We hope there will be no further disappointment. The business men of Charlotte want direct Railroad connection with Wilmingt on, and we presume the business men of Wilmington are also anxlous for the connection ; if they are not, they are blind to their interests, for no road can benefit Wilmington so much as the one from this city, "

We believe our people fully appreceiate the importence of the speedy completion of the road and that it will be hailed as the dawning of a new erain the commercial advancements of the representative cities of the mountains and the seashore of our good old State.

MAYON'S OFFICE, City of Wilmington, N. C., Oct. 3d, 1871. Editor of Daily Morning Star: For the information of the public, in regard to the action of the Board of Aldermen, at their meeting of Oct. 2d, anthorizing the sale, or pledge of City Bonds to the extent of \$100,000, I solicit the use of your columns to explain : The resolution was passed with a view to negotiate a new loan at a less rate of interest than is at present paid by the city, and pay off the bank debt and money borrowed of individ-uals. No additional debt is to be created. The saving to be made will be from \$4,000 to 5,000 per annum, in interest. The present unfunded debt of the city is, in round numbers, about \$73,000, upon which in-terest is paid at the rate of from one to one

and a half per cent. per month. The unfunded debt as it now stands is made up of the following items, viz : Amount of unfunded debt January 10,

1871, \$22,500

1871, \$22,500 Amount for payment Wilmington & Manchester Rall Road Bonds, due April 1st, 1870 and 1871, and on loans, 13,000 Amount paid to redeem bonds of the city of Wilmington, placed for sale on account of city, in the hands of Utley & Dougherty, 11, Wall street, N. Y., and by them hypothicated for their own use 13,500 for their own use, Amount borrowed for temporary pur-12,500

poses, in anticipation of taxes, &c, 25,000

Making up the amount, \$73,000 By the failure of Messre. Utley & Dougher-ty, of New York, who had been the agents of the city, it became necessary to relieve from pledge, made by that firm, \$23,000 of gold 6 per cent. interest bearing bonds, which had been placed in their hands for sale, and been placed in their hands for sale, and had been pledged by them, for there own use, and which they were unable to redeem. It was expected and hoped that this firm, so well and honorably known heretofore, would be able to extricate themselves from their financial difficulties and pay back to the city the sum due it, amounting to nearly \$16.000, comprising amount paid to redeem bonds pledged, and nett proceeds of five bonds of \$1,000 each, sold by them for which they had failed to remit. Negotiations have been carried on for some time which gave reason to. believe that the city might be secured. They have all failed. I have recently received a notice of the intention of that firm, to take advantage of the Bankrupt Act. I deem it my duty at this time to inform the citizens of the facts of the case.

tion. The fire was first discovered, between 10 and 11 o'clock, on the roof of a three story dwelling house, occupied by Mr. W. H. Sykes, It thence communicated above to an old abandoned house, and below to the law office of Col. J. A. Richardson, and following this course the flames next seized upon the law office occupied by Mr. R. H. Lyon, thence communi-

cated to the store owned and occupied by Mr. F. F. Cumming, with an office adjoining, and thence to the law office occupied by Mr. Thos. H. Sutton. Here the further course of the devouring element in this direction was stayed. The wind blew almost a gale at the time and burning fragments of large size were flying in every direction. Through this means a kitchen and smoke house in the rear of the dwelling occupied by Mr. R. H. Lyon, opposite Mr. Cumming's Store, was destroyed, and it was only through the utmost exertions that the residence, together with the buildings adjoin ing, were prevented from sharing the same

fate. The other buildings mentioned were all destroyed, including in the number the only three law offices in the place. Fortunately all the goods, furniture, books, &c., contained in the burning buildings, were removed.

