Weather Report. VA. DEPARTMENT, Office of Chief Signal Officer, Washington, April 20—4:35 P. M.

Probabilities. The lowest barometer over Wisconsin will probably move eastward into Canada, preceded by diminishing pressure thence to the Atlantic; brisk easterly to southerly winds are probable for Lakes Michigan, Huron, Erie and Ontario during the night, veering to north-westerly during the night over the upper lakes, and on Sunday morning over the lower lakes; cloudy weather, with probably rain, will prevail over the Middle and New England States on Sunday; rising barometer and westerly winds will prevail north and west of the Ohio valley, with clearing weather, and extending eastward over the Western Middle States during the day.

Local Notes.

Windy and warm yesterday. Large fire in the woods Southeast of the city last night. Two patients sent to the City Hospital during the week. There were 15 police arrests during the week just closed. "Put me in my little bed," is the name of a new verbena. Mosquitoes can be kept six months under a tumbler without food. Four convicts sent to the County Work House during the past week. Betrothal parties, after the German custom, are becoming the fashion. The outlaws are reported to have been at Moss Neck on Friday morning. The Clerk of the Market reports the arrival of 150 country carts during the past week. John Self and Calvin McKay, both colored, were sent to the Work House yesterday. An adjourned meeting of the Board of Aldermen will be held to-morrow (Monday) evening, at 8 o'clock. The ten-acre lot comprising the Poor House tract has been planted in corn, which is up and growing beautifully. Those who have failed to list their taxes are notified that the time has been extended one more day. Call Monday. The various butchers of this city slaughtered 86 beefs, 17 hogs, 13 sheep and 3 calves during the week closing yesterday. We learn that Rev. G. D. Bernheim, of this city, is preparing a history of the Lutheran Church in North and South Carolina. A new church for the colored Methodists is being erected near Kidder's mill, in the extreme south-western part of the city. Wonder how the husbands and fathers of the period enjoy this season of millinery openings, and new spring styles and fashions? There were only 3 internments in Oakdale Cemetery during the past week. One of these was a lady 65 years old and the other was still born. There will be a match game of base ball, on Saturday morning next, between the "Athletes" and an independent nine. The game will come off at the usual place. We are requested to state that the officers and directors of the Young Men's Christian Association will meet on Monday evening, at 8 o'clock, at the residence of the President. We know of no surer way by which young men may form habits and associations, which will insure them for time and eternity, than to allow them, and especially when boys, to run out unrestrained at night. Thanks to Mr. R. L. Harris, news dealer, for copies of the New York Ledger, Chimney Corner and Clipper for the current week. His news stand is the resort of all seekers after the gems and pearls of literature. Wilmington needs a Bergh, or a "Society for the prevention of cruelty to animals." Two dogs got to fighting in front of the Market House yesterday, when a policeman knocked one of them senseless with his club. New styles of Millinery received weekly at Mrs. E. M. Strook's. A splendid assortment constantly on hand. Fancy Ties, Hair Combs and Switches, White Peckys. Jewelry of all styles. To be sold for cash. A mine of coal has just been discovered at Wedgefield, a station on the Wilmington, Columbia and Augusta Railroad, about eight miles from Sumter. The vein is said to be about forty feet below the surface of the earth. A grand concert and festival, under the auspices of Prof. Rouckert, of this city, is to be given in Rockingham on the evenings of the 7th and 8th of May, the object being to purchase an organ for the Methodist church of that place. We are informed that a city ordinance declares that no public dock shall be encumbered for a longer period than twenty-four hours. If this be true, why are wood dealers allowed to block up, and convert into wood-yards, almost the entire space around the docks, to the serious inconvenience of the public generally? Taa's the question!

Opera House.

Probabilities. Rutherford, of the ninety-inch stride, has "come down" (from Washington city) "like a wolf on the fold" to look after his prospects for the Radical Congressional nomination from this District. He is so far ahead of all competitors in the race that his smile is very "childlike and bland;" and when the Convention meets, at Clinton, Sampson county, on the 10th of June, he will enter the game with a "fall hand." The probabilities now are that Rutherford, from Washington city as aforesaid, will control the delegations from New Hanover, Columbus, Brunswick, Onslow, Carteret, Duplin, Sampson and Bladen; while Judge Russell will receive the vote of Cumberland; and Neill McKay that of Harnett and Moore. So, if this estimate even approximate correctness, Judge Russell will continue to give us "the best he has in the shop" for several years to come; and Solicitor McKay will continue his mercileas war "against the peace and dignity of the State" for an indefinite period of time.

