Probabilities.
The low barometer over Cape Hatteras will
probably move northward with the Gulf
stream, and northeast winds and cloudy
weather can be expected over the Middle Atlantic
States; clear weather will probably continue
in the Gulf States, with light winds; cloudy
weather prevail in the Ohio valley, clearing
away Sunday P. M.; clear, cold weather con-
tinue with northerly winds in New England.
Dangerous winds are not anticipated for the
Atlantic and Gulf coasts Saturday night.

—George Myers advertises to-day a large
stock of Flour, Oranges, Lemons, Ale, Coffee,
Canned Fruits, &c.

—The "Old Reliable" goes hence to At-
lanta, Ga., where we bespeak for the Company
a successful season.

—We learn that two new locomotives have
been ordered for the Wilmington, Charlotte
and Rutherford Railroad.

—During the week ending yesterday the
various butchers of this city slaughtered 38
beef, 114 hogs and 4 sheep.

—The celebration of the anniversary of the

place on Tuesday. See advertisement.

—An oyster, it is said, contains as much
nourishment as a slice of roast beef, and this
is the reason they are recommended for in-
valids.

—Delegates to the agricultural meeting in
this city on Wednesday will be passed over
the railroads for one fare. See advertisements
in this issue.

—A number of new advertisements, more
or less important, will be found on our 4th
page, to which we call the special attention
of our readers.

—Miss Laura Alexander, a native of this
State, and well known in this city among
play-actors, is winning golden opinions on the
New Orleans stage.

—Thanks to Mr. R. L. Harris for copies of
the New York Ledger and Chimney Corner. His
stand on Front street is always well supplied
with choice reading.

—The Hook and Ladder Company have the
credit of putting the first stream on the fire
yesterday morning, which was accomplished
by the aid of buckets.

—The man Berry, who was here some time
since in the capacity of a Revenue detective,
and got several of our business men in trouble,
is said to be in jail in Fayetteville.

—We are regret to learn of the death of Mr.
Alex. R. Smith, formerly of this city, where
he was well known as a member of the firm of
Edwards & Smith. Mr. Smith died at Waco,
Texas.

An Exciting Runaway.
One of the most exciting runaways of the
season took place yesterday morning. A horse
belonging to Mr. Samuel Blossom, a very
spirited nag, attached to a light wagon, be-
came frightened at something near St. James'
Church and dashed down Market street to
Huggins' corner, where the wagon came in
contact with the wheel of a country cart, tear-
ing two of the wheels and one of the shafts
from the wagon and throwing the driver, Mr.
Joseph Barnes, to the ground. The horse then
became detached from the wagon, which was
badly damaged, and continued in his mad
career down the sidewalk to the vicinity
of Mr. Range's grocery, where he took the
middle of the street and was soon after
stopped. The reins, which Mr. Barnes held
firmly in his hands, parted just as the collision
took place. His escape from serious injury,
under the circumstances, is considered almost
miraculous.

Fashion Notes.
Black silk and muslin aprons have come in
fashion again.

The impromptu gathering of friends known
as "surprise" parties is very much the style
this season.

It is said the more clumsy, awkward, and
ungraceful a man is, the warmer his heart and
more sensitive his feelings.

A new style of locket is of pure crystal, set
with gold, with the name of the wearer in
small gold letters on the outside.

—The "French Curve" has taken the place
of the "Grecian Bend," and is not considered
much of an improvement on the old style.

The latest French style is for ladies to part
their hair very much on one side, while the
gentlemen still part theirs in the middle.

It is the fashion for ladies during Lent to
wear a large chain of jet around the waist,
which hangs at one side, and to which is at-
tached a large jet cross.

Hon. S. F. Cary.
Theo. N. Ramsey, Esq., Editor of the Ban-
ner of Temperance, announces to the Friends of

ROBBERY IN LUMBERTON.

