

OUTLINES.

The Radical State Convention of Arkansas nominated a full State ticket and a Congressman at Large at Little Rock yesterday. One of the nominees is a negro. The new Constitution and the regular Democratic nominee for Governor are probably both defeated by 2,000 in West Virginia. A fusion ticket was nominated in Missouri, an equal distribution of the offices between Democrats and Liberal Republicans having been made. Two persons killed by lightning and forty injured on the Connecticut river during a pleasure excursion Thursday. Reports of a collision between whites and blacks on the Charleston Railroad come from Memphis. Hoffman says it is not right for him to stand in the way of the promotion of others, and refuses to accept a renomination for Governor of New York. Fourteen sunstrokes and four deaths therefrom in New York Thursday. Conolly is wanted in New York, but he has "wood-bined," leaving somebody to pay a half million "ball bond." Two American Consuls attacked in Japan by a drunken party and one of them (Turner) gets his leg broken. Heavy hail-storm in Connecticut; tobacco crop mostly destroyed; two persons killed by the lightning. A call for a "Straight" Convention has been issued in Illinois. The Straight Democratic address is out. Of course Blanton Duncan denies that he has received assistance from Republicans. Democratic and Liberal Conventions of Missouri, after congratulatory speeches by Gov. Brown and others, adjourned. Saratoga race ground crowded with spectators yesterday. A Memphis dispatch says the Sheriff persuaded the body of armed negro rioters at Collinsville to disband. Radical Convention of South Carolina nominated Speaker F. J. Moses for Governor, yesterday, whereupon Judge Orr asked leave to withdraw. See dispatches for important Revenue decision.

KIND WORDS. Our twinker in its new dress and enlarged proportions, has been greeted with a perfect shower of kind words by our contemporaries both in and out of the State. For these evidences of appreciation we feel profoundly grateful; and for the purpose of showing our home people the estimation in which one of their "institutions" is held abroad we shall take the liberty of reproducing hereafter some of the notices with which we have been favored by our brethren of the press. In the meantime, we shall strive to prove worthy the high praise which has been so freely bestowed on us.

THE ENFORCEMENT ACT TO BE PUT INTO OPERATION IN NORTH CAROLINA AT THE PRESIDENTIAL ELECTION.

On high authority it is said that the infamous Judge Bond, a thribble X Jeffries, has taken steps to have the Enforcement Act, as amended by the last session of Congress, put into force in this State at the Presidential election in November, and that the supple tool to carry out the programme of finamy will be the notorious Shaffer of Bankruptcy and U. S. Commissioner reputation.

The new Act is not so odious in its features as the old one was, having been shorn by Democratic opposition of most of its diabolism. But in the hands of such creatures as Shaffer it is expected by the Administration party to deter our people from voting through fear. We shall notice the features of the law in to-morrow's STAR.

MOSES. F. J. Moses, Speaker of the House of Representatives, was yesterday nominated by the Radical State Convention for Governor of South Carolina. The favorite of the colored people, he has beaten for the nomination the pet man of the Ring, Chamberlain, the Attorney-General.

Moses is thus photographed by the Columbia Phoenix, the picture taken in expectation of his nomination: Moses is the darling pride of the corruptionists, the idol of the hobby. Therein lies his strength. If the record made out for him by his most trusty friends speaks but half the truth, he comes forward with the pretension of trust which he has held for the last four years, seeking only a broader field for the exercise of his dangerous talents. It is said, and boldly charged by Republican speakers that F. J. Moses has flooded the State with bogus pay certificates, amounting, as is charged, to near a million of dollars. The Treasurer claims to have already paid out nearly \$600,000 on these certificates. The cry is, still they come, and Heaven only knows how many hundreds of thousands are still out. In the matter of the census account, too, the purchase of new guns, and the alteration of Spinks field rifle to breech-loading, which business was entrusted to F. J. Moses, the State was chiselled out of near \$300,000. Lastly, his name appears upon the unexplainable list of beneficiaries of the armed force fund, from which he seems to have received \$1,000 for services which seem not the light of day.

