DAVID JOSELIN-Stolen, a small raw-boned sorrel horse.

R. K. KENAN-Widows' and Orphans' Benefit Life Insurance Company.

James Jones, colored, the escaped convict from the Wayne county Work House, to whose arrest and incarceration in our county jail we alluded a day or two since, was taken to Goldsboro' yesterday under the charge of Officer J. K. Stanley, of that town.

Taxes in Columbus.

Taken Back.

We learn that the whole tax of Columbus county amounts to but a little over \$9,000 which shows a decrease of \$5,000 since last year-a very encouraging exhibit and one pleasantly in contrast with that of our own overburdened county.

A colored man, by the name of David Joselen, living on the corner of Fourth and Campbell streets, had a horse stolen from his stable on Wednesday night, and he has been unable up to this time to discover any trace of his whereabouts, and has no clew to the perpetrator of the theft.

New Books.

Horse Stolen.

Messrs. Harper & Bros. have sent u through Mr. P. Heinsberger, Bookseller, the second volume of "The Life and Times of Lord Brongham," a work 'which attained high rank in public favor on the appearance of the first volume." It is to be completed in three volumes, and the last of the three, nov in press, will be anxiously looked for.

We notice that the Pre Des Herald, published at Wadesboro, N. C., has recently been enlarged to an eight page sheet and otherwise greatly improved. The Herald is now one of the largest and handsomest sheets in the State, and is being conducted with the ability requi site to ensure success. We hope the enterprise of the proprietors will be handsomely re

A Good Disintectant.

An exchange says an excellent disinfectant is readily obtained by dissolving a bushel of salt in a barrel of water, and with the salt water slack a burrel of lime, which should be wet enough to form a kind of paste. For the purpose of a disinfectant this home made chloride of lime is nearly as good as that treated. purchased at the shops and drug stores.

A Dangerous Practice.

We l arn that a number of boys have got into the habit lately of throwing rocks at the street cars when passing, thus endangering the passengers. A youth was arrested yesterday for indulging in this dangerous practice and suffered the penalty. We caution the boys, both white and colored, to take warning from this case, as all who are caught in the habit hereafter will be prosecuted.

Widows' and Orphans' Life.

We invite attention to the adve rtisement of the Widows' and Orphans' Life Insurance Company, Mr. Wm. R. Kenan, Supervisor. Everybody about here knows "Buck" Kenan, and it is unnecessary, therefore, to say anything in his praise. But of the Company he represents, it may be proper to state that it has the reputation of being one of the best in the country. It has some features which seem us two in the game" and best us to death at it. | large that 'lot' is.

THE YELLOW FEVER.

Latest from Charleston and Other Points. Detroited at at

We have received very little information of the progress of the fearful scourge of yellow fever in our sister city of Charleston since our last report, but we hear from two sources, which we deem reliable, that the disease is on the increase and that there were more deaths from the fever on Wednesday, the 80th ult., than on any previous day. An editorial article in the News of yesterday morning would seem to indicate that this is the fact, although that paper seems to take an encouraging view

of the matter. The News says: Charleston is utterly "demoralized," and without any good reason. The official information in our possession is rather encouraging than the reverse, and yet the people are as panic-stricken as though the fever raged in half the houses in the city. During the week ending last Saturday, there were six deaths from fever, and, since Saturday, we have reports of eleven more. This total of seventeen deaths, in nine or ten days, does not, we repeat, justify any wild excite-ment or violent alarm. A large number of strangers have gone away. This has the effect of diminishing the field in which the fever would first operate, and where it might gain strength for an advance all along the line. A great improvement in the condition of the streets is in progress, and, together with the free use of disinfectants, must tend to keep the disease within reasonable bounds.

We do hope that the people will calm their fears, and face the danger, small or great, with manly composure. Nothing is more encouraging to Yellow Jack than unstrung nerves, flacied muscles, and the other effects of what is inelegantly called a big scare!

The Savannah Republican of the 30th has received informtion to the effect that the fever has reached Beaufort, S. C., having been carried there from the Phosphate works, where seven or eight cases had prevailed. The case in Beaufort proved fatal. The Ropublican advises a rigid quarantine of the numerous boat loads of negroes who arrive in Savandah daily from that place.

The Phoeniz states that the hotels and pri vate houses in Columbia are being rapidly filled by persons from Charleston, and also learns that several merchants are making arrangements to go into business there.

From an editorial of the Courier of the 30th, it would appear that it has good grounds for believing the disease has in reality made its appearance in Savannah. Alluding to a suggestion of a Savannah paper that a rigid quarantine be enforced, similar to the one here, prohibiting people from Charleston sojourning in that city, the Courier says: "It is not our purpose to follow the example of our sister city, and work injury to our neighbors by crying out against them; but, if reports are true, there is much need for a quarantine at Savannah. We have information that fever has already made its appearance in Savannah, and our information is so reliable, that our misdoubts can only be set aside by a sight of the physician's certificate of the burial of a man who is now ill in Savannah-it is said of yellow fever-in a locality known as Yemacraw. We would also like to be informed of the character of the disease with which a man near the Park is confined to his bed. When these certificates are shown us we shall be convinced. The New York Evening Post says:

"It has also been ascertained that there are tears of the appearance of yellow fever at Savannah, making it doubly necessary for the authorities here to exercise the greatest vigilance in checking its introduction through the crews of vessels constantly arriving from that

In conclusion, and after taking a calm and dispassionate view of the whole matter, we feel constrained to urge upon our authorities to relax not a particle in their efforts to prevent the introduction of the disease into our city, and we also urge them to carry on the good work of cleansing the city and placing it in a good sanitary condition. The restrictions which they may find it necessary to enforce may seem harsh, but "self preservation is the first law of nature," and they owe it to our citizens who have already "tasted the bitter cup" to persevere in their efforts to avert the horrors of a second visitation of the terrible scourge. While we deeply sympathize with the good people of Charleston in the ordeal through which they are passing, and believe that our people will do everything they can to help them, should assistance in any manuer become necessary, we at the same time think no considerable portion of the citizens of that place can blame our authorities for the action they have taken in the premises.
Since writing the above the following Associated Press dispatch has been received:

CHARLESTON, Aug. 31. There have been no naw cases of yellow fever to day, but two old cases proved fatal.

RIVER AND MARINE NEWS.

Widows' & Orphans' BENEFIT LIFE INSURANCE COMPANY

OF NEW YORK.

ViTALITY is the capital on the strength of which the business of life insurance is done. In a mutual company the policy-holders are like so many partners. To share equally they should each contribute to the stock in equal proportion. The capital is the probability of life, and it is assumed that each subscriber possesses the same chance of itving in proportion to his age, &c. As patrons of the concern they pay so much money for so much insurance. As patrons they divide the profits, it is presumed, equitably. Now if, as patrons, they bring a loss upon the company, this is evidence that, as partners, they did not subscribe an equal share of vitality, and, asse matter of simple justice to those whe meet this loss, should not share in the previous profits.

THE RESERVE PLAN,

viewed in this light, is a principle in equity, because it pays the profits to the true stock-holders, nor attempts to pay by guess-work beforehand, but waits until nature unmistakably declares them.
