## Local Notes.

—The Board of Aldermen meet to-morrow

evening.

—Messrs. Green & Flanner's Drug Store

will be open to-day.

—Regular meeting of Concord Chapter No.

1 to-morrow evening, at 7 o'clock.

—Messrs. Southland & Steagall have a

number of fine Kentucky mules for sale.

—Wm. Jones and Samuel Payne, both col-

ored, were sent to the Work House yesterday.

—There will be preparatory service and

Communion in the English language, in the

Lutheran Church, this morning.

—We were mistaken in classing John S. Da-

vis, who was sent to the Work House yester-

day, as a colored man. He is white.

—The regular monthly meeting of the

German Association will be held at the Club

room to-morrow evening, at 8 o'clock.

—C. L. Chesnut, Esq., of the Banking

House of James Dawson, Esq., of this city,

has been appointed a Notary Public by the

Governor.

—The official list of drawn numbers in the

Charleston Land and Immigration Scheme has

been received, and can be seen at this office

on Monday.

—In the Supreme Court on Friday the case

of the State ex. C. T. Chilton, from New Han-

over, was called and argued. Attorney Shipp

for the State. No counsel for the defendant.

—We return our thanks to Mr. R. L. Harris

for the New York Ledger and Chimney Corner

for the current week. All sorts of reading

matter can be found at his stand on Front

street.

—To cure a felon, as soon as the parts be-

gin to swell get the tincture of lobelia and

wrap the part affected with a cloth saturated

thoroughly with the tincture and the felon is

dead.

—The largest and only prize drawn in this

city, in the Charleston Land and Immigration

Scheme, so far as is now known, was \$100.

The lucky individual was connected with a

printing office, of course.

—Bridal dresses this season are mostly of

tulle pulled and flounced and elaborately

trimmed with point lace, satin ribbon, and

orange blossoms, and are infinitely more be-

coming than silk, satin or velvet.

—Attention is called to the advertisement

of the Camden Journal. As direct steam

communication has been established between

Wilmington and Camden, the Journal should

receive a large advertising patronage from this

city.

—The Richmond Why says: The South

Carolina Land and Immigration Society lot-

tery was drawn on the 11th inst. It is reported

that Charles B. Young, a typo in the Dispatch

office of this city, drew a prize of \$10,000.

Lucky type!

—Flaming posters, announcing the ap-

proaching advent of Haight & Co.'s mammoth

circus and menagerie in Wilmington, were

being placed on the huge bill boards erected

for that purpose last night. How will that do

for "Sunday reading?"

—The new bell for the Christian Chapel

(colored Methodist) has arrived and will be

placed in position early next week. It weighs

507 pounds and will have a fire alarm attached.

This church is located on the corner of

Seventh and Church streets.

—In addition to the amusements with

which we are soon to be favored, mentioned

in yesterday's paper, we will state that Mr.

Powell, of the Richmond Theatre, with Miss

Kate Fisher and her celebrated horse,

"Wonder," are expected to visit Wilmington

during the present season.

—The Tobacco Plant is the title of a new

paper published at Durham, the first number

of which is before us. The politics of the

Plant is not foreshadowed in the salutatory,

but the editor, C. B. Green, Esq., is known

as a sterling democrat. We welcome the

Tobacco Plant to our list of exchanges and

wish the editor abundant success.

—The charter of the Freedman's Savings

and Trust Company provides that "whenever

it shall appear that, after the payment of the

usual interest to depositors, there is in the

possession of the corporation an excess of

profits over the liabilities amounting to ten

per centum upon the deposits, such excess

shall be invested for the security of the de-

positors in the corporation." The usual 6

per cent. per annum interest will be ready for

depositors on or after the 20th, and will be

paid them or entered upon their pass books.

—The German Lodge, K. of P.

We learn that Germania Lodge No. 4,

Knights of Pythias, design giving a grand ball

at City Hall at an early day, the proceeds to be

applied to the benefit of the Lodge. "Germa-

nian" is the first and only German Lodge in-

stituted in this State, so far, and it is gratifying

to the friends of this flourishing order to note

the rapidity with which it is increasing in

numbers and influence. In fact, we should

not be surprised to hear ere long, that the last

of our German fellow-citizens had attached

himself to the Lodge. Nearly every meeting

witnesses large accessions.

—"Don't You Go, Tommy, Don't Go."

We learn that another effort is being made

in this city, by agents from Texas, to induce

emigration to that State. We hope none of

our people will listen to their glowing de-

scriptions of the "Lone Star State." They

had better consult some of the returned

proslaverys, who last year sold out what little

property they owned and followed some of

these agents to Texas, fully impressed with

the belief that they were going to make their

## Annual Report of the City Marshal.

From the annual report of City Marshal

W. P. Cannaday, to the Mayor and Board of

Aldermen, we glean the following items of

interest to our readers:

In the Street Department for the past year

an average of twenty-eight hands have

been employed in the discharge of the various

duties assigned them.

In the Northeast and Southern suburbs of

the city there have been during the past

year about fifteen thousand yards of ditch cut;

besides which the old ditches cut during the

two years preceding have been cleaned out.

The unusual good health which has prevailed

during the past year, together with the de-

crease in the number of deaths, he attributes

in a great measure to the system of drainage

which has been introduced, and he recom-

mends that it be continued until every pond

or place where water can stagnate is thor-

oughly drained. He thinks this work can be

satisfactorily completed before the close of

the present year, and estimates the cost at

about \$1,000.

The work of sawdusting the streets, which

has greatly improved them, adding largely to

the convenience of persons residing in remote

sections of the city and enhancing the value of

property in such localities, besides facilitating

the running of the fire engines, has been vig-

orously carried on during the past year, about

ten miles of streets having been covered with

it during the twelve months just closed.

The Marshal recommends that this work be

continued until every citizen experiences the

benefit of it.

He recommends the opening of new streets

in certain localities, and thinks also that some-

thing should be done to place the streets that

have already been opened in a passable con-

dition. He also recommends that immediate

steps be taken to put the various docks, which