THE MORNING STAR.

WEST VIRGINIA.

The returns are meagre from the election in this State, and indicate that Jacobs, independent Democrat, is elected by from 1,000 to 3,000 majority. They also indicate the defeat of the new Constitution, among the provisions of which was one allowing only white men to hold office. The validity of this election is questionable. If Jacobs is elected, he is chosen under a Constitution which does not exist, and in our opinion there will have to be another election. Jacobs is a Greeley man and only allowed himself to be voted for by the Radicals because he thought he had been treated badly by the party. It is no Radical victory, view it in any light you will, if he is elected. They did not have sufficient strength to bring out a ticket.

BLANTON DUNCAN BACKED BY GRANT.

If anything were wanting to establish what we have long believed about the Straight movement to elect Grant, it is furnished in the well-authenticated statement we got from Washington last night, that the Administration was circulating Duncan's circular calling for the election of delegates to Louisville. The Grant committee sent out 25,000 copies to the postmasters, revenue officers, marshals, &c., with the instruction, politely couched, to place the circular in the hands of active Democrats.

Blanton the Blanton knoweth nothing of this little arrangement of course!

METEOROLOGICAL RECORD.

Table with 5 columns: Time, Barometer, Thermometer, Wind, Weather. Data for 7 A.M., 9 A.M., 1 P.M., 3 P.M., 5 P.M.

Mean Temp. of day, 85 deg. None. All barometric readings are reduced to the sea level and to 32 deg. Fahrenheit.

W. H. BERNARD, Chief Signer, U. S. S. Office of Chief Signer, Washington, August 23-4:35 P. M.

Probabilities. Diminishing pressure, southerly and southerly winds, increasing cloudiness and probably areas of rain from Missouri to Lakes Michigan and Superior; light to fresh variable winds and generally clear weather from Indiana and lower Michigan eastward over the Middle and New England States; generally clear weather for the interior of the Southern States east of the Mississippi, but partly cloudy weather, with possibly areas of rain along the coast, especially along the South Atlantic.

NEW ADVERTISEMENTS.

C. R. MAYER--Excursion to Smithville. WM. M. STEVENSON--Removal. Read Circus advertisement on 8d page.

Great Eastern Menagerie, Museum and Circus. This colossal and popular establishment, the largest in the country, is winding its way in this direction, and will play in Wilmington, giving three exhibitions--one in the forenoon at 10 o'clock, another at 2 and the last at 7 in the afternoon. No institution on the road, says the Richmond Evening News, has ever given, or can give, the immense amount of satisfaction that the Great Eastern does. The fact alone that it spreads three acres of tents, six in number, is evidence sufficient of its gigantic proportions; but when we remember that these immense pavilions are well filled with moral and instructive amusement, then some idea of the grandness of this affair can be formed. Six tents will furnish just six times the amount of amusement we generally get, besides affording capacity abundant for all who wish to go, thus obviating the terrible jam and crush usually occurring at such places.

To tell the wonders of the zoological and ornithological and curious collections, would take more space than we can allow. The well paid and trusted agents of this great show have explored every land where startling attractions can be found and secured everything worth purchase, regardless of cost. The jungles of India, the forests of Africa, the sand deserts of Arabia, the palace-pens of Egypt, have all given up their natural treasures to make complete the elegant menagerie, caravan and Hippodrome of the Great Eastern. The double circus performance by a renowned double troupe of acrobats, gymnasts, equestrians, voltiagers, posturers and clowns, at the same hour, in separate tents, strikes us as something new and startling in the annals of the arena. The separate orchestra, brass bands and corps of performers all complete. We look for an immense outpouring of the people. Arrangements are being made by the efficient agents to run excursion trains into the city upon the days of exhibition at half-fare going and coming. Women require more sleep, it is said, than men. Bifkins disputes this, as he says, this last round he hears of nights in the voice of Mrs. B. in her nocturnal lecture and the first in the morning is her maturing and adolescent.

SOMETHING NEW.

