Cape Fear Academy - Closing Exer-

The commencement exercises of this institution, which, for several years past, has ranked among the foremost institutions of learning in the State, were of a decidedly interesting character.

After the distribution of the prizes and swards, and a most excellent address by General Coiston, the andience and cadets were lavored with a most eloquent and able address by Col. Robert Strange. To our citizens this eminent gentleman is well known for his oratorical gifts, and we are quite sure that they were never more happily displayed than upon this interesting occasion. His enlogistic references to the Academy, and its officers were heartily applanded by the audience, and there can be no question of its entire sympathy with the remark of Col. Strange that "every man in Wilmington is personally interested in the success of this institution."

We are informed that the corps of instructors will remain unchanged, and that the Academy will continue, during next session, under substantiaully the same organization that has already earned for it such distinguished and universally recognized success.

The annual ball of the cadets came off at City Hall in the evening and was well attended by the youth and beauty of our city. The evening passed off pleasantly and the enjoyments of the occasion will be treasured among the cherished recollections of those who were so fortunate as to be present.

The Question of the Removal of the Market. and and services here

A meeting of the special Committee ap pointed by the Board of Aldermen at its last session to take into consideration the question of the projected removal of the market, in conjunction with a number of prominent property holders, was held at the City Halla few days since for the purpose of consultation and laterchange of views, No definite conclusion of as being at eligible location for the new market is what is known as the "circus lot," on Fifth, between Chesnut and Mulberry streets. The locality is objected to by some, however, on the plea that it is not sufficiently central.

Mayor's Court.

The only case before the Mayor's Court yesresponsibility, entered a certain room where two men were engaged in playing "seven out," for a fifty cent piece, and attempted to To Expel Mosquitoes. arrest the party. The players, however, beat a hasty retreat, and as the self-constituted offi-cer could do no better he arrested an innocent "pectator of "de little game."

Under Treatment.

A colored man, by the name of John Gattis, who was shot at Flemmington on Monday last, during a difficulty with a telegraphic operator, strived here yesterday and was admitted to the City Hospital for treatment. We learn that the extent of his injuries is a walk to the Hospital and will probably soon recover. Gatt's is not a resident of this city.

Branson's Directory.

We are indebted to Rev. L. Branson for a copy of his North Carolina Business Directory for 1872. It is a valuable book of reference. It contains the names and location of 2,099 churches, 383 hotels, 679 lawyers, 979 factories, 3,018 merchants, 1,223 ministers, 1,405 mills, 261 mines, 824 postoffices, 358 schools, 1,067 doctors, 4,548 farmers, together with names of townships, towns, extent of population, and much other valuable information.

Our gallant standard bearer leaves for the eastern counties this morning and will address his fellow-citizens at Beaufort on Saturday.

It is said that a room may be rid of mosquitoes by taking a piece of gum camphor about one-third the size of a hen's egg, and evaporate it by placing it in a tin vessel, holding it over a lamp or candle, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitoes.
