

RATES OF ADVERTISING: One Square one day, ... Contract Advertisements taken at proportionately low rates.

METEOROLOGICAL RECORD. Table with columns for Time, Barometer, Thermometer, Wind, and Weather. Includes data for 7 A.M., 9 P.M., and Mean Temp. of day.

Weather Report. WAR DEPARTMENT, Office of Chief Signal Officer, Washington, Sept. 17—E35 P. M. Probabilities.

The barometer will probably fall very generally on the lower Lakes and Atlantic coast, and the disturbances on Lake Michigan move eastward, extending into the Middle States on Tuesday.

THE CITY.

NEW ADVERTISEMENTS. HEINSBERGER'S Live Book Store, 39 Market street—New Books Just Out. Misses BURE & JAMES—Female School.

Unavailable Letters. The following is the list of unavailable letters remaining in the city postoffice, Sept. 19th, 1871.

Returned. Mayor Martin, who has been absent for several weeks at the White Sulphur and Sweet Sulphur Springs, of Virginia, and also on a brief visit to Washington, Philadelphia and other Northern cities, returned to his home in this city on Saturday evening last, greatly improved in health.

Excursion Next Sunday. By an advertisement in this issue, it will be seen that the steamer Waccamaw has been chartered for an excursion to Smithville on Sunday next, for the benefit of persons who may wish to attend the dedication of the Baptist Church at that place.

Accident. Yesterday afternoon, about 6 o'clock, an old colored woman, aged between 50 and 60 years, was accidentally knocked down and run over by a carriage, while passing the corner of Fourth and Chestnut streets.

To the Work House. Geo. King, col., who was taken to Elizabethtown, Bladen county, last week, to stand his trial for larceny, before the Superior Court, was returned yesterday, in the custody of the Sheriff, to take up his quarters in the County Work House, in which institution he has been sentenced to hard labor for two years.

Colored Convention. A call, signed by George L. Mabson and Geo. W. Price, Jr., the two colored members of the Legislature from this county, has been issued, requesting the colored voters of the different counties comprising this Congressional District to meet at their several county seats on the 30th inst. and appoint delegates to a District Convention, to be held in this city on the 3rd day of October next, for the purpose of choosing some suitable person or persons of their race to represent them in the proposed colored Convention, to be held in Columbia, S. C., on the 18th proximo.

The Tidal Wave. Though we have been attempting to "throw cold water" on the much talked of tidal wave, its predicted coming still continues to be the source of much comment and no little excitement in the community.

Our Chip Basket. A Chicago groom forgot his bride's name. —Yaleville, Conn., hasn't a single old maid.

—Some husbands, though anything but sharp, are awfully shrewd. —Most lovers like to be alone—with their sweethearts, of course.

—Deep in woman's nature the love of housecleaning is implanted. —The anti-kissing movement at Saratoga has crumbled into ruins.

—Seven young women from Oregon have become students in one of the Boston conservatories of music. —Women will henceforth be admitted to the Wesleyan University, at Middletown, Conn., on the same terms as men.

Local News. — Absentees of the Summer months are rapidly returning. — Ladies' short walking dresses will continue this season.

— There was no session of the City Court yesterday morning. — Emergent meeting of St. John's Lodge, F. & A. M., this evening, at 8 o'clock.

— Three stylish bonnets will buy one of Anderson's best sewing machines. — Two white female patients were granted permission to enter the City Hospital yesterday.

— This is said to have been the worst season for mosquitoes ever known in the Southern States. — It is expected that the Steamer Cassell will be ready to resume her trips by the 10th of next month.

— A fishing smack arrived yesterday afternoon with a supply of fine blackfish, which met with a rapid sale. — Misses Burr and James advertise in this issue that they will re-open their school on Wednesday, October 4th.

— Don't forget the grand family excursion to the seashore to-morrow. A large number are expected to participate. — The Davenport Brothers are making their way in this direction. They will exhibit in Petersburg on the 21st and 23d.

