

RATES OF ADVERTISING: One Square one day, \$1.00; Two days, \$1.50; Three days, \$2.00; Four days, \$2.50; Five days, \$3.00; One week, \$7.00; Contract Advertisements taken at proportionately low rates.

METEOROLOGICAL RECORD. Sept. 5, 1871.

Table with columns: Time, Barometer, Thermometer, Wind, Weather. Rows for 5 A.M., 10 A.M., 5 P.M., 8 P.M.

Mean Temp. of day, 77 deg. Note.—All barometric readings are reduced to the sea-level and to 32 degrees Fahrenheit.

Weather Report. WAR DEPARTMENT, Office of Chief Signal Officer, Washington, Sept. 5—4:35 P. M.

Probabilities. The barometer will probably fall still further on Wednesday, and especially in the Gulf States and over the Lakes.

THE CITY.

NEW ADVERTISEMENTS. HINNSBERGER'S Live Book Store, 89 Market St.—An Angel in the Cloud—Steam for Millon—Pianos and Organs.

Excursion To-Day. Don't forget the family excursion to the seashore on the steamer Waccamaw to take place this morning.

City Taxes. We are requested by the City Treasurer and Collector to state that, at the solicitation of many citizens, he has been authorized to extend the time thirty days in which to pay taxes on city real estate for 1871 before advertising the same.

The Colored Masons. We are requested to state that W. H. Thurbar, Henry Taylor and Geo. L. Mabson have been appointed by Gideon Lodge (colored Masons) a Committee of Finance to solicit subscriptions for building their Lodge on the corner of Eighth and Princess streets.

The Howe Family. We find the following in an exchange: Representatives of the Howefamily from all parts of the Union, and from several foreign countries, assembled Thursday to the number of over three thousand at Harmony Grove Farmingham, Mass.

Political Prescription. We learn from the best authority that the removal of Capt. Peck from the position he has held for some time past as Inspector of Customs for this city was due solely to the fact that he had the temerity to exercise the usual privilege of a freeman and vote in the late election for Convention. He was always at his post in the Custom House when duty was to be performed, and no one could bring the charge against him that he did not faithfully discharge the duties which were expected of him; but this was a matter of no consequence to Abbott and other leaders of the Republican party, who were instrumental in securing Capt. Peck's removal, when ranged in comparison with his outrageous presumption in daring to vote in accordance with his own convictions of right, when those convictions happened to be in opposition to the views of the prescriptionists alluded to. Capt. Peck can console himself with the proud reflection that he is not the only one who has suffered for opinion's sake.

Advertising for the People. We would call the attention of the public to the MORNING STAR'S charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance. This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the MORNING STAR as a medium for communicating with their several but unknown customers. Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any speciality in trade, or any change in their places. The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.

Local News.

The streets are getting dry and dusty. The sidewalks are not the place for grape hulls. George Spicer, colored, was sent to the Work House yesterday.

We notice that Prof. Briggs has opened a skating rink at Goldsboro. The regular monthly meeting of the Mechanics' Building and Loan Association will be held at the Commercial Exchange this evening, at 8 o'clock.

Several peach, apple and pear trees at the Wilmington Garden are in bloom, with a fair prospect of a second crop if the warm weather continues long enough.

A white woman, suffering with rheumatism, and as pitiful a specimen of humanity as we have seen in a long time, received permission to enter the County Poor House yesterday afternoon.

Attention is called to the card of Mr. M. U. Finlayson, who has again embarked in the commission business. Mr. Finlayson's former experience in this business renders any further introduction unnecessary.

The pond near the Charlotte depot, on Front street, which has been a fruitful source of chills and fever to the residents in that vicinity, has been filled up by the authorities and is now as dry as a bone.

A colored man had his horse taken from his stable in this city on Wednesday night last. A day or two afterwards he advertised the fact in the STAR, and the day following the animal was found near one of the Sounds and restored to his owner.