The Proposed Railroad to the Seashore.

The citizens of Wilmington have at last come to the conclusion that by building a railroad from here to the Sound, a distance of six miles, which can be equipped at a cost of about \$40,000, they will have within their reach a seashore where they can rusticate and recruit their health and enjoy the delightful sea-breezes; and this at a very trifling expense, necessitating only about 30 minutes travel, whereas they now have to travel hundreds of miles at a heavy outlay of money and arrive at their destination exhausted in mind and body. The proposed road will bring it within the means of all classes to shake off the dust of the city for a day or an evening and return to their labors with renewed energy and vigor. It will also afford the opportunity to all our up-country friends to come to Wilmington and visit the seashore at the same time. There is scarcely a city or county that possesses the same natural advantages that we have, if we but join hands and make them available. Why should we spend all our hard earnings to build up other places, where pleasure and recreation are to be obtained, when Nature has so abundantly supplied us with the means for their gratification almost at our own doors. We should bear in mind that every dollar that we can keep at home adds so much to our capital, so that we can offer inducements to pleasure-seekers and others to visit us, and thereby enhance the value of our property. If the enterprise alluded to shall meet with sufficient encouragement, and the proposed road be built, we can offer our up-country friends a beautiful view of the ocean, sea bathing, fresh fish and oysters and everything that can be obtained at any other seashore or watering place, and all this in a location, the healthfulness and salubrity of which is unsurpassed.

In His Dotage.

A gentleman of this city informs us that Rev. J. M. Red, who has been nominated upon the Radical ticket for Superintendent of Public Instruction, is a Methodist Minister of unblemished character, but almost in his dotage. On account of being so old and infirm, he has been only given nominal appointments for several years past by the North Carolina Annual Conference, of which he is a member. Our Chip Basket. Never let your honest convictions be laughed down. "Absence makes the heart grow fonder" — of some one else. Some people are positive just in proportion to their ignorance. Mark that. Why is a solar eclipse like a woman whipping a boy? Because its a hiding of the sun. Some one describes a philanthropist as a man who loves all mankind and neglects his own family. The gentlest effort may put a wedding ring upon the finger; a thousand horse power may not suffice to pull it off. To make life happier you must bear with each other's faults, and often think of the pleasant days of your courtship. An exchange says fashionable young people are calling upon somebody to invent a new dance. Suppose "somebody" invents one wherein the young lady dances around the house and looks after everything. A kind physician, living near Boston, wishing to smooth the last hours of a poor woman whom he was attending, asked her if there was anything he could do for her before she died. The poor soul, looking up, replied: "Doctor, I have always thought that I should like to have a glass, butter dish before I died."

Benefit to the Knights of Pythias.

The "Old Reliable" company will give a grand complimentary benefit, on Tuesday night next, to the Knights of Pythias of this city, the proceeds to go towards fitting up the new Hall of the order on Third street, over the College of Physicians and Surgeons. An unusually attractive bill will be presented on the occasion, which, together with the object to be subserved, should ensure a crowded house. Secure your seats in time. Fire. Yesterday afternoon, between 1 and 2 o'clock, the roof of the dwelling house on the corner of Blauy's Alley, on Third, between Church and Castle streets, was discovered to be on fire. The fire of fire soon brought several persons to the scene, who mounted the roof and speedily extinguished the flames. The fire originated from a spark from the chimney. Damage slight. Common Bread Pudding. One quart of milk, three eggs and bread. Pours a quart of boiling milk on as much bread (with the crust), cut in small pieces, as will absorb it; cover it with a plate, and let it remain till cool. Mash the bread, add the eggs, well beaten; when well mixed, put it in a wet cloth, floured; boil it an hour and a half, and serve with sweet sauce. Printing and Book Paper. We can furnish printing paper in small quantities, say from two to ten reams, at reasonable prices for all strictly cash orders. We have on hand the following sizes of news: Paper 22x31, 24x32 and 24x33; and a good assortment of other papers and cards.
