## Perry Davis' Vegetable PAIN-KILLER!

HAS BEEN TESTED IN EVERY VA-RIETY OF CLIMATE, AND BY AL-MOST EVERY NATION KNOWN

TO AMERICANS,

It is almost the constant compan'on and estimable friend of the missionary and the traveler, on sea and land, and no one should travel on our Lakes or Rivers

It has been before the public over thirty years, and probably has a wider and better reputation than any other proprieta y medicine of the present day. At this period there are but few unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant o. its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands to-day unrivalled by all the great catalogue of family medicines. It is sufficient evidence of its virtues as a standard medicine, to know that it is now used in all parts of the world and that its sale is co stantly increas-ing. No curative agent has had such widespread sale or given such universal satisfaction. It is a purely vegetable compound, and perfectly safe even in unskillful hands.

After thirty years trial, is still receiving the most angualified testimonials to its virtues, from persons of the highest character and responsibility. Physicians of the first respectability recommend it as a most effectual preparation for the extinction of pain. It is no only the best remedy ever known for Bruises, Cuts, Burns, &c., but for Dysentery or Cholera, or any sort of bowel complaint, it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of India and other hot climates, it has become the Standard M'dicine for all such complaints, as well as for Dyspepsia, Liver Complaints, and other kindred disorders. For Coughs and Colds, Canker, Asthma, and Rheumatic difficulties, it has been proved by the most abundant and convincing testimony to be an invaluable medicine.
