Probabilities. The barometer will probably continue stationary from the lower lakes south and eastward, with cloudy but not rainy weather. The pressure will probably fall on the upper lakes, with increasing southerly winds and cloudiness. Cloudy weather, with rain, is probable for Tuesday from Missouri south into the Gulf; easterly winds, with cloudy weather, in the South Atlantic States and Florida.

Arrested for Burglary.

A colored individual, by the name of Sam. Hall, belonging in Wilmington, was arrested at Magnolia on Saturday, charged with breaking open a store at Black Creek, Wilson county, some four or five weeks ago, and stealing a gold watch, and some \$40 or \$50 in money. He had succeeded in avoiding arrest until the day in question, when Capt. Leggett of the W. & W. R. R., noticed him in passing through Magnolia and telegraphed from the next station requesting his arrest. The prisoner was takento Black Creek.

Case Postponed.

The case of Chas. Wassent, which had been set for a hearing yesterday morning, was postponed until Monday next, upon the statement of the Hospital physician that he was not sufficiently recovered to attend the trial. Though his wounds have healed outwardly, the balls are still in his lungs, which causes the patient to breathelhurriedly or in short gasps, and it is the opinion of Dr. Winants that he is still in danger from hemorhage, which would very probably prove fatal. Of course there is no possibility of extracting the balls.

Stealing from a Minister.

The residence of Rev. J. B. Barlow, on Seventh, between Queen and Wooster streets, was entered on Sunday night, while the family were gone to church, and a number of articles of clothing and about \$15 in money stolen. The thief effected an entrance through a window. The sacrilegious scamp that would steal from a preacher while he is at church should be considered doubly guilty in the eyes of the law and his punishment made to correspond -if caught. At present there is no clue to the perpetrator of the theft.

Unfortunate Difficulty.

At a late hour last night an unfortunate difficulty occurred near the corner of Fourth and Castle streets, during which Mr. W. H. James stabbed Mr. Robert Costin in the head. Dr. J. F. King was called to see the sufferer, and decided that young Costin must be removed to his residence before the knife could be removed. From what we could gather up to the hour of going to press, the wound must be a very serious one. We forbear further particulars until they can be more fully ascer-

Important Arrest.

John Taylor and Miles Freeman, both col ored, employed as waiters at the National Hotel, in this city, were arrested on Sunday morning last, on the charge of being implicated in causing the recent destructive confiagration in Goldsboro'. A strong suspicion had been aroused against the parties, and on Friday two detectives, said to be from New York, arrived at the "Notional," and soon got on very familiar terms with the two men mentioned, who had not the slighest suspicion of their true character. Thus, by insinuating themselves into the good graces of the two scoundrels and plying them with judicious questionings, they finally succeeded in getting them to divulge the fact that they (the waiters) were concerned in the crime which laid waste so great a portion of our unfortunate sister town, when the detectives telegraphed the result to the authorities at Goldsboro'.

In response to this message Mayor Robinson spatched Officer Joseph G. King to this city to arrest the criminals. Arriving here on Sunday morning, he immediately procured a bench warrant from Judge Russell for their arrest, which duty he successfully accomplished. The parties were taken to the Guard House for safe-keeping until time for the train to leave, when, on Sunday evening, in charge of Officer King, they were taken to

The Goldsboro Messenger, received last night,

"We have a great deal to say regarding this matter and especially as to the means employed in ferreting out the parties thus far arrested. but for the present we must refrain, Startling developments are expected. We have no desire to prejudge the arrested parties and await the preliminary examination. We learn, however, that the arrest was made apon information derived from a direct confession made by the prisoners. The examination will probably take place to-day. "The parties had been employees at the Exchange Hotel previous to the fire. Other

arrests are expected." It is proper to remark that the parties brought letters of recommendation from the late proprietors of the Hotels in Goldsboro,' and were employed at the "National" without the least suspicion that there was anything

Capers of an Ox.

