amine the well and the surrounding country. A report was then made and published, but in consequence of the predic. tions of an eminent man of science, that the ice would soon cease to form in the votes would make little difference, for Re- Brandon well, it became necessary to wait a few years to collect further facts. The committee now reports that for twelve years the ice has remained in the Brandon well during the hot months of summer. notwithstanding openings were made in the soil and a tunnel was run into the gravel bed to give more free access to the warm surface water. It has been suggested that the water dissolves something from the rocks that makes it a freezing mixture, but a chemical analysis shows that one wine gallon of this fluid contains 25.2 grains of solid matter, resolvable into 6.8 grains of vegetable matter and 18.4 grains of mineral salts. Of the solid matter, 2.8 grains were found to be composed of bi-carbonate of lime, magnesia and 1ron, and sulphate of soda with traces of chloride of calcium and sodium. There is, therefore, nothing in the composition of the water A second one says, "They have cut down which will explain the freezing. Other my early crop, and are sitting on the fence persons, arguing from the theory that | waiting for the late crop to come up." electricity produces hail, have assigned the action of the same influence as the anything about it. I passed a seed store cause of the frozen well. Repeated tests with the magnetic needle failed to disclose any difference in local variation, thus showing that no perceptible electric current was passing through the well or the surrounding soil. The original explanation is therefore adhered to by the committee. The gravel bed, it is believed. was frozen by the cold of previous rigorous winters, and the wave of summer heat has not yet been able to overcome that cold. Brandon is situated in Rutland county, Vermont, and has the same latitude as the northern part of Lake George.

Address, WM. H. BERNARD, Wilmington, N. C.

INCENDIARY APPEALS.

From Judge Reade's barn-burning Legislative Address and Holden's Caswell-Alamance proclamation down to the lowest harangue ever made in a midnight League meeting, we condemn incendiary appeals. They excite the hot fever of hate, and raise up a plentiful brood of crimes. Partisan appeals have brought the country to its present lamentable condition. The incendiary teachings of the Abolitionists brought on the war and all our ills and woes. Had there been no William H. Seward, there had not been a Southern Confederacy. It was the Giddingses, the Hales, the Burlingames, the Thad Stevenses and the Wendell Phillipses of politics, urged on and prayed for by the Beechers, the Parkers, the Simpsons of the pulpit, who were the real authors of that most stupendous and indefensible crime of the age, the war against Southern liberties. Their instrumentalities were tracts secretly circulated among the negroes, books of an inflammatory character concerning slavery, encouragement extended to the Jim Lanes and John Browns of their party, and agitation by petitions and public meetings with the purpose in view of influencing Congress. These men precipitated the country into

a bloody war, from which it emerged with sore losses of men, means and what is of far more importance, liberty. They have shaped the destinies of the country and shaped them for evil. All legislation is Rev. A. W. Leland, an aged servant of the transacted by them. They control the Lord, departed this life yesterday after-Executive. The Judiciary they have muzzled. In a course of successful ty- family.

nority and a few thousand fraudulent publican committees to incite to murder. but in South Carolina, where the arrogance, roguery and lust of a dominant ignorant race are occasionally held in check by a little extra-judicial authority, it is treason to flog a negro, and perchance if one is hung for some heinous offence against the laws of GoD and man, it be-

comes aggravated high treason. "Any person who attempts to perpe-

trate fraud upon the ballot bot, ought to be shot upon the spot." Under this, their own ruling, more Radicals would be shot than Democrats. Stuffing the boxes, repeating, making false returns, is the way they retain power. They ought to be the last to divest themselves of this dear

privilege. We do not know what would become of the negro-poor fellow-if you confine him to one vote. Suppose you shoot him for voting twice, as suggested by his Radical friends in New York ?

Palmetto Leaves.

The Mysterious Murder of a Man in Southern Ohie.

Mystery still surrounds the death of young Brooks. The facts, as elicited at Tuesday next by a large majority. There about his own age, fell in with two women | those sections where there are very large on Tuesday evening of last week, and sauntered through the streets until they came to the vacant lots in the neighbor-

hood of the brick-kilns, at the back of town. There they separated, Brooks and one of the women going some distance over in the field until they were lost in the darkness, his companion and the other woman remaining at the fence. After some ten minutes had elapsed, those at the fence heard loud screams and the sound robbery of the people of \$450,000,000 .of heavy blows proceeding from the direc-Wash. Patriot. tion in which Brooks had gone. Alarmed, they fled, and saw and heard no more. The woman Fremont, who was with Brooks, states that while she was conversing with him in the field, some one suddenly came upon them from the grove, dealt him a murderous blow with a a club, and seizing her by the throat, choked her in such a way as to alnoon. He has been a resident of this city most deprive her of sense, while he for many years, and has reared a large struck Brooks twice in succession; that to retrace his way." the assassin dragged her some distance,

the national debt and the maintenance o the public credit.

How to Make Cotton King. The Columbus Enquirer very justly says that our people will always be at the

mercy of speculators, so long as they continue to produce cotton on a credit. When they learn to keep out of debt, to produce their necessary supplies at home, and look to cotton as a clear agricultural surplus, then they will have a voice in its sale, and obtain release from the clutches of traffickers. We are certainly very slow to earn from experience, else we would not now be forced to sell at 161 cents, when by holding we might realize 20 cents, and perhaps more.

Here is a good one on the "tater bugs:" Three men were comparing notes. One says, "There is two bugs to every stock." "'Pshaw," said the third, "you don't know the other day, and the bugs were in there looking over the books to see who had purchased seed potatoes."

A New Chinese Movement.

Mr. Yung Wing, a Chinese gentleman who was educated in the Yale College, students to the United States, and the Chinese government has voted a grant of \$1,500,000 to meet all expenses for the ensuing ten years. The number of students will be yearly increased by installments of thirty.

Leading Virginia Radicals now in Washington admit that the Democrats will carry the election in that State on the inquest, are substantially as follows: is a general complaint among the Radicals William Brooks, with a companion of of the lack of necessary white support in proportions of negro population .- Wash. Patriot.

Freeman Clarke, formerly Comptroller of the Currency, and now a Republican member of Congress from New York, pub-licly stated that of the \$900,000,000 collected from the people by the Federal officers, only \$450,000,000 had found its way into the Treasury. Here is a direct

Gone Back.

The Rev. Mr. Milburn, the blind preacher, who some years since left the Methodist for the Protestant Episcopal Church, has gone back to his first con-nection. In his letter announcing this determination he writes to Bishop Bissell, of Vermont, simply that "he took a talse step, and the only right course for him is,
