The only case before the City Court was that of Pardy MeNeill, charged with stealing chickens, the property of Mr. Jas. Fleet .-Judgment for the penalty and costs, the defendar t also being required to enter into security in the sum of \$200 for his appearance at the next term of the Superior Court.

This defendant was arrested on Saturday night, by Officer J. C. Scott, after a most exciting chase.

# Withdrawal-New Firm.

By advertisements in this issue it will be seen that Mr. A. H. Neff has disposed of his store, tin and sheet iron business to Messrs. W. M. Parker and J. H. Taylor, who will carry on the business at the old stand on Front street. Messrs. Parker and Taylor have bad an extensive experience in the bustness and will no doubt merit [as well as receive a large share of public patronage. Success to them.

### Health of Wilmington,

From the 15 h of February until the 22nd of March there was not a single interment in Oakdate Cemetery. On the day last mentioned there were two permits granted by the Secrelary of the Cemetery, but one of these was for an infant that died in Baltimore and was brought home for interment, and the other was that of a man who died from the effects of poison. This speaks well for the general good health of our city.

- There was a rumor yesterday, purporting to come from a neice of Henry Berry Lowrey, that the bandit chief had again appeared in the vicinity of his old haunts, but the report receives no credence at all among the people of Robeson.

- The Republicans of Onslow had their County Convention at Jacksonville on Satur day. There was an effort by certain parties from this place, as we learn, to pack the Convention in the interest of Gen. Rutherford, which failed, and the delegates were left untrammeled.

Black silk costumes, embroidered in colored silk floss, are something new.

The large figured Spanish lace is to be used th's season for bridal veils. White muslin, lace and sllk neckties are the most fashionable at this season.

The latest fashionable color for evening gloves is called "incarnadine," and is a very flesh calor. The engagement ring of the period in New

York is plain gold, but enormously and flash! ly large.

The combination of blonde hair and black eyebrows is considered by many to be a mark of great beauty in either sex.

## Advertising for the People.

We would call the attention of the public to the MORNING STAR's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly in advance This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, laudlords wishing tenants, and tenants wishing landlords, to use the MORNING STAR as a medium for communicating with their several but unknown customers. Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places.

The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.

The report is that two cattle dealers from Texas had had some controversy with Mr. Carmichael and his partner in a business matter, then went away, but returning, one of the Texans requested Mr. C.'s parener to walk back with him into the store, and then and there shot him dead, while the other Texan shot Mr. Carmichael through the breast, inflicting a dangerous if not fatal wound.

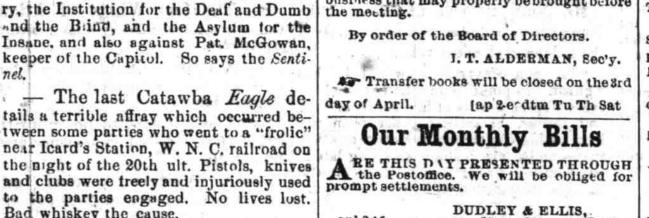

A Melancholy Break-Down.-There are 8.000 BUSHELS COEN, lively break downs that make an andience laugh, and there are sad and sorrowful breakdowns that make the kind-hearted grieve. To the latter class belongs the enervation of body and mind which is usually called "general debility," or "nervous weakness," and which, when neglected, too often terminates in atrophy and death. A wholesome medicated stimulant is the one thing needed in cases of this description, and science and experience unite in pointing to PLANFATION BITTERS as the true steering.