Heavy Robbery in Lumberton.
Sometime between midnight and day, yes-
terday morning, certain parties, supposed to
be Lowrey and his gang, procured a horse and
dray, and proceeded to the store of Messrs.
Pope & McLeod, of Lumberton, broke open
their store, took out their safe and placed it on
the dray. They then repaired to the office of
Sheriff McMillan, broke it open and took
possession of his safe, and placed it also on the
dray and made off with them. The next
morning the robbery was discovered, when a
pursuit started in pursuit of the robbers. They
tracked the dray, and about one hundred and
fifty yards from where the last stoppage was
made Sheriff McMillan's safe was found, with
contents undisturbed, it being supposed that
the robbers found that they had more than
they could conveniently manage and so
dropped one of the safes and proceeded with
the other. About four miles from Lumberton
the party came upon the other safe, which had
been broken open and all the money it con-
tained—about \$22,000, mostly in silver and
gold, belonging to Messrs. Pope & McLeod,
and various other persons who had deposited
with them—having been taken out. The
books and papers were undisturbed. The
robbers also took about \$1,000 worth of goods
from the store of Messrs. Pope & McLeod.

The accounts of the robbery are very con-
flicting, both as to the amount stolen and the
party guilty of the theft, some reports being
positive as to the connection of Lowrey and
his gang with the robbery and others assert-
ing that nothing sufficiently definite was
known to establish the guilt of any particular
party or parties. At all events it was a bold
and daring robbery, characteristic of the de-
spirates who invest our sister county.

THE OPERA HOUSE.

Dramatic.
The "Old Reliable" dramatic troupe con-
cluded a very successful ten days' engagement
in Wilmington, last evening. The play pro-
duced was a dramatization of the old Ledger
romance of the *Hidden Hand*. A very good
house was present and the parting perfor-
mance was attended by pleasing evidences of
the kind relations established between the
audience and the company.

During the presence of this company in the
city, we have not felt warranted to bestow
very emphatic praise upon all its members.
Unmerited eulogy is always hurtful in such
cases. Yet we have seen much to commend
in Miss D'Este, whom we regard as an actress
whose opportunities are by no means equal to
her merits. For Miss L'Este, and for Mr.
and Mrs. Tannehill we bespeak the favorable
consideration of the press in cities South of
us, which their decided merits invite. There
is no company travelling in the South which
undertakes so successfully so high an order
of entertainments.

HIGHWAY ROBBERY.

A Gentleman Held on the Road by
Highwaymen and Robbed of His
Money, &c.
Yesterday morning, about 5 o'clock, Mr.
John H. Harper, who resides near Scott's
Hill, in this county, was suddenly halted on
the road, while on his way to this city, by
four men, either colored or white men dis-
guised. One of the robbers seized the bridle
of the horse, when Harper jumped out of his
cart and approached him, seeing which the
villain drew a pistol. Mr. Harper, having no
arms, was immediately overpowered by his
assailants, by whom he was robbed of \$195 in
money and some articles of value, hat, pocket
knife, &c. The parties then entered the cart
and drove in the direction of the city. The
robbery occurred on the Newbern road, about
four miles from Wilmington. Take altogether,
this is one of the most bold and daring rob-
beries that has ever occurred in this vicinity,
and it is to be hoped for the good name of our
country, if for nothing more, the guilty parties
may be speedily brought to justice.

The Work House.

We stated in our last that Mayor Martin,
Chairman of the Board of County Commis-
sioners, in company with Dr. J. E. Winants,
had paid a visit of inspection to the County
Work House. We learn that the improvements
suggested by the Grand Jury on their late
visit, such as repainting, painting, providing
suitable stoves, cooking arrangements, &c.,
are being carried out, and the institution will
soon be in a proper condition. The bad weather
has delayed operations on the stockade.

Superior Court.

This tribunal adjourned yesterday morning.
When the civil docket was taken up there
were 390 cases for trial. Of this number 94
have been disposed of, leaving 296 for con-
sideration at the next term of the Court. The
session was a very laborious one, the Judge
and Bar having worked hard to clear the
docket of as many cases as possible.

The next term of the Court will convene on
Monday, the 22nd of April. The civil docket,
we are informed, will not be taken up until
the second week of the term.

The Street Railway.

We are glad to be able to announce that the
street railway has been completed to the shed
at Union Depot, so that now passengers can
step from the street car to the railroad cars or
under the shed without the least exposure to
the weather. The cars will be at the depot on
all occasions, night or day, upon the arrival
or departure of trains.

New Pilot Boat.

