PROFITABLE ADVERTISING. We call the attention of the business men of Wilmington to the superior advantages offered by THE WEEKLY STAR as an advertising medium. It has, without exception, the largest circulation of any publication in Wilmington; and we can satisfy any one that it is as equal a medium of communication with the people of the rural districts now trading with Wilmington.

Street Sprinkler. We are glad to learn that an effort is being made to get up a regular street sprinkling apparatus, by which the dust in the business portions of the city can be kept down during the summer months.

How to Freshen Salt Fish. Most persons who are in the habit of freshening mackerel or other salt fish never dream that there is a right way and a wrong way to do it. Any person who has seen the process of evaporation going on at the salt works knows that the salt goes to the bottom.

NEW ADVERTISEMENTS.

AGGRAVATED INDIGESTION. Persons who are predisposed to dyspepsia, find their sufferings from this cause greatly aggravated by damp weather, easterly winds, and sudden changes from a mild to a chilling atmosphere. In the spring, therefore, the pangs of indigestion are seriously augmented by the atmospheric variations peculiar to the season, and it is incumbent upon all who desire to pass through the ordeal of its cold mists and tempestuous gales with easy stomachs, and untroubled by the indescribable torments which accompany dyspepsia, to tone and strengthen the digestive organs with a healthful and effective vegetable invigorant; and no one at all familiar with the medical record of the age, can question for one moment that Hostetter's Stomach Bitters is the Tonic best adapted to this purpose.

DEAR SIR—Permit me in behalf of the College of Physicians and Surgeons, to express to you our sincere thanks for the beautiful and valuable donation you have so generously presented to us; and by your kind assistance in our efforts to erect and support our College, we hope the better to sustain ourselves in our new work and professional labors.