Friend Bonitz, of the Goldsboro Messenger, feels greatly encouraged in his efforts to establish a daily, and if the merchants and other business men of that place will stand up to him as they ought he will commence it on the 1st day of October.

County Commissioners.

The Board was in session yesterday, Mr. Black in the chair. J. W. Schenck, Jr., Sheriff, presented three separate bonds, two for \$15,000 each and one for \$10,000, whereupon it was ordered that said bonds be received and approved, and ordered to be registered and filed.

It was further ordered that the Sheriff, J. W. Schenck, Jr., be notified that he is required to appear before this Board on the first Monday in October next and increase his bonds for the collection of State and county taxes in the sum of \$10,000 each. And it was further ordered that the Sheriff make settlement with the State and county treasurers as often as the amounts prescribed by law shall come into his hands.

Those appearing on Sheriff Schenck's bond are Mary T. Schenck, Joseph H. Neff, S. S. Satchell and Ed. R. Brick. The bonds of J. C. Mann, Clerk of the Superior Court, in the sum of \$10,000, and W. J. Bivens, Register of Deeds, in the sum of \$5,000, were presented, but action was deferred until this afternoon.

The bonds of the Coroner and Treasurer will also be finally acted on this afternoon. Commissioner John C. Heyer presented the following protest against the action of the Board: I, John C. Heyer, one of the County Commissioners of New Hanover county, do hereby respectfully enter my most solemn and earnest protest against the action of the Board of County Commissioners of said county, in accepting the official bonds of J. W. Schenck, Jr., as Sheriff of said county, for the present year, for two reasons: 1st, because of the insufficiency of the amount of said bonds, and, secondly, because the sureties upon said bonds are not good and sufficient; and I wish my vote against this action of the Board to be recorded upon the minutes.

Similar protests were submitted by Mr. Heyer relative to the bonds of the Clerk of the Superior Court and of the Register of Deeds. It was ordered that the County Surveyor lay out and establish the line between this county and Bladen, to wit: between Cape Fear River and Black River; provided, that the County Commissioners of Bladen county will pay half the expense of said survey.

The Board then took recess until this afternoon, at 3 1/2 o'clock. Star Book Bindery. The attention of the public is called to the superior facilities we now have for executing cheaply, promptly and skillfully all kinds of Binding and Ruling. Our business in this department has steadily increased, and evidence that we have not labored in vain in our effort to establish a Book Bindery equal to the demands of our growing city. But we are determined to do still more, and as our business grows so will our facilities be increased. Give us a trial. 21av2w

From Charleston. The Board of Health reports four deaths from yellow fever for the twenty-four hours ending at 12 M. on Monday. The report of the number of new cases for each day has been discontinued, for the reason, the News says, that in the opinion of many medical men, forty-eight hours must elapse before it can be known with certainty whether a patient has, or has not, the yellow fever. The papers make no mention of the progress of the disease, and as we received no telegram in relation to the matter last night, the above is all the information now at hand.

We notice that the Germans, true to their traditional reputation for assisting each other in time of need, are organizing in the different wards, and, in conjunction with the Howard Association, seem determined to see to it that the sick among their own countrymen receive prompt assistance and good attendance.

There are contradictory reports about the fever at Beaufort, S. C., and other points in the vicinity. Indestructible Tag. The indestructible Tag is a great convenience to merchants. It answers the combined purpose of a direction label and business card. Call at the STAR Printing and Publishing House and supply yourselves. 11

A Sad Case.

One day during the past week the authorities here received information that there was a man at the depot suffering from a severe attack of chills and fever, and that disease and fatigue had so enfeebled him that he was unable to take care of himself. An ambulance was sent for him and he was taken to the City Hospital, where he lingered until Sunday, when he died. He was in such a critical condition when taken to the Hospital that he was unable to give much account of himself. He stated, however, that he formerly lived at Cedar Creek, near Fayetteville, where he had a brother to whom he had intended to write before he died. From a paper found on his person, emanating from the authorities of Holly Springs, Miss., we learn that he was taken up sick in the woods near that place. He stated that he had been living in Arkansas and was trying to make his way back to North Carolina when he was taken sick. He remained at Holly Springs about five weeks, receiving care and attention from the citizens, but finally started for the home which he was destined never to reach alive. His remains were interred in the paper's burying ground, but it is hoped that if this reaches the eyes of his brother or other relatives or friends he may receive a more fitting interment.