A new pilot boat, registering about 25 tons,
built by the Messrs. Berry and furnished with
all the modern improvements, was launched
yesterday, at Smithville, and christened
Robert H. Cowan. We learn that she will be
brought to this city in a few days to receive
the finishing touches.

At No. 15, Market street, the stock of
Dry Goods will be sold at auction, commencing
Saturday evening, at 7 o'clock, and will
be continued daily until the entire stock is
disposed of.

Fire Yesterday Morning.

Alarms of fire are becoming frequent. Yes-
terday morning, about 5 o'clock, late Hiers
were startled from their slumbers by the
dread summons, but fortunately the fire was
not a serious one. It originated in the closet
of a dwelling in the brick block on Second
street, between Market and Dock, the property
of Messrs. Hart & Bailey and occupied by Mr.
Spertner. The closet contained a lot of
bedding, mosquito netting, old clothing, etc.,
and as a rat hole was found leading into the
closet it is believed that some of these mis-
chievous animals had carried matches through
the aperture and ignited them. The presence
of fire in the room can be accounted for in no
other manner. The engines and Hook and
Ladder truck were as usual promptly on hand,
but the fire was extinguished without their
assistance.

The Address of Prof. Noble Young.

We are indebted to Dr. H. S. Norcom for a
pamphlet copy of the "Address of Noble
Young, M. D., Professor of Principles and
Practice of Medicine, General Pathology and
Medical Ethics, in the Georgetown Medical
College of Washington, D. C., delivered on the
occasion of laying the corner stone of the

geons of Wilmington, N. C., Dec. 27th, 1871."

Municipal Affairs.

We have been placed in possession of a
pamphlet containing the Annual Reports of
the municipal officers of the City of Wil-
mington for the fiscal year ending January 9th,
1872. From the Report of Mayor Martin we
take the following:

By a recent Act of General Assembly, the
City is authorized to issue new Bonds to the
amount of \$300,000, for the purpose of paying
off the present floating debt, and also to ex-
change a similar six per cent. gold interest
bearing bond for those issued in 1869 and 1870.
It is expected that by the sale of about \$100,
000 of Bonds the whole of the present annoy-
ing unfunded debt may be cared for, and the
present high rate of interest thereon avoided.
It is of almost importance to the City credit,
that the law be complied with, and a tax levied
to provide by sinking fund for the prompt
payment of the debt as it becomes due. In
the tax levy of 1872 it should be commenced
and continued from year to year until every
dollar of City debt is extinguished.

In July last I concluded a settlement of the
matter at issue with the Wilmington Library
Association, regarding the possession of the
two North rooms in the City Hall, which they
had held for several years. In the settlement
the law was paid to the Library Association,
Fifteen Hundred Dollars in six per cent.
gold interest bearing bonds of the City. The
rooms are now in possession of the City; the
front North room is occupied by the City Mar-
shal, and the rear room is used by the Library
Association, without rent. While I think the
possession could have been obtained after a
long and expensive law suit, I deemed it for
the interest of the City to end the matter
without recourse to law.

It becomes necessary during the months of
January and February to provide, by adequate
taxation, for the support of the City Govern-
ment. In order that this may be done under-
standingly I submit the following estimate of
the amount required, viz:

Ordinary Expenses, \$84,000
Extraordinary Expenses, 18,000
Interest, 45,000

Expense, \$145,000
Sinking Fund, 10,000

Total required, \$155,000
This amount may be realized by a tax of 1 1/2
cents upon the dollar of valuation of real and
personal property, and an increase of ten 1/2
cents upon the dollar of the License tax. By a
new valuation of City real estate, we may ex-
pect considerable addition to the present
amount which reaches about \$3,510,000. I am
quite sure the total value of real and personal
property will not fall much short of \$5,000,000.
All the improvements show that our City is
progressing—that prosperity has again begun
to flow towards us. Our merchants and trad-
ers have been peculiarly benefited by the in-
crease of demand, and large prices paid for our
special product, naval stores. We have the
well deserved name of the great naval store
market, a specialty which gives us at all times
a large trade with the whole world. With
the increasing demand, our trade will still
increase, there can be no doubt.

