Capture of a Thief.

*

On Tuesday evening last a thief entered the store of Mr. C. W. Oldham, on South Water street, and stole a fine ham. On Wednesday evening he was rell.ved of snother piece of bacon in the same manner. Getting tired of this way of disposing of his stock, he resolved to keep a sharp lookout on Thursday evening and endeavor to discover and capture the thief. About the usual hour when the visitor was expected he placed his clerk in a convenient position for watching and went to another part of the store. The clerk had not long to wait before a voracious looking specimen of a "fifteenta amendment" very slyly wriggled himself into the store, seized a une ham and as stealthily wriggled himself out. The thief, who proved to be one John Mott, was immediately pursued and soon overhauled, on Dock street, and taken into hand by officer Toney Ashe, who conducted him with all due ceremony to the Guard House. We are glad to record that, in this instance at least, Mr. Oldham was enabled to "save his bacon." Personal We had the pleasure of a car yesterday, from our friend Dr. C. T. -A colored woman in 'the Southeastern section of the city gave birth to a child on Tuesday night last with two well-developed horns, one on each side of the head. It is said to be quite a curiosity, and many persons have been to examine the singular specimen of humanity.

A FATAL ACCIDENT.

A Man Run Over and Crushed by a Railread Car at Union Depot. Yesterday morning, about 11 o'clock, as the

freight train on the Wilmington and Weldon Railroad was coming in and just after passing the curve between Seventh and Eighth Sts., a little West of the Union Depot, a young man by the name of Monroe Grady, employed as a train hand on the road, run in between two of the cars for the purpose of uncoupling them, the train moving slowiy at the time, when he was caught by the bumpers and thrown upon the track, the cars passing over him. As soon as possible after the accident was discovered the train was stopped, when it was found that both legs of the unfortunate man were nearly cut in twain near the body, and that, one of the legs was horrib'y crushed from near the hip to the ankle. He lived only a few minntes after the ceident.

Advertising for the People.

We would call the attention of the public to e MORNING STAR's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use hand. the MORNING STAR as a medium for communicating with their several but unknown customers. when pa nt, pearl powder and enamel were ruining the comp exions and destroying the health of women of fashion, HAGAN'S MAG-NOLIA BALM was brought out as a pere botani cal cosmetic, guaranteed to restore bloom and beauty to the skin. From that time to the present it has been continually rising in publie estimation as the safest and most unerceptionable preparation of its class. Instead of producing an artificial, metalic surface, like the deadly enamels, or wilting the cutiele like the poisonous fluids sold under various names as "beautiflers," it keeps the skin as solt as velvet, renders it as smooth and glossy as satin, and imparts to it that delicate rosy tinge, which is the *beau ideal* of complexional loveliness. This exquisite chromatic effect is not transient. By applying the Balm daily it may be prolonged from yo the to age. A lady who purchased the first bottle of the article pinetter.
