Narrow Escape.

On Friday evening last, about sundown, the dwelling house of Mr. Ezra Thomas, in Bruns wick county, about six miles from this city, caught fire on the roof, from a spark from the chimney, and narrowly escaped destruction. At the time of the accident there was no one on the premises but Mrs. Thomas and a colored woman, but luckily Mr. P. L. Sellars, a friend of the family, arrived just in the nick of time, prosured a ladder and ascended to the roof, when, by knocking off shingles, and throwing a plentiful supply of water on the dames, which was carried up the ladder by the colored woman, the fire was extinguished. A patch about three yards square on the roof was burned. The flames when Mr. Sellars reach ed the spot were towering about ten feet high Had the dwelling been consumed Mr. Thomas loss would in all probability have been very severe, as the barns, cribs, and other out houses, being in close proximity, would almost certainly have shared its fate. Mr. Sellars' hands were quite severely burned.

Wil. Char, & Ruth. Railroad Iron, &c. The Charlotte Democrat of Tuesday says :-The Sheriff of this county levied on nine car loads of fron, to this city, on Monday last, which was being shipped for the Western Division of the Wil. Char. & Ruth. Railroad.

The officers of the road claim that the levy is filegal, as all the property is covered by a mortgage long ago executed. The executions in the hands of the Sheriff amounted to two or three thousand dollars,

On Saturday last, S. T. Carrow, U. S. Marshal, arrested the Sheriff on a writ of \$25,000 for damages in making the levy, issued at the instance of Mr. Matthews, of New York, who furnished the iron.

Advertising for the People.

We would call the attention of the public to the MORNING STAR's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let,"

"For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance

This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the Morning Star as a medium for commupleating with their several but unknown cus-

Storekeepers can also make equal avail of hese rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places.

The use of the dally newspaper, as the ageney for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.