Manufacture of Gas from Naphtha--A Visit to the Works in this City. Having heard much about the new process of manufacturing gas lately instituted in this city, we, in company with several other gentlemen, paid a visit to the works yesterday in order to witness the modus operandi and thereby form some idea as to the practicability of the scheme. We found that an addition had been made to the buildings formerly and still used by the Company, in which the new works are located. In these, wood and coal, the usual material for manufacturing gas, are discarded, except in heating the furnace, and the first thing that strikes the eye of the visitor is the perfect cleanliness observable on all sides. Naphtha is used exclusively in the new process, though the gas thus manufactured is mixed with that made by the old process. Mr. J. H. Eichholz, who arrived here a little over two months ago and who put up the new works, was on hand and took a great deal of pains in showing us everything connected with the establishment. In one of the apartments we were shown the large meter used, together with the modes of ascertaining the amount of gas manufactured in a given length of time, measured by tens, hundreds, thousands and millions of feet. In another apartment was what is known as the Photometer, which tests to the accuracy of a fraction the power of the gas, and when it has attained to the proper pressure or richness. Attached to the various apartments are also the various pipes used in transferring the gas, the oil used in its manufacture, the water necessary for different purposes and the pumps requisite for forcing the same, a description of which we have neither time nor space here to give. By the new process, it is claimed that with one "bench," with three clear retorts, an average of from 4,000 to 5,000 feet of gas can be made per hour, while with coal the average is about 600 feet and with wood about 1,000 feet per hour. It is also claimed that seven gallons of the Naphtha, with a mixture of 47 per cent. of atmosphere and 52 per cent. of Naphtha gas, will make 1,000 cubic feet of gas, which will give a light equal to from 20 to 23 candles power, while the common wood gas is only equal to 13 candles power. The power of the gas was demonstrated in our presence, by the aid of the Photometer, and found to be fully up to the standard claimed for it. Messrs. Gale & Rand are the patentees of the new invention of making gas from naphtha, and the right of manufacturing it is vested in the Gas Light Company of America, with headquarters in New York. It is claimed for the new invention, and we think with good reason, that it will give a stronger, clearer and more brilliant light than the wood or coal gas, and that it emits no unpleasant odor, while only about one-fourth of the force is required in its manufacture. It is also claimed that in manufacturing by the ordinary process the retorts will only last from 18 to 30 months, while by the naphtha process they will last five years or more. The new invention was first introduced by Mr. Eichholz at Saratoga in 1870, since which he has started naphtha works in Memphis, Tenn., Hamilton and Columbus, Ohio, and various other places. It is also used extensively in New York City and Brooklyn.

Local Dots. Musical note paper is the latest out. Summer is evidently going out in a blaze. Why do not the railroads encourage the shipment of fruit to this place? The tax books of Wilmington Township will be ready by Tuesday next. We learn that the steamer Waccamaw will take a select party to Smithville on Sunday. A considerable number of Wilmingtonians are spending the "heated term" in Hillsboro. Beverly Scott, colored, was ordered to the Guard House yesterday morning for contempt of Court. Shrimps were plentiful in market yesterday and late in the afternoon they were retailing at 15 cents per quart. Large bill boards have been erected around Court House square and in other places upon which to post circus bills. Only two street cars were run yesterday, owing to one of the horses being injured. They will all be on the track to-day. Read the immense circus advertisement in this issue. Durand, the enterprising agent, tells the whole story in two columns. We shall publish to-morrow from the able pen of Rev. Dr. Moran of this city a portion of a critical article on John Wesley and his biographers. Capt. C. L. Chesnut has been elected Quartermaster and Commissary of the Wilmington Light Infantry Company, vice Capt. A. D. Cazaux, declined. A large flat load of cholera, in the shape of sickly watermelons, arrived at Market dock yesterday and were readily retailed out at moderate figures. Mr. Simon Solomons, for the past fourteen years in charge of Mr. Jacob Lyon's business, will soon open a first-class dry goods and clothing house in the store now occupied by Isaac Mack's & Co. We have received from Jordan Stone, Esq., Secretary and Treasurer, the list of Premiums, Rules and Regulations, etc., of the Third Annual Fair of the Roanoke and Tar River Agricultural Society, to be held at Weldon on the 29th, 30th, 31st of October and 1st of November next.

