Every morning as soon as the front door is open this chicken walks into the house through a long passage, up a flight of stairs and through another passage, to the young lady's room, and there stands and pecks at the door

till her mistress dresses and opens the door and takes her in. Then the hen gets her breakfast. The chicken is black, and game one.

### MEANS WHAT HE SAYS,

Though "confirmations strong as proofs of Holy Writ," and as numerous as the sands on the sea shore, were produced to prove that Dr. Pierce, the proprietor of Dr. Sage's Ca-tarrh Remedy, is in earnest and means what he says, when he offers \$300 reward for any case of Catarrh which he cannot cure, yet there would be some skeptics and fogies who would continue to shout, "Humbug!" "Hum-Bug!!" "It cannot be, because Dr. Home-span says Catarrh cannot be cured." Now, this Dr. Homespun is the identical, good-na-tured old fellow who honestly believes and persists in declaring that this earth is not round or spherical, but flat as a "slap-jack," and does not turn over, otherwise the water would all be spilled out of Deacon Bascom's mill pond. But astronomical science has pos itively demonstrated and proven that Dr. Homespun is wrong in supposing this earth to be flat and stationary, and medical science is daily proving the fact that he is no less mis-taken and behind the times in regard to the curability of Catarrh. In short, it has been positively proven that this world moves, and that medical science is progressive-the opin ion of Dr. Homespun to the contrary netwith-

people of this section, confident that we can offer inducements that cannot fail to please.

The Reading Room of the Wilmington Library Association is open datly during the week from 814 A. M. to 1 P. M., from 31/2 to 7 P. M., and from 8 to 10

Brutal Assault.

We learn from passengers on the Wilming ton, Charlotte and Ratherford Bailroad, who arrived yesterday afternoon, that a party of colored men, supposed to have been returning from the Scotch Fair, went to the nouse of an old and inoffensive man by the name of Brittan Brigman, who resides near Alfordsville, Robeson county, on Saturday night last, and gave him such a terrible beating that his life is despaired of. It is said that the back of his head was fearfully mangled. We have heard of no cause assigned for this brutal assault upon a helpless man. Mr. Brigman is said to be 65 or 70 years old. No one was present at the time of the assault but himself and wife.

#### The Advantages of Advertising.

The great millionare Stephen Girard, who ruse to wealth from a poor penniless boy, believed in advertising He said ; "I have always considered advertising, liberally and long, to be the great medium of success in business and a prelude to wealth. And I have made it an invariable rule to advertise in the dullest time, long experience having taught me that money thus spent is well laid out ; as, by keeping my business continually before the public, it has secured me many sales 1 would otherwise have lost.

#### Presentation of Fings.

The presentation of the flags and ball, won by the Athletics, in the recent match game with the Gate City Base Ball Club for the championship of the State, took place in front of Heinsberger's book store yesterday morning. Mr. Millard T. Toft, the umpire in the late game, made the presentation in a neat and appropriate address, which was responded to iu a handsome manner by Mr. Henry Bauman, who officiated as captain of the Athletics in the match game.

Previous to the presentation ceremonies the winning nine, together with the spectators, were photographed by Mr. O. W. Yates; and after the ceremonies the Athletics, accompanled by the umpire, proceeded to Mr. VanOrs dell's gallery, where their pictures were taken logether, in accordance with the programme. - Next Sunday is Trinity Sunday, on which occasion the new Hymnal, ordered by the last General Convention of the Episcopal Church, will be introduced in St. James' Church, of this city.

- The Steamer Waccamaw was expected to come off the ways yesterday afternoon and on Thursday, we are informed, it is proposed to run her down to the Blackfish grounds for the benefit of a fishing party.

-Kit Huggins, the indomitable and irre pressible, was arrested yesterday on the charge of disorderly conduct and insulting a police officer. He was lodged in the Guard House but subsequently released on bail.

- Capt. Worth, of the Steamer Worth, reports a rise of 25 feet in the Cape Fear River at Fayeiteville up to Sunday evening. It commenced rising on Saturday and had fallen very little when the Worth left yesterday

of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space,

and the charge for them being but half our regular rates when paid for strictly in advance This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the MORNING STAR as a medium for communicating with their several but unknown customers.

Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any specialty in trade, or any change in their places.

The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.

Talk at the Toilet.—Every lady's maid knows that the bewitching beings who pave their triumphant way with conquered hearts, regard a splendid head of hair the most effect-ive of all womanly fascinations. They be-lieve, and they are right, that they can *lasso* as many beaux with the luxuriant ringiets and glossy braids as they can "kill at sight" with their beaming eyes. Hence in their toil-et talk among themselves and with their at-tendants, the merits of preparations for the tendants, the merits of preparations for the hair are freely canvassed, and the latest result of this discussion seems to be the almost universal adoption of Lyon's KATHABION as an
