The Lottery.

The special attention of our readers is called to the card of Col. E. D. Hall, in this issue. It will be seen that he has undertaken the management of the lottery, to be drawn under the auspices of the College of Physicians and Surgeons, to secure the establishment in this city of a Charity Hospital for the benefit of the suffering poor of the community. The echeme is one which calls for the active smympathy and support of our people, and no one who is able should hesitate a moment to contribute what little aid is necessary to ensure the success of this benevolent enterprise, more especially when by doing so they stand a good prize. The inducements, too, are of the most hardly fail to command success for the enterprise and we hope he will not be disappointed The drawing will positively take place on the 13th of August next.

The usual charge was delivered to the jury, after 'which the Court adjourned until 9 o'clock this morning.

The Late Rain-Struck by Lightning-

We learn that the rain of Sunday night extended all along the line of the Wilmington, Charlotte and Rutherford Railroad. The lightping struck a dwelling house at Moss Neck, about sundown, shattering one end of it, breaking out all the windows, &c. There was a woman and several children in the house at the time, yet, strange to say, neither of them were injured.

The crops in Anson and along the line o the road are, in the language of our informant, "bully!" The rain will, of course, help them very materially.

FOUNDED ON A BOCK. The disappointed adventurers who have from time to time attempted to run their worthless potions against Drake's Plantation Bitters, vow that they cannot understand what foundation there is for its amazing popularity. The explanation is simple enough. The reputation of the world-renowned tonic is founded upon a rock, the Rock of Expensions. All its ingredients are pure and wholesome. How then, could tricksters and cheats expect to rival it with compounds of cheap drugs and refuse liquor, or with liquorless trash in a state of acctous fermentation? Of course the charlatans have come to grief.