— Will no effort be made to have Wilmington represented in the National Commercial Convention to assemble in Baltimore shortly? — Wassen's preliminary examination has been postponed until Thursday, his counsel not being ready. It was set for yesterday morning.

— D. A. Smith, the enterprising furniture man, has commenced moving into his new mammoth store on Front, between Princess and Walnut streets. — Messrs. Harris & Howell are having built, on their wharf, a new and commodious shed, with office included, for the benefit of their shipping lines.

— Advertisements under head of "Wants," "For Sale or Rent," or "Lost and Found" will positively be charged full rates unless paid for in advance. — Wm. Thurber, colored, of this city, has been appointed Assistant Assessor of Internal Revenue for this (the Third) District, etc. C. Posner (white) removed.

— Messrs. P. Murphy & Co. advertise that they have embarked in the Commission business, and solicit a share of patronage. They will attend to the sales of all kinds of produce and the purchase of supplies, and will make advances on consignments. — We regret to learn, yesterday afternoon, that the condition of Mr. Robert Costin was anything but encouraging. He was troubled much with fever on Sunday and again on yesterday, which was having a very bad effect upon him.

Cape Fear Academy. The fourth annual session of the Cape Fear Military Academy will commence on Monday, October 23, in the same location as heretofore. The reputation of this institution, under the supervision of Gen. R. E. Colston, is too well established to require any recommendation at our hands.

Cool Weather. On Sunday night, as we are informed by Sergeant Seyboth, Signal Officer at this point, the thermometer at Mt. Washington stood 80 degrees below the freezing point, and yesterday morning it was 11 degrees below the freezing point, and the wind blowing 78 miles an hour, which would indicate a violent hurricane.

From Charleston. From the News of yesterday morning we learn that there have been only 56 deaths from yellow fever from the 15th of July, when the first death from that disease took place, up to Saturday, Sept. 16th. For the week ending Saturday there were only 9 deaths from the fever. The News says: "We have good reason to believe that the mortality will steadily diminish, and by the end of the month will be insignificant."

Charleston has a population of nearly 50,000, and we have only 9 deaths from fever in an entire week. The epidemic is astonishingly mild in character, and Charleston, in spite of the fever, is one of the healthiest cities in the Union." The same paper says a letter from Cedar Keys, dated 11th instant, and addressed to the Jacksonville Union, announces the appearance of yellow fever there. Twenty cases have occurred and four deaths.

Our press telegram of last night reports only one death from the fever for the twenty-four hours preceding. — A Chicago groom forgot his bride's name. —Yaleville, Conn., hasn't a single old maid.

—Some husbands, though anything but sharp, are awfully shrewd. —Most lovers like to be alone—with their sweethearts, of course. —Deep in woman's nature the love of housecleaning is implanted.

—The anti-kissing movement at Saratoga has crumbled into ruins. —Seven young women from Oregon have become students in one of the Boston conservatories of music. —Women will henceforth be admitted to the Wesleyan University, at Middletown, Conn., on the same terms as men.

A Good One. The Newbern Times is responsible for the statement that a congregation of colored Baptist in that city, as that paper is informed, are keeping up a thirty day protracted meeting, in order to be prepared for the coming of the big wave. For the last few days, this meeting has been going on night and day without cessation, the meetings being kept up all night.

Appropos of the above, we have it on good authority that a number of colored people residing on the Sounds below this city are so agitated about the coming wave that they have opened a correspondence with some of the leading colored men of this city in reference to the propriety of removing their families to this place, in order to be as far as possible out of danger.

Advertising for the People. We would call the attention of the public to the MORNING STAR'S charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance.

This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to the MORNING STAR as a medium for communicating with their several but unknown customers.

Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places. The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.

RIVER AND MARINE NEWS. — A telegram from Fayetteville via Raleigh, received by the People's Steamboat Company, announces a freshet in the Cape Fear. "So, we may look for a whole fleet of steamers within the next forty-eight hours."

— A telegram received by Messrs. Williams & Murchison, dated 17th, reports a rise of 4 1/2 feet at Fayetteville, and river still rising. This will put the river in fair boating order for some time, at least; and it is hoped that further rains will make navigation continuous for many months to come.

