A Huge Ratt lesmake.

We learn that a rattlesnake was killed on the plantation of Dr. J. D. Bellamy, in Brunswick county, on Monday morning last, which for size and length is a little shead of any reptile of this species that we have ever heard of in this latitude. A gentleman from Brunswick, who saw him after he was killed, informs us that he was over six feet long, nineteen inches in circumferance and had eightech rattles and two buttons. His snakeship had often been seen before, but efforts to destroy him had heretofore proved unavailing. On Monday morning, however, as a young man by the name of Alex. Smith was passing in the vicinity of his usual haunts he suddenly came across him and barely escaped treading on his head. Smith had his gun with him and upon discovering the monster reptile he pulled trigger and emptied the entire charge into the snake's head, when he was easily dispatched. He had become a source of no little terror to the community in that section and the intelligence this his snakeship had been killed was received with quite a feeling of satisfaction.

We were shown yesterday, by Messrs. James & Brown, Surveyors, a large and handsomely bound "Block Book," which they have just received from the hands of the find er, containing every block in the city, five hundred and eighty-eight in number, which, with every lot in said blocks, are properly marked cut and numbered. It is an exceedingty useful book for reference, especially in cases where information is desired as to whether all the lots in a block have been properly assessed ,as all necessary information can thus be obtained at a glance.

Cumulative Suffrage. In the recent election in this city the system of voting by what is known as "cumulative suffrage" was introduced for the first time in the South. In fact it has been practiced in but very few instances in this country. There might be cases in which this system would not work so well, but its effect in this city, as illustrated by the late election, should not be deemed unsatisfactory even to the Republicans, as it only gives the Conservatives a mi-- There will be an adjourned meeting of nority representation on the Board of Aldermen. There is very naturally, however, a variety of opinions as to the practicability of this way of voting. We heard a prominent colored politician Seclare yesterday that, as the Republicans seemed confident from the first of electing their six Aldermen and the Conservatives were equally certain of electing their four, he couldn't see "what in the hwas the use of voting."

Our Chip Basket.

- Eve was the only woman who never threatened to go and live with mamma. And the various judicial districts in the fol-Adam was the only man who never tantalized his wife about the way mother used to cook.

- A young lady, recently married to farmer, one day visited the cow house, when she thus interrogated her milk maid, "By the by, Mary, which of these cows is it that gives the butter milk ?"

- A new boy in one of the Ridgefield, Conn. Sunday schools, who was asked who made the beautiful hills about him replied that he did not know, as his parents only moved into town he Friday before.

- An old lady of Bloomsburg, Ill., who was rather short-sighted, took a box of new patent pills. They cured her, but turned out to be black beads with a hole in them, and she is going to swallow a string to string them. - What a beautiful world this would be to

live in, says a feminine writer, if man's sphere were confined to the counting-room and woman's to the kitchen! A world of pots and kettles and another full of pens and ink.

- Two girls were gravely discussing the question of wearing ear-rings. One thought it wicked; the other was sure it could not be, for so many good people wear them. The other replied : "Well, I don't care ; if it wasn't wicked God would have made holes in our ears."