Considerable excitement was caused at the foot of Market street, yesterday afternoon, by the antics of a ferocious bull. He was being transported from the West side of the river on one of the ferry flats. When nearing the shores he attempted to commit an assault on one of the hands; but, missing his aim, he went into the river. He then swam around the outward end of the flat and came in on the other side, much to the amusement of the crowd of spectators who lined the wharf, but who "skedaddled" when he landed.

Explosion of the Boller of the R. E

We learn from the N. Y. Herald that the report of E: E. Hewes, local inspector of steamboats at Wilmington, N. C., in regard to the cause of the explosion of the boiler of the steamer R. E. Lee, on the morning of the 16th of August last, on the Cape Fear River, has been received at the Treasury Department The report says: The Lee was a sternwheel boat, her engines stationed aft and her boilers forward. At the time of the explosion the engineer had been at his post constantly for five hours, during which time he was unable to examine the boilers, trusting entirely to the fireman, who was wholly incompetent to judge of their safety. In view of this negligence the engineer's license has been revoked, and engineers of all other stern wheel boats in the Third Inspection district notified that they must attend to their bolters, to the neglect of pilot signals, if necessary, and owners have been cautioned against running their boats without a sufficient number of engineers.

While the report of the inspector places the responsibility upon the shoulders of the engineer, our readers will remember that the verdict of the Coroner's jury, which was published in Sunday's STAR, exonerates the Captain and his employees from all blame and fixes the responsibility of the disaster upon the Inspector, for reasons which are therein set forth. A Severe Accident.

A colored man, by the name of Daniel Dudley, employed on the plantation of Mr. Wm. Hankins, in Brunswick county, about five miles from this city, met with a severe accident yesterday afternoon, about 3 o'clock. He was engaged in shooting birds that were depredating upon the crops, and at the time of the accident was creeping stealthily towards a flock of the feathered tribe when he noticed that his ramrod was projecting too went on an excursian to Smithville yesterday, far. He reached his right hand out to remedy the inconvenience, his musket being cocked - March hens are said to be very plentiful at the time, and placed it immediately over the musle of the weapon, when it was suddenly discharged, the whole load going through his hand, horribly mutilating it and shattering the bone of the wrist, a portion of which, when we saw the unfortunate man, was pro jecting from the wound. He was brought immediately to this city and taken to the Drug Store of Dr. J. A. Mebane, when Dr. W. J. Love was called in aud administered what aid he could to the sufferer. He was then placed in a cart and carried to the City Hospital. We learn that it will be impossible to save the hand, and that amputation will have to be resorted to, if it has not already been done. The unfortunate man was apparently about 30 years of age.

Larceny in Masonboro' Township.

Yesterday, in Masonboro' Township, the case of Ned Parsley and Peter Taylor, colored, were arraigned before Justice J. G. Wagner on the charge of assisting Alfred Carr, another colored individual, who had previously been committed and turned informer, in stealing a cow from Mr. W. S. Hewlett. Ned Parsley was required to give security in the sum of \$50 for his appearance at Court, when it is thought that he will be prepared to prove himself innocent. Peter Taylor was discharged. The investigation is said to have been a long and interesting one, John J. Fowler, Esq., appearing for the defendants.

Ned Parsley gave the necessary security and was discharged.

RIVER AND MARINE NEWS.

We see from the Savannah News that the steamer Governor Worth, formerly on the line between this city and Fayetteville, was sold at auction last week and purchased by T. A. Atkinson, Esq., who will immediately fit her up and prepare her for active service.

Her scene of labor will be upon the Altamaha, Oconee and Ocmulgee rivers, with the Northern terminus of her route at Barien, connecting at that point with the steamer San Antonio, with Savannah. The News adds "The Worth is an "old vet" on this particular route, and being universally popular with the passenger and shipping public, we may sately bespeak for her a lucrative season.