The steamer A. P. Hurt, Capt. Skinner, arrived here yesterday afternoon, being the first Fayetteville boat that has made her appearance in our waters since last Friday week. Capt. S. reports that he left Fayetteville on Monday of last week, getting as far as Elizabethtown, where the boat was detained for several days by the low water. Leaving there Friday she got as far as Jones' Woodrack, about fifty miles up the river, which point she left yesterday morning. Capt. Skinner knew nothing of the freshet at Fayetteville, but this was natural, as it had not reached far enough this side of Fayetteville to be felt up to the time of his arrival.

Boarders. If you want Boarders, advertise in our new department, under head of "Wants," at half our regular rates, for advertisements not exceeding five lines.

If you have found anything, advertise in our new department, under head of "Lost and Found," at half our regular rates, for advertisements not exceeding five lines.

SPIRITS OF TURPENTINE. — Mr. Hugh F. Murray, has become the associate editor of the Washington Express.

— A number of colored laborers have left Wilson county for the sugar plantations of Louisiana. — Near the Neuse on Broad street in Newbern, James Davis, in 1849, set up the first printing press ever in North Carolina. So says the Journal of Commerce.

— We learn from the Sentinel that the Cherokee Indians of this state will certainly play their annual game of ball in that city, sometime next month, probably during the fair week. — The Robesonian is reliably informed that the radicals of that district are making up their lists, with the following nominations: O. H. Dockery for governor, Judge Russell for congress, and Nathan McLean for judge.

— Two prisoners, one white and the other colored, escaped from the Green, county jail on Sunday morning of last week, but were pursued and recaptured. The negro was fired upon by the sheriff and was so badly injured that he died on the following Tuesday.

— The Statesville American says: During Court week we conversed with citizens from Alexander, Wilkes, Yadkin and Surry, and they concurred in a most favorable report of the corn crop. The upland corn will turn out very well, and the yield of the bottom lands, which are extensive, will be most large.

The Newbern Times says: We are informed that the people living along the Banks and at Beaufort, and the entire sea coast, are in view of the visit of the Tidal Wave, holding grayer meetings night and day, in which prayers are made to avert the supposed impending calamity. Many persons are joining the church, and a general religious feeling prevails.

— The Raleigh Sentinel says: J. B. Carpenter, of the Rutherford Star, was knocked down on Friday, in the office of carpet-bag Shaffer, in this city, by Detective Hester, Carpenter, it is said, presented a second time an account against Hester which had been paid. Angry words passed, when Hester knocked Carpenter down.

A Mrs. Sarah Faucett, a highly respected widow lady, of Alamance county, committed suicide on Monday, the 11th inst., by suspending herself by the neck to a rafter in an outbuilding of her residence. She left a note stating that she had been seduced and ruined by a man by the name of John Ireland, that he had accomplished his purpose by force and threats, and that she could not survive her loss of honor and character, and took her life to hide her shame. So we learn from the Sentinel.

THE PEOPLE have been so much imposed upon by several worthless Sarsaparillas, that we are glad to be able to recommend a preparation which can be depended on as containing the virtues of that invaluable medicine, and is worthy of the public confidence. DOCK AYER'S SARSAPARILLA cures when anything can cure the diseases that require an alterative medicine.

It has no Rival. The standard excellence of DOOLEY'S YEAST POWDER has been satisfactorily demonstrated to be owing to its STRICTLY CHEMICAL PURITY, no articles being used in its composition but those especially adapted to the purpose, and such as are free from any injurious substances. Two teaspoonfuls of Dooley's Yeast Powder is all that is necessary in a quart of flour, while ordinary Baking Powder requires from one-third to one-half more. Hence, Dooley's is the most ECONOMICAL, RELIABLE, and the BEST. Manufactured by DOOLEY & BROTHERS, 69 New St., New York. For sale by grocers generally. [Sept 19 6od1w Tu Th Sat
