The election in this city passed off very quietly. In fact we cannot call to mind in all our experience on election days the existence of more thorough good order than was exhibited in the various Wards of this city yesterday. Our people, both white and colored, deserve great credit for this state of affairs. Wilmington had a reputation to spetaln in this respect and right nobly did she sustain it. We took the rounds of the different Wards during the afternoon and found that only two or three trifling disturbances had occurred during the day, and these amounted to nothing. As a general thing the utmost good feeling prevalled. While this, of course, was owing in a great measure to the entire absence of atimulants, yet we must take into consideration the fact that this election was one of great importance and calculated to excite and atle up the feelings of the people. That such perfect order should have prevailed under all the circumstances is a source of congratulation.

We have it from a gentleman who was present at Humphrey's, the polling place in Harnest township, that a colored military company, with flag, drum, &c., marched up to the polls during the afternoon. Our informant was about leaving for the city at the time and an only conjecture their object in making such a demonstration at the polls We think there is a law prohibiting military companies from approaching within one mile of a polling place on election day, except upon being called upon in a case of emergency. This company, we leave, has recently been formed le that township.
