstrate the fact that the outlaws are still on the war path. A colored man, by the name of Abram McIntyre, living about a quarter of a mile from Shoe Heel, says that he sent his little boy down in the pasture yesterday morning to drive up the stock, and while doing so Henry Berry Lowery came up and asked him several questions. He inquired particularly for Mr. J. N. McLean, declaring that he intended to kill him. The boy had a horse with him at the time, and Lowery asked if the animal did not belong to McLean, whom he had killed. Lowery then took his departure, going in the direction of Shoe Heel. This was directly after sunrise. About 8 o'clock he again made his appearance in the vicinity of McIntyre's and repeated his inquiries for McLean. It is also stated that the notorious outlaw was seen by a white man in the same neighborhood, but our informant could not give us his name.

— In addition to the above, we learn that the wives of Henry Berry Lowery, Boss Strong and George Applewhite, who were recently arrested by the Sheriff's orders, and confined in the county jail at Lumberton, were released yesterday morning and taken to Red Banks on the freight train.

An Engine for the West Side of the Cape Fear.
As the property of citizens on the West side of the river, within the city limits, is entitled to protection from fires, we would suggest to the authorities the propriety of reserving one of the hand-engines advertised to be sold and stationing it on that side of the river. It could be operated in case of fire by the Rail road-employees, or other volunteers, thereby avoiding the risk attending the transportation of our steam engines in flats which may be accidentally secured for the purpose, as well as the delay incident to such transportation to the East side of the Cape Fear.

A Colored Female Co-operative Association.
A number of colored females of this city organized themselves some time since into what they term the "Ladies' Co-operative Association," which, we learn, is in a very flourishing condition. The association commenced operations on the 3d of April last, and its capital stock now amounts to between \$700 and \$1,000. The only male in any way connected with it is J. H. Whitman, who has a sort of superintendence of the financial arrangements. We are always glad to record any such praiseworthy efforts on the part of our colored population to advance their worldly prosperity.

I. O. O. F.
The Grand Lodge of the Independent Order of Odd Fellows of North Carolina began their annual session in Raleigh yesterday morning, quite a number of delegates from the subordinate Lodges being expected.
The Raleigh Telegram learns that the order has been quite prosperous during the past year, more so than at any former period since the war, and is rapidly regaining its old strength and influence throughout the State.

Our Chip Basket.

— Four seasons—Mustard, salt, pepper, and vinegar.
— Most lovers like to be alone—With their sweethearts of course.

— Mrs. Julia Ward Howe has been nominated for Governor of Massachusetts.

— An Oregon toast over a glass of the ardent: "Here's what makes us wear old clothes."

— A San Francisco paper mentions the arrival in that city of "Col. Susan B. Anthony."

— Mrs. John Allmand, claims to be the first American lady who has girded the world by steam.

— The female population of Edinburgh exceeds the male by nearly 19,000. In Glasgow the excess is 16,000.

— A delighted hearer observed of a very brilliant talker that the flash of his wit was followed close by the peal of applause.

— An old lady from one of the rural districts astonished a clerk in one of the stores a few days ago by inquiring if he had any "yaller developments, such as they did up letters in."

— A school teacher asked a new boy "who made the glorious universe?" but the boy couldn't tell; so the teacher got a rawhide and told the boy if he didn't tell he would whip him. The boy looked at the whip and snivelled again, "Please, sir, I did; but I won't do it again!"

RIVER AND MARINE NEWS.

WEDNESDAY, July 19.
— Capt. Potter, of the Waccamaw, reports the Barque Golden West, from Cardenas, in below and anchored abreast the quarantine station. All well. One schooner and one steamer, names not known, are reported off New Inlet Bar.

— The agents of the schooner John received a dispatch from New York this morning announcing her safe arrival at that port. This allays the apprehension which has been felt in the community for a day or two past for her safety, it having been feared that she was lost.

— Capt. John Griffith is acting Harbor Master of the port during the absence of Capt. Lawton.

— If you have found anything, advertise it in our new department, under head of "Lost and Found," at half our regular rates, for advertisements not exceeding five lines.

SPIRITS OF TURPENTINE.

— Watermelons are a drug on the market in Newbern.
— Gov. Caldwell left Raleigh for the West on Monday evening.

— Two convicts escaped from the Penitentiary on Saturday night last.
— There is to be an excursion from Weldon to Petersburg on the 29th.

— The anti-Conventionists of Northampton have nominated Jas. W. Newson and Edmund Jacobs. Bah!
— Dr. H. J. Menninger, Secretary of State, left yesterday for Germany, his "native heath," the Telegram says.

— The Weldon News continues to bear the most flattering reports concerning the crop prospects throughout that section.

— General M. W. Ransom and Hon. D. A. Barnes are the Conservative nominees for Convention in Northampton. Well done, Northampton!
— The Weldon News says: A Baptist Colored Association was held in Halifax last week. The crowd in attendance there on Sunday was extremely large.

— On Monday night some rascal stole a whole boat-load of watermelons near Newbern, carried them to the city, sold them, and turned the boat adrift. So says the Newbern Times.

— The Weldon News says: The excursion to this place from Petersburg on last Saturday—to bring the darkey element to hear the big dogs from Washington snarl—brought three passengers, and they were good old honest Conservatives who came to attend to business.

— Henry Epps, colored, Charles Smith and James J. Goodwyn are the Radical nominees in Halifax for Convention. The Weldon News says: Should these men occupy seats in the Convention, they can safely be represented by more ignorance, coupled with a degree of villainy that is acknowledged by the Republican party, than will this accused county,

— The people of Alamance have invited Maj. Robert Bingham to deliver an address on Convention. So says the Sentinel.

— Wm. Underwood, a resident of Elizabeth City, was arrested in Norfolk on Friday last, charged with obtaining goods from a merchant of that city under false pretences. He was committed for felony, but he has been refused.

— The Southern Home says: A dinner was given on the 13th on the grounds of the N. C. Military Institute to the colored Conservatives of Charlotte. Addresses were delivered by Gov. Vance, Gen. Young, Col. Jones, Col. Osborne, and Rev. Mr. Hood, colored. Everything went off pleasantly. We hope that the day is not far distant when the colored race will feel that their interests are identified with ours, and then they will vote for respectable natives, instead of carpet-baggers of the Pike and Littlefield stripe.

— The Pee Dee Herald says: We notice that a gallows has been erected, upon which will be hanged the criminals convicted at the special term of the Superior Court for the murder of Mr. James W. Redfern. The gallows is at the north end of the jail, and within the jail enclosure. A large screen has been built on the side fronting Dr. Ramsey's residence. The gallows is on a very good plan, and is built in such a way as to give them a very sudden fall which will break their necks without causing them to suffer but one pang.

DOCT. AYER'S LABORATORY, there has done such wonders for the sick, now issues a potent restorer for the beauty of mankind—for the comeliness which advancing age is so prone to diminish and destroy. His VIGOR mounts luxuriant locks on the bald and grey patens among us, and thus lays us under obligations to him, for the good looks as well as health of the community.

IT IS SADDENING TO SEE our hair blossoming for the grave too early. More especially women feel this affliction, and it is even a greater deformity to them than to men. AYER'S HAIR VIGOR removes it and restores the hair sometimes, but its original color always.
