The End of Vacation.

Vacation is about over and Monday many o the little folks will resume the studies which have been interrupted during the past three months. There is a time for play and a time for study, and now that they have indulged in the former for a good long season, it is to be hoped that they will enter upon the latter with renewed vigor and determination to prepare themselves for the stern realities of life.

Ladies, Attention!

The ladies are informed that Mrs. L. Flanagan, who has been absent for some weeks in New York and Baltimore, has just returned with a complete assortment of Millinery and Fancy Goods, including everything appertaintisement, which will appear in a day or two.

# MORNING STAR.

#### Vol. IX-No. 8.

#### WILMINGTON, N. C., SUNDAY, OCTOBER 1. 1871.

Local Dots. - Holding ice in the mouth is the latest cure for sore throat.

- Meeting of County Commissioners tomorrow morning.

- Regular meeting of Board of Aldermen to-morrow evening. - Free Love (colored) Lodge of Odd Fellows

will initiate six new members on Tuesday night. - The "tidal wave" hoax is the general

laughing stock of the newspapers throughout the country. '

- There was no session of the City Cour yesterday morning. There are several cases awaiting trial.

- Many families changed their residences yesterday, but to-morrow will be the great 'moving day."

- We learn that a number of the young men of Wilmington are getting up a club to play a match game of bass ball during Fair

- This morning's Post contains the valedictory of Mr. C. I. Grady as Editor. The paper, we presume, will be continued, but under different auspicies.

-Thanks to Mr. R. L. Harris for copies of the New York Ledger and Chimney Corner for the current week. Call at his News Depoton Fron street for the latest publications.

- The Stalls in the Market House will be rented to-morrow at 12 o'clock, on same terms as last year. At 216 o'clock, same day, the stalls in the Brooklyn Market House will be rented.

- We were pleased to meet Rev. Mr. Patterson, Rector of St. John's Church, of this city, on our streets yesterday, he having just returned from his somewhat protracted visit North much improved in health.

- The Professor of the Classical and Mathematical studies at the German American Institute is Mr. John Chebaut. The French and German studies are also under his charge, of which he is said to be a thorough master.

- Jackson Corbett, colored, committed to jail on the 12th ult., on the charge of larceny, to await his trial at the next term of the Superior Court, was released yesterday upon entering into the necessary bond for his appearance.

- Mr. D. A. Smith, the Furniture man, has removed into his new and commodious store on Front, between Princess and Chesnut sts., where, without any doubt, he has one of the largest and most complete stocks of furniture ever offered in any Southern market.

- It will be seen by advertisement that Mr A. B. Cook has connected with his grocery establishment a "New Market," where he is prepared, daily, to supply the people with all kinds of fresh meat, sausages, poultry, &c. Cook has energy and a very creditable share of enterprise, and as this new feature is an impostant one for the convenience of people in that section of the city, he will doubtless be handsomely sustained.

For Sale or Rent.

If you have a house or farm for sale or rent advertise it in our new department, under head of "For Sale or Rent," at half of our regular rates, for advertisements not exceeding speak for himself through our columns: five lines.

The Use of Lighted Torches by Sailing

It having been represented to the Department that the use of a lighted torch by sailing vessels on the approach of a steamer during the night time, as required by section 70 of the Act of Feb. 28, 1871, endangers the safety of such vessels when laden with wood, hay, or other combustible material, the Collectors of Customs and others are instructed that whenever it is apparent that the use of a torch or flaming light would endanger the safety of the class of vessels referred to, and that a different light may substantially answer the purpose of the law, a large globe light may be used instead of a lighted torch: Provided, however, that such globe light be waved or swing to and fro in such a manner as to distinguish it from a permanent light.

Dr. Moran in Fayetteville.

The Fayetteville Eagle of Thursday, received last night, says: Dr. Moran, of Wilmington, preached Sunday morning and evening in the Methodist Church. The sermons were of the highest order, eloquent, searching and convincing. We have rarely ever listened to a discourse abounding in more intellectual beauty and richness, and more spiritual comfort and truth. The congregations in attendance were very large and attentive, and the universal sentiment and desire is that Dr. Moran may frequently repeat his visit to our town, where he may be always sure of a hearty welcome.

Advertising for the People.

We would call the attention of the public to the Morning Star's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance

This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the MORNING STAR as a medium for communicating with their several but unknown cus-

Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places.

The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization ing to a lady's toilet. Watch for her adver- is saving time, labor, and money, in carrying on the business of life.