Our Chip Basket.

The best safety match—marrying a rich wife. "Dr. Sarah B. Chase" is a Titusville, Pa., sign. How to overcome your sorrows—Strike one of your own signs. Young folks grow most when in love. It increases their sighs wonderfully. What is the difference between a coat and a baby. The one I wear, the other I was! Danube complains that there is only one handsome girl in that city, and she is engaged to be married. Why should a young man give a lock of his hair to his intended before marriage? Because she'll be apt to take one without leave after marriage. Calais, Me., is likely to become a fashionable resort for young men, for it has just been discovered that two-thirds of the wealth of the place is to fall to the girls who bloom there. That New Orleans woman who attempted suicide by cramming rags down her throat, repented when the family sent for a junk dealer and proposed to sell the entire package for rags. A grass widow in "Yook State" has sued for a divorce, alleging marriage under false pretences as a ground for it. Shades of courtship! Does she suppose there was ever a marriage of any other sort?

RAR AND RIVER IMPROVEMENTS.

WILMINGTON, N. C., 2d Sept., 1871. To DR. WM. W. HARRIS, President of the Chamber of Commerce, Wilmington, N. C.: SIR—In accordance with the wishes of the Chamber, the regular monthly visit to the Cape Fear and River was made this day, and I am pleased to report the steady and successful progress of the work.

Since my last report of 12th August, a most violent Northeast gale has visited our coast, producing some apprehension for the safety of the works, which have some loss of time and labor to replace them in position again. This was successfully and speedily accomplished through the energy and skill of the local superintendent, and all is now going on well again. It is with much pleasure that I am enabled to report the perfect safety, and security of the finished work, for notwithstanding the storm was one of unusual violence and duration, from the North-east, elevating the ocean water much above its ordinary level, having full and unobstructed sweep, was brought against the works with great force, no injury whatever was sustained. Not a timber or plank was moved from its position, thus proving the adaptability of the plans designed for a successful prosecution of this great and important work.

I here beg leave to call your attention to the fact that while the Engineers and Operatives have done all that flesh and blood could do, under the circumstances, they labor under grievous disadvantages for the want of means to employ a sufficient force to guard and protect the exposed works, and to clear the channel work, while they are advancing and securing the general line; for experience has shown, that as the volume of water passing in and out of those openings is checked, or shut out, its passage thereby being contracted, it is thrown with greater force upon the weaker points, cutting them out very rapidly, entailing a greater expenditure of money, time and labor for securing them afterwards. So you will readily perceive that the officers, in charge of this work, with the limitations, are obstructed and tied down to a limited monthly expenditure, thereby restraining them in rendering to the Government as valuable service as they might otherwise do, and postponing the period of inscribing their own names in the niche of fame.

The shoals in the vicinity of the works have somewhat changed their positions, but by no means prejudicial to them. A portion of the sand in front of the work has been thrown over and back of it, which is rather an advantage, as more sand will no doubt soon take its place in front. Zeke's Island is somewhat changed, indicating an increased low-water area, while its high-water area appears diminished. There is some appearance of an increased depth of water in the small inlet next south of the Island, while I had no means of determining this fact. The outer shoals seem to increase, and the point of beach extending northward in front of the work, while the beach south is evidently and perceptibly growing. The catch sand-fences have proved successful. Not a rail was removed by the storm, and the sand which has been completely covered with sand to the top of the fence, presenting an embankment three to five feet high, and of course, far above the reach of any tide. This, and the weak parts of the beach, where the wind has blown out trenches between the bills, is now being strengthened by a system of cultivating the beach grass. This grass bears transplanting well; one of that which was set out in July and August has died, but all growing and doing finely, and I think will bear transplanting at any season of the year. Where planted, it has not only successfully resisted the blowing away of sand, but has already collected, in many places, a foot or over in height.