The first four houses named were the proper ty of Mr. T. C. Smith, whose loss is estimated at \$3,500. Mr. Cumming was the heaviest loser. His store was a very large and valuable one, and his loss is not less than \$4,000. The law office occupied by Mr. Sutton was the prop-

erty of Mr. J. A. McDowell, whose loss is estimated at from \$800 to \$1.000. The smoke house and kitchen destroyed belonged to Messrs. Sutton and Lyon. Mr. S.'e loss is about \$500. There was no insurance os any of the buildings.

It is the general impression that the fire was purely secidental, and is supposed to have originated from a spatk.

The conflagration was a most disastrous blow to the little town, and very naturally caused the most intense excitement.

We learn that Mr. Cumming had an iron safe (the very one, by the way, which was recently broken open and a large amount of money abstracted therefrom) which he had placed in a niche in the chimpy of his store. made for the purpose, and bricked in, which was so effected by the fire that it can hardly be used for old iron, showing that the heat must have been intense.

The attention of the public is called to the superior facilities we now have for executing cheaply, promptly and skilfully all kinds of Binding and Ruling. Our business in this department has alreadily increased, an evidence that we have not labored in vain in our effort to establish a Book Bindery equal to the demands of our growing city. But we are determined to do still more; and as our business grows so will our facilities be increased. 2taw2w Give us a trial.

The Resignation of Rev. H. L. Single-

We briefly adverted in our last to the fact that Rev. H. L. Singleton, Pastor of the First Presbyterian Church of this city, had resigned his charge. The following resolutions will show in what estimation he is held, not only by the members of his own congregation but by those of other denominations, who sincerely regret that it has been found necessary for him to sever the relations he has so long held with the church and go to another field of labor:

Resolutions adopted by the congregation of the First Presbyterian Church, Wilmington,

N. C., October 1st, 1871: WHEREAS, The Rev. H. L. Singleton, for six vears past the faithful, efficient and Christian Pastor of the First Presbyterian Church, Wilmington, has, from motives satisfactory to himself, tendered his resignation as such, be it Resolved. That we recognize in the Rev. H. L. Singleton, the zealous Pastor, whose minis-trations have been prompted by a sincere de-sire to build up this church, and promote the general welfare of the cause of Christ, and whose labors have been blessed to a very great

degree, as is amply attested by our records. Resolved, further, That in concurring with him in his request for a severance of the pas-toral relation, we tender to him our sincere wishes for his future prosperity and welfare, and pray that his labors may be abundantly blessed to the upbuilding of the Redeemer's kingdom; and we bespeak for him the cordial sympathy and co-operation of those with whom his lot may be cast. JAS. D. CUMMING, A true copy. Clerk of Session.

At a meeting of the congregation of St. Paul's Evangelical Lutheral Caurob, held Oct. 1st, 1871, on motion of Mr. H. B. Eilers, it was unanimously adopted, that a committee, of five members be appointed to drait resolutions exressive of their sympathy and regard for Rev. H. L. Sengleton, late pastor of the First Pres-byterian Church, of Wilmington, N. C. The following persons were then appointed, viz: H. B. Eilers, H. Vollers, H. G. Hashagen, M. J. Dingelhoef and Henry Haar, Sr., to which the name of Rev. G. D. Bernheim was afterwards added. The committee met and agreed upon the fallowing :

We learn from the Messenger that little Freddy Smith, son of Mr. J. G. Smith, of Goldsboro, fell from a tree on Thursday last, by which he broke both of his arms, his right thigh and sustained other but less painful injuries. The fall was about twenty-five or thirty feet. At last accounts he was doing as well as could be expected.

- The Newbern Times says that Geo. W. Potter, well known in that city, had a very narrow escape from a horrible death, at the plantation of his father, some five or six miles from that city. While in the gin house, he undertook to shift a belt while the machinery was in operation, and in doing so his hand became entangled and he was immediately whirled with great velocity around the wheel, the body performing a complete involuntary sumer-sault. The accident was witnessed by an employee on the premises who with great presence of mind stopped the action of the engine on the part of the machinery by which Mr. Potter was caught. He re-