I beg to call the particular attention of all
our citizens to the great importance of the im-
provement of the mouth of the Cape Fear
River, and the river itself, now being
property upon the Government of the
United States, and for which two
appropriations have been made. So far the
work has been eminently successful. I feel
that much, if not everything, connected with
the future prosperity of our city depends upon
the successful completion of the work. I have
lost no opportunity to speak and write, and
by every other means urge forward and cheer

on the able officers in charge. I cannot for-
bear in this place to accord great credit to the
Chamber of Commerce of our city for their
efforts, and most particularly do I desire to
express the thanks of the city officials to Hon-
or. E. H. E. the able Chairman of the Special
Committee appointed by the Chamber of Com-
merce, for his valuable services, and the ear-
nest and unflagging zeal with which he has
worked in behalf of the welfare of the city in
this matter.

I recommend that every effort be used to
bring the matter before Congress during their
present session, with the hope that ample ap-
propriation will be made to complete the work
at once.

At the close of my report I desire to make
such recommendations as seem to me desir-
able, after an experience of two years in the
position of Chief Magistrate of the city, or
which will decrease the expenditures, or add
to the comfort of our people, viz:

1st. That the Ordinance regarding sidewalks
be enforced until every street in the city has
at least one good walk upon it. That in all
the principal streets the crossings be laid with
substantial stone. That South and North Wa-
ter streets from Dock street to Red Cross, and
Nutt street from Red Cross street to the Wil-
mington and Weldon Railroad be paved, with
substantial stone or wooden pavement, and
that the property be assessed for the cost of
the work. It is a reflection upon our city that
these principal thoroughfares are in such dis-
tressed condition.

2d. That the police force be fixed at the
number not exceeding thirty, including officers
and men.

3d. That means be taken to lessen the cost
of maintenance of the indigent sick and paup-
ers.

4th. That an Auditor be appointed to per-
form the duties usually appertaining to an of-
fice of that kind. I find it is indispensable
that some person shall be appointed to take
charge of and properly audit and file all bills
sent in against the city.

5th. That the amount allowed the different
fire companies be fixed at the actual expense
incurred by them and no more.

6th. That the City Hall building be thor-
oughly repaired, internally and externally.
The cost will not exceed \$8,500. The exterior
coating is rapidly falling, while some of the
interior cornices and plastering are danger-
ously loose. It is wrong that so important a
building should be allowed to remain in bad
repair. It is also of great importance that
there should be a change in the guard room.
At present the office of the Treasurer, also oc-
cupied by the Mayor, is rendered untenable by
the disagreeable odor arising from the Guard
House below. It is disagreeable, unhealthy
and unendurable. Some place should be pur-
chased for a guard house and police headquar-
ters at some central part of the city, or a suit-
able building erected upon the City Hall lot
for the purpose.

Under the changed circumstances of our
people the City Hall is visited upon business
by all classes of people, and the public build-
ings should be made as agreeable as possible,
particularly they should be kept free from dis-
agreeable smells, and the cries and curses of
drunken and insane persons, which so fre-
quently now interrupt public business. I ask
your serious and immediate consideration to
this.

7th. That at least six cisterns of the capacity
of 400 bbls each be built at points where no
better means of obtaining water exist. Several
important parts of our city are without means
of obtaining water in times of fire.
Should any responsible company under-
take to supply the city with water, I
should prefer greatly that aid be ex-
tended them, to building the cisterns. It is
to be hoped that our city will soon have the
benefit of an ample supply of water, the want
of which is badly felt.

8th. That the City Assessors meet im-
mediately, and proceed to value all property
which has been improved or depreciated
since the valuation of 1869.

9th. That a book be prepared, by the City
Surveyor, of every block and lot, with all an-
divisions, similar to that made in 1857. The
amount of cost can easily be saved in the
labor of assessments, and constitute a
most valuable book for reference.

It would be well to provide by Ordinance,
if it can be legally done, to ascertain all sales
and changes of ownership of real estate which
take place within the corporate limits of the
city. Great difficulty is experienced by every
new administration in obtaining information
regarding city affairs. Every change of
officers is marked by mistakes and inex-
perience; it is well, therefore, that all the
information possible be recorded in the most
substantial manner.