The Major has been fortunate in securing the services of a competent man in this department, who seems to understand his business, and I hope is doing valuable service, which time alone will demonstrate. Having no opportunity of visiting the lower harbor and main outlet, I have nothing to add to my August report in that direction. In conclusion, I beg to state that thus far in

the progress of the work everything has worked well; there has been no mistakes or blunders, no waste of time or money, and the prospect ahead flattering. Everything now depends upon the good sense and liberality of Congress in making the necessary appropriations for the early and successful completion of this noble enterprise. The gentlemen in charge of this work seem fully alive to its varied complications, its difficulties, magnitude and importance, and are working like beavers to inscribe their names high on the roll of fame, and should they be so fortunate as to merit it by a full and complete accomplishment, none will rejoice more than Your humble servant, H. Nove, Chairman.

SPIRITS OF TURPENTINE.

A mineral spring has been discovered near Battleboro. Battleboro signs for a Mayor's Court to try violations of the law. The balloon ascension in Raleigh on Friday night was a grand success. An interesting meeting is in progress in the M. E. Church at Goldsboro. Nineteen marriage licenses were issued in Wake during the month of August. The Raleigh boys challenge the State for a game of base ball during Fair week.

There is to be a shooting match at the Henderson Fair. A prize of \$50 is offered. Mr. Robinson, of the Goldsboro Male Academy, is informing his scholars in cadet gray. Bishop Moore, of the colored Methodist Conference, is visiting his churches in Rutherford county.

Rev. J. W. Larmour, rector of St. Stephen's Church, Goldsboro, is confined to his room, by an attack of bilious fever. Thus far two thousand one hundred, and seven dollars have been raised for building a Presbyterian Church in Kinston. A large temperance convention will be held in Raleigh in November, to take into consideration the "prohibition question."

Eighteen colored men and women were baptized down at the river, near Goldsboro, on Sabbath last—one of the results of the Camp Meeting. A small boy, by the name of Salter, disappeared in Newbern on Sunday last and has not since been seen or heard of. The supposition is that he has been drowned.

We learn from the Rutherford Vindicator, that J. C. Davidson, Esq., has sold his splendid farm at Old Fort, McDowell county, to a South Carolinian and a Canadian for \$24,000. They intend to settle a colony of Canadians upon it, and build up large manufactories. The Raleigh Era says: W. J. Bryan, brought to this city on the 11th of August as a Ku Klux, charged with the murder of Marchison, in Moore county, and discharged on bail, has since been arrested upon evidence brought out by a coroner's inquest, and committed to answer to the charge of murder. The commitment took place yesterday.

NEW ADVERTISEMENTS.

Mechanic's Building & Loan Association. THE 25th MONTHLY MEETING will be held at the Commercial Exchange, this evening, at 8 o'clock. Dues will be received during the day at Dudley & Ellis' Boot and Shoe Store, No. 41 Market street. C. S. ELLIS, Secretary and Treasurer.

AUCTION SALES.

J. T. JAMES, Auctioneer. By JAMES & MEARES.

SALE OF VALUABLE REAL ESTATE. BY virtue of the power of sale contained in a certain deed of mortgage made by Jas. M. H. Croly, Du srus Cedar and Robert E. Calder, as Trustees of "The Wilmington Building Association," dated the thirtieth day of September, 1868, and duly registered in the office of the Register of the County of New Hanover, in Book 22, at page 970, and following articles of mortgage, as follows: Situate, lying and being in the County of New Hanover, and bounded on the east by the lands of David S. Sanders, and on the west by the lands of the late Thomas L. Davis and Samuel Paxton Walters, on the north by the lands of William A. Wright, and on the south by the lands of William A. Wright. The Association will execute to the purchaser at said sale a proper conveyance of the same upon the payment of the purchase money. CHAS. M. STEDMAN, Attorney. Aug 29, 1871-ts

