The Masquerade Ball.
Extensive preparations are in progress for the Masquerade Ball to be given by the L'Allegro Club on Friday evening next. We learn that quite a large number of spectators are expected to be present. Persons who have received tickets of invitation to the regular series of "hops" but have misplaced them can get them duplicated by calling on the Secretary.

Extension of the Street Railway.
The work of laying the track on the extension of the Street Railway from the corner of Ninth and Rankin streets to the Union Depot was commenced yesterday, and we are informed by Col. Klein, the lessee, that the work will be completed in three days. A baggage car has already been built and placed on the track, and yesterday it was kept busy in transporting the necessary material from the old Weldon depot to the scene of operations. This extension will be a matter of great convenience to the traveling public and will be highly appreciated by them.

Marl or Limestone for Pavements.
We are glad to see a disposition on the part of our authorities to use marl or limestone in the laying of pavements, as evidenced in the fact that Seventh street is to be paved with that substance. There is nothing more durable than marl or limestone for that purpose, and instances to substantiate this assertion can be cited in this city, where it has been used to a small extent. But durability is not its only recommendation. The medical fraternity say that it is healthy, inasmuch that it absorbs the gases and has the effect to purify whatever substance of an unhealthy nature it may come in contact with. We hope to see marl or limestone in general use for pavements in our city, wherever it may be deemed inexpedient to employ stone or brick for that purpose.

To Keep Sausage Fresh.
When the meat is first prepared and seasoned, it will not be necessary to stuff in anything, but just make it out in cakes of convenient size, then fry it (not in very hard or brown) in pure lard, and pack it closely in jars or tin cans and fill the interstices with the hot gravy, and it will remain as fresh and sweet as when first cooked, for any length of time desired. When needed for use it can be warmed or refried in the same lard or gravy, at pleasure.

By adopting this simple and certain plan, all families that pickle their own pork or beef may be independent of the market for a fresh supply of fresh sausage season; and such a prospect it will not be likely to forget it or neglect it afterwards, for the principle and the result will both commend themselves to the judgment and confidence of all that give it a fair trial.

A New York belle told a suitor for her hand that she would accept his offer in six weeks, if Mr. S. and so didn't make a similar offer in the meantime.

Jail Delivery.
Three white prisoners, confined in the Debtor's room in the county jail, succeeded in effecting their escape on Sunday morning last. The names of the parties are Henry Douglas, charged with passing counterfeit money; C. T. Clifton, charged with forgery; and W. C. Robinson alias W. C. Hardy, charged with robbery. They made their escape by cutting through the brick wall of the room in the Southern end of the jail, removing a sufficient number of bricks to make a hole large enough for them to pass through.

Immediately under this hole was a chicken coop, upon which, with the aid of blankets, they lowered themselves, and from thence jumped to the ground. They then repaired to near the rear of the premises where, with the assistance of a plank, they scaled the wall of the prison yard and were free. There was a fierce dog on the premises, and there were signs of a struggle between the animal and the prisoners all along the route from where they first reached the ground and where they scaled the fence. Neither the jailor or any of his attaches heard any noise during the time the escape was in progress, which is supposed to have been between 4 and 5 o'clock. The jailor says he made his usual examination of the premises about 11 o'clock and there was no appearance of anything wrong at that time. The wall through which they escaped was the thickness of three bricks and the hole was almost on a line with the floor, being hidden to the view of those who entered the room by a lounge, which stood against the wall in that particular location. Douglas, the counterfeiter, was evidently the leading spirit in the enterprise, as the others are supposed to have been incapable of carrying it through successfully. No clue, as yet, has been obtained as to their whereabouts. In this connection, we must record our surprise that three criminals should have been allowed to occupy the Debtor's room together.

Advertising for the People.
We would call the attention of the public to the Morning Star's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices, such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance. This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the Morning Star as a medium for communicating with their several but unknown customers.

Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places.
The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.