#### Our Chip Basket.

- Open watering places-milk cans. - A fine point-the point of a needle.

- Flowers teach us the tenderness of God's characters.

- Give not thy tongue too great a liberty, lest it take thee prisoner.

- Iowa is said to be the champion State for female newspaper reporters.

- Who pays the highest price for a home? The woman who marries for one.

- The new bonnets are a cross between a round hat and an inverted coffee cap.

- Miss Butler, a school mistress, has been made assistant pastor of the Trinity Methodist church, at Springfield, Mass. - Chemists say linen can be converted into

sugar. A young bachelor says he has seen the sweetest kind of "sugar"-in linen. - A fond wife threw a bottle of Hair Restorative at her husband's head, causing him to

exclaim, "We must part-the dye is cast." - A feminine child of this world, no doubt wise in her generation, naively says: "I never dress much for the play, because every one is looking at the stage, but no one is more particular about their dress at church."

By reference to the records in the office of the Register of Deeds we find the following list of Marriage licenses issued for this county during the month of September:

Whites-Willis Turlington and Sarah A. Sullivan; Joshua Tindall and Margaret Horel; F. H. Johnson and Betsy A. McGinnis; W. B. Mahoney and Willie A. Gregory; W. E. Springer and M. A. Rush. 'Total, 5.

Diarrhae, 1; brain fever, 1; congestion of brain, 1; congestive chill, 1; consumption, 2; croup, 1; teething, 1; wound in the head, 1; not stated, 2. Total, 13. Of these 7 were males, 5 females and 1 not stated. Four of the number were adults and 9 children, and of the adults one was aged 58 and one 73 years.

Information Wanted.

There are some things a "A Citizen" would like to know, and as we are not prepared to give him the desired information, we let him

MR. EDITOR: Passing along Third street, below Ann, I observed a gang of negroes dig-ging up the earth in the street and piling it up in long ridges like huge potato beds, and as the colored gentlemen in charge did not condescend to reply to my inquiry as to what the object of the work was, I concluded to ask you, as E itors are expected to know every thing, if the object is, as has been suggested to erect embankments to esist the anticipated tidal wave; for if so (and I can see no other use for the work) I am decidedly of opinion, first, that the embankments should be across the street instead of longitudinally; and, in the second place, that the hands employed on the work, instead of standing still and nursing their shovel handles, and occasionally throwing a shovelful of earth on the embankment should push on with the work or the wave will come before they have got the ridges half completed.

RIVER AND MARINE NEWS.

- The Fayetteville Eagle states that the Cane Fear river up to last accounts was so very low that the boats could hardly run; but It is thought that there has been some heavy rains up the country, and a freshet is expected

way back to their old home. - The Newbern Journal of Commerce says: It is impossible to convince the colored people in this section that the Tidal Wave is a myth. They are holding meetings night and day, praying and exhorting their brethren to prepare for the flood.

- We learn from the Eagle that Fayetteville was visited on Wednesday by a party of excursionists numbering one hundred and fifty or more, and hailing from various sections of Virginia and North Carolina. These gentlemen arrived on a special train at 3 o'clock, P. M., and were received at the depot by Mr. James H. Myrover in a neat address of welcome. which was appropriately and felicitously responded to by Mr. Collyer, of Peters burg. Of course they received every attention at the hands of the hospitable citizens of Fayetteville.

NEW ADVERTISEMENTS.

AN UNPROTECTED SYSTEM. Do not fancy because you feel strong that you are impregnable to sickness. Whole neighborhoods are frequently prostrated at this season by malarious fevers. Vigorous muscles and strong sinews, broad shoulders and sound lungs, are no defence against the mephitic vapors of autumn. Frames which have withstood the summer heat may succumb now. Many an athletic man, whose family depends for its support on his industry, now lies prostrate, weak and helpless as a tabe, under the periodical assaults of chills and fever, or bilious remittent fever. This could not be if all were wise enough to provide against such a contingency, by toning and forifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmless, so that it is sheer folly not to take it as a safeguard at a season when diseases of the liver, the stomach, the bowels, and indeed all the visceral organs are renerally prevalent. To keep the system in order and insure health, or to put it in order when this precaution has been neglected, is the duty of every human being who values life. For both these purposes Hostetter's Bitters is designed, and it answers both .-Petty local dealers are endeavoring, in many parts of the country, to substitute preparations made of impure and dangerous materials in its stead. Give them a wide berth. They are prepared by unskilful experimentors, who want to turn a penny at the expense of the public health. [sept 30-codlw Su We Fri