J. T. JAMES, Auctioneer. BY JAMES & MEARES.

SALE OF Valuable Real Estate. BY virtue of the power of sale contained in a certain deed of mortgage made by Frank C. Singletary and Virginia C. his wife, to Michael Croly, Du srus Cedar and Robert E. Calder, as Trustees of "The Wilmington Building Association," dated the thirtieth day of September, 1868, and registered in the office of the Register of the County of New Hanover, in Book 22, at page 970, and duly transferred and assigned by said Trustees to said Wilmington Building Association by deed dated the thirty-first day of August, and duly registered as aforesaid in Book B. B., at page 490 and following, the said Wilmington Building Association will execute to the purchaser at said public auction, at the Court House door in the City of Wilmington, N. C., on the 20th day of September, 1871, expose to sale by public auction, at the Court House door in the City of Wilmington, for cash, two certain tracts or parcels of land described in said deed of mortgage, as follows, viz: lying and being in the County of New Hanover, and bounded as follows: One tract beginning at a red oak on the east side of Derby's branch, William Cullar's corner of his ninety-two acre survey, thence north 20 deg. west, two poles to a poplar in Derby's branch, thence the same course continued along the dividing line between William A. d Jacob William's survey, formerly John Brwins' pole survey, as aforesaid, thence south 20 deg., west 200 poles to the side of the marsh, thence in the marsh the same course continued 25 poles to a red oak on the east side of Derby's branch, thence north 10 deg. east, 200 poles to a pine, his old corner, standing in the marsh, thence with his other line south 60 deg., 35 poles by Derby's island, thence across Derby's branch and up the east side of said branch the several lines of a deed of conveyance survey to the first station containing 322 acres, more or less. Another tract adjoining above described land, containing 250 poles, beginning at a cypress standing on the west side of Turkey creek, a small distance above the mouth, thence running north 100 poles to a spruce pine, then north 100 poles to a pine standing between the marsh and the old field, corner of the old survey, thence south 60 deg., east 100 poles to a red oak, thence where it crosses Derby's course, thence down the meanderings of said Turkey creek to the first station containing 130 whole 456 acres, more or less. The said Wilmington Building Association will execute and deliver to the purchaser at said sale a proper conveyance of the land aforesaid upon the payment of the purchase money. C. M. STEDMAN, Attorney. Aug 29, 1871-ts

J. T. JAMES, Auctioneer. BY JAMES & MEARES.

SALE OF Valuable Real Estate. BY virtue of the power of sale contained in a certain deed of mortgage made by Bill B. King and Susan E. King to "The Wilmington Building Association," dated the thirtieth day of Sept., 1870, and duly registered in the office of the Register of the County of New Hanover, in Book 22, at page 970, and following, the said Association will, on Wednesday, the twentieth day of September, 1871, expose to sale at public auction, at the Court House door in the City of Wilmington, for cash, all that certain tract or parcel of land described in said deed of mortgage, as follows: Situate in the City of Wilmington aforesaid, beginning at the Southern intersection of Eighth street with Swann street, thence running Southwardly with the Eastern line of said Eighth street sixty-six feet, thence Eastwardly in a line parallel with said Eastern line of said Eighth street sixty-six feet to the Southern intersection of said Eastern line of said Eighth street with Swann street, and thence Westwardly with said line of said Swann street fifty feet to the Southern intersection of said Eastern line of said Eighth street with the Western end of lot numbered one (1) in the parcel with said Eastern line of said Swann street, as designated in the plan of said City. The Association will execute to the purchaser at said public auction a proper conveyance of the same, and assign the policy of insurance thereon, upon the payment of the purchase money. CHAS. M. STEDMAN, Attorney. Aug 29, 1871-ts

By JAMES & MEARES. J. T. JAMES, Auctioneer.
