W. M. STEVENSON. - Preserving Jars. The Address Last Night.

The address of Rev. John S. Long, on the subject of "Love and Ambition," delivered at the Opera House last night, was characterized by all who heard it as a most magnificent production, impressing the listener with the power of the speaker, his facility in finding subjeets for illustration; his endurance in accumulating facts; his readiness in adapting points, and his manner of impressing the whole apon the mind of every bearer. As a pulpit orator and as a public lecturer, Mr. Long has few superiors in this country.

The sudience, though an appreciative one, we have heretofore had occasion to remark, there seems to be an unaccountable indisposition (to use no stronger term) on the part of our citizens to properly appreciate the elevating influences of public lectures of this kind, and as a consequence there is a lack of that encouragement necessary to secure that intellectual nourishment which is so essential to the well being of every community.

The Excursion.

We learn from the Goldsboro' Messenger that the Masonic Excursion to this city, which takes place on Monday next, the 24th inst. promises to be the grandest of the season. The managers have made arrangements to start the train from Wilson on the morning of the 24th, at 8 o'clock. This will give the citizens of Wilson county and those residing near the line of railroad between Wilson and Goldsboro an opportunity to participate. The fare has been placed within reach of all, and every possible convenience will be given to the ex-

The attention of the public is called to the superior facilities we now have for executing cheaply, promptly and skillelly all kinds of Binding and Rullpg. Our business in this de-partment has steadly increased, an evidence that we have not labored in vain in our effort to establish a Book Bindery equal to the demands of our growing city. Mayor's Court.

The following cases were disposed of by His Honor Mayor Wilson, yesterday morn-

In opening the Court the Mayor stated that he assumed the duty of trying cases for the violation of city ordinances in accordance with an act of the last General Assembly empowering him to do so and also in obedience to the express wishes and command of the Board of Aldermen of the city :

Wm. Yates, charged with being drunk and resisting the police, was found guilty and judgment rendered for \$20, the amount to be worked out in 30 days' service in the County-Work House.

Wm. Parkes, P. M. Stalyers and Andrew Ross, charged with quarreling and making a disturbance. Judgment for \$5 each and the costs against Parkes and Stalyers. Ross discharged.

W. J. Young, charged with drankness, A white man whose name we are requested to suppress, was arraigned on the charge of

drupkness and fined \$5. The Dog War Commenced.

The dog catchers made a raid on the canines yesterday and captured a number without the necessary badges. A certain yellow cur, however, seized near the corner of Front and Market streets, during the afternoon, was too sharp to surrender his freedom without a show of resistance. His captors had barely gotten him in at one end of the dog prison when he was out at the other and the way he made tracks up the street was proof that he was too shrewd a purp to be caught napping again.

Readings and Recitations. Miss Jeanie Patterson will give another of her popular entertainments, consisting of histrionic readings and recitations, this evening, at Masonic Hall. - A golden rule for a young lady is to converse always with her female friends as if a gentleman were of the party; and with young men as if her female companions were present.

- " Never be critical upon the ladies," was the maxim of an Irish peer, remarkable for his homage to the sex; " the only way that a true gentleman ever attempts to look at the faults of a pretty woman, is to shut his eyes."

The People's Stamp of Value.—The Government endersement, which legalizes the sale of Plantation Bitters, is not the only stamp affixed to that lamons VEGETABLE TONIC. It bears, in addition to that official sanction, the still more valuable stamp of public approbation. This inestimable voucher of its rare properties as a Tonic, Corrective and Alterative, is of much earlier date than the Government credential; for millions of sick persons had pronounced it the Grand specific of the Age long before Congress thought of taxing proprietary middines. It is unnecessary to repeat in detail, the properties of this wonderful Vegetable invigorant. The best reference that can be offered to those who desire the full particulars of its virtues, is the General Public. Ask those who have tried it as a remedy for dyspépaia, constipation, billousness, intermittent fever, nervous debility, rheumatism, sea sickness, low spirits or loss of vital power, what Plantation Bitters or loss of vital power, what Plantation B has done for them, and be governed by the sponse they make to your inquiries.
