Chamber of Commerce.

At the regular meeting of the Chamber on Thursday last the following important matters came up for consideration :

The following resolution was adopted at the regular meeting in July :

Resolved, that a committee of three be apcointed by the Chair, to whom shall be referred the subject of State and county tax ou produce from other States, with authority to procure legal advice and if possible, to take steps to bring the matter before the Supreme Court for adjudication.

The committee en the above resolution reported that they had consulted Hon. George Davis on the subject, and that his opinion was that the law was not unconstitutional, and therefore would not recommend the Chamber to apply to the Supreme Court for relief.

The Committee on Bar and River Improvements made the following report, which was received and ordered to be spread on the minutes, and the committee be requested to communicate with the proper authorities relative to filling up of the docks from the washing of sand from the streets :

WILMINGTON, N. C., August 8, 1872. Col. Wm. L. De Rosset, President of the Chamber of

SIR: Since our visit to the public works for the improvement of the bar and river, on the 4th of May last (reported at the time), no facilities have been tendered as heretolore, or opportunity offered for visiting the works. equently your committee are unprepared at this time to report the present situation or progress of the work.

On the 15th of May Captain C. B. Phillips,

U.S. A., arrived for the purpose of relieving Major Walter Griswold, as Assistant Engineer who had been granted a furlough on account of declining health). And on the 1st of June, Captain Phillips assumed charge of the works, removing his office and residence to Smithville

removing his office and residence to Smithville for greater convenience.

As stated above, no facilities have been afforded your committee for making their usual monthly visits to the works as heretofore, and in the absence of my regular communication with Smithville, the uncertainty and delay added to the expense attendant upon a private expedition, render our usual visits impracticable if not altogether impossible, which is much to be regretted as withdrawing, as it were, public sentiment, and public interest from this great work, a co-operation of which, with the Engineer Department, it was hoped and expected, in the future as in the past, much good to proceed in the prosecution of this important national enterprise.

Tour committee avail itself of the present occasion to call your attention to what appears gross neglect in the city authorities, and of the Commissioners of Navigation, in permitting the sand of the reading of the streets.

f the Commissioners of Navigation, in perming the sand and other washings of the stre the city to be discharged into the river, to he perceptible detriment of the same.

Respectfully submitted, fully submitted. H. Nurr, Chairman.

Destructive Fire.

We regret to learn of the destruction by fire of the valuable property of John A. Sanders, Esq., situated about 4 miles East of this city. The fire occurred about 91/4 o'clock on Friday night, after the family had retired to their beds, and had gained such headway before it was discovered that there was no possibility with the limited means at command to arrest the flames in their career of destruction. Every building on the premises, including dwellings, kitchen, smoke-house and servants' quarters, were destroyed. portion of the farniture was saved, but a large number of fine trees, shrubbery, &c., were ruined, which is a great loss. The loss is estimated at \$7,000, upon which there is an insurance in the Underwriter's Agency, of New York, represented by Messrs. L. H. & T. C. DeRosset, in this city, of \$2,000. The fire originated on the roof near the kitchen and is supposed to have been caused by a spark.

A Strange Visitor.

Mr. C. H. Ganzer, at Mr. J. G. Bauman's saloon, on Market street, was surprised yesterday morning, when he opened his place of business, to find a water maccosin coiled up under one of the tables. He swept the reptile into the street, when, with the aid of about twenty men, including three policemen, who speedily gathered in front of the saloon, his snakeship was finally captured and inveigled into a glass bottle. The snake was about eighteen inches in length and as savage as you please. "Charlie" says he will ship it to Germany. How it succeeded in getting into the store is a mystery.

Leave of Absence. Rev. J. C. Hiden, Pastor of the 1st Baptist Church of this city, will take his departure tomorrow morning for the White Sulpher Springs. Mr. Hiden has been prevailed upon to accept leave of absence from now until the 1st of October to recuperate and will spend the interval at the Springs and in the mountains of Virginia. His family will accompany him. Services will be held in the Church as usual, and the pulpit will be irregularly supplied during his absence.

Decapitated.

We learn that George W. Price, Jr., has been removed from his position in the Custom House at this place. This, of course, was to be expected when he assumed to have political opinions of his own and refused to be coerced by those who profess to be leaders of the party. It will be remembered that Price was one of the seceders from the late Rocky Point "Bull Pen" and was a candidate for the Senate on the "People's Ticket."

Where, Oh, Where !

A free fight, in which about a half dozen individuals participated, occurred on Front street last night. It was kept up for about a half hour, and just as it was about winding up a policeman's whistle was heard. When they reached the scene of the conflict, however, the "birds" had flown. Where these vigilant guardians of the night were in the meantime is the question !

- Capt. Williams, editor of the Raleigh News, was serenaded at the residence of Col. Filkins, in Albany, N. Y., where he stopped while on his way to Saratoga. The following is the concluding portion of his speech delivered on the occasion: But I have spoken longer than I intended. I will only say in the conclusion, speaking as a Southern man, that the people of North Carolina are ready, willing, aye, anxious to forget the past and to unite with the North in building up in the future a great, glorious and happy country. We want to forget the remembrance of war-we want a permanent peace. Not the peace of Warsaw or the peace of the bayonet, but a peace founded on confidence, brotherly affection and love. I know that the South is anxious to clasp hands with you across the bloody chasm. (Tremendous cheering.) I know that the sentiments of Mr. Boutwell at Greensborough, when he protested against this clasping of hands, did not find a response in the hearts of the true patriots of America. (Cheers.) I believe the whole country is tired of dissension; I believe that the whole people are ready and anxious for a lasting peace. We are ready to join hands with you as common brethren to preserve the blessings of constitutional liberty, and hand down its government unimpaired to posterity forever, and I believe this will be accomplished by the elec-tion of Horace Greeley in November next,

Medicinal Peisons on the Wane.

The patriarchs took no mercury, no bismouth, no iodine, no bromide of potassumi, no strychoria, no quinine. Happy old gentlemen! they did not even know of the existence of these " specifics" and yet they lived until it seemed as if Death had forgotten them. Their medicines were herbs and roots. They have left this fact on record, and the world seems to be now taking note of it and returning to the first principles of medication. Hostetter's Stomach Bitters, the purest and most efficacious vegetable restorative of the day is also the most popular. Thousands of persons who only a few years ago believed implicitly in all the poisons which figure in the pharmacopia, now pronounce this palatable tonic and alterative an all-sufficient remedy for dyspepsia, nervous debility, constipation, bilious complaints, headache, intermittent fevers, and all the ordinary disturbances of the stomach, the liver, the discharging organs and the brain. The time is not far distant when most of the powerful and venomous drugs now so recklessly administered by practitioners of the "heroic" school, in cases that might easily be controlled by milder treatment, will be utterly discarded by all philosophical physicians. As it is, the thinking public, who are generally ahead of the professionals, have already put the dangerous preparations aside and adopted Hostetter's Bitters in their stead as a safe and excellent parations aside and adopted Hostetter's Elt-ters in their stead as a safe and excellent household medicine, adapted to almost every ailment except the organic and deadly con-tagious diseases. For more than twenty years this famous restorative and preventive has been annually strengthening its hold upon the public confidence and it now takes the lead of every advertised medicine manufac-tured in this country.