The Conservative Jubilee in Fayetteville. The Conservative jubilee in Fayetteville on Tuesday night exceeded in enthusiasm anything of the kind ever before attempted in that place, judging from the report in the Eagle. The town was brilliantly illuminated, while the lights from hundreds of barrels of resin along the line of march taken by the procession lent its cheerfulness to the scene. The procession, with A. B. Williams, Esq., as Chief Marshal, was headed by the "White House" on wheels, a structure improvised for the occasion by the good people of Fayetteville, and which was intended to represent the building in which it is claimed that Horace Greeley is to take up his abode, not only in imagination but in fact, for "one term only" after March 4th, 1873. It was illuminated by an almost countless number of candles and had an imposing effect. Numbers of rockets also blazed through the firmament during the progress of the procession. At different points on the route of the procession the multitude was addressed by various speakers, among whom we will mention the following, in rotation: Hon. T. C. Fuller, Hon. T. J. Jarvis, Edward Jones, E. H. Busbee, D. H. McLean, Hon. D. M. Barringer, H. A. London, Jr., Hon. J. M. Leach, W. F. Campbell, N. A. Steadman, Jr., W. C. Troy, J. H. Myrover and J. H. Currie. Everything passed off quietly and pleasantly on all concerned.

Mayor's Court. The following cases were disposed of yesterday morning: Eliza Nixon, Eliza Hill and Bada Barton, charged with disorderly conduct, were fined \$25 each. Frank Leviston, charged with drunkenness. Judgment for the costs, \$3 25. Ida Bates, charged with an excessive indulgence in stimulants. Judgment for the costs, \$3 25. W. H. Harrison, arraigned on the charge of forgery, was required to give bond in the sum of \$300 for his appearance at the next term of the Superior Court, which was forthcoming and he was discharged from custody. Sally Burner, charged with disorderly conduct, was fined \$3 25. M. B. Guage, charged with disorderly conduct and using a knife, was required to pay a fine of \$15 or go to the Work House for 30 days. No Turning Point. It is difficult to convince some that the balls or cups attached to the anemometer on the roof of the Weather Observer's office at the foot of Market street, do not occasionally reverse their course. They will not admit that it is an optical delusion, so confident are they that the balls turn in one direction a while and then take the opposite course, and several bets have been lost and won on the subject. Any one who will take the trouble of consulting the officer in charge will find that the anemometer to which these balls or cups are attached is intended to indicate the velocity of the wind and that it is not possible for them to deviate from their regular course. It would have the effect to entirely upset his calculations.

May be Worth Preserving. The Medical Home has the following receipts, which may be of value: A tea made of chestnut leaves, and drank in the place of water, will cure the most obstinate case of dropsy in a few days. A tea made of ripe or dried whortleberries, and drank in the place of water, is a sure and speedy cure for a scrofulous difficulty, however bad. A tea made of peach leaves is a sure cure for a kidney difficulty. A plaster made of fresh slack lime and fresh tar is a sure cure for a cancer, which with all its rots, will soon come out. For the cure of small-pox, apply raw onions halved, under the arms, in the hands and on the bottom of the feet; change often; diet, chicken broths. Do not poison the blood by vaccination, and leave posterity to reap the rotten fruits of our stupidity. Consumption, scrofula, and other loathsome diseases are thus impregnated into the system. Better by far, have the small pox and be free from a living death. Sick and Destitute. A white woman, giving her name as Margaret Smith, was sent to the City Hospital yesterday. She says she arrived here yesterday morning from Leesburg, Miss., and that she is desirous of going to Moore's Creek, in this county, where she has an aunt. She says she is paralyzed in her limbs and unable to walk, besides which she seems to be diseased in other ways. She was brought from the Union Depot to the City Hall in one of the city carts and from thence taken to the Hospital, where she will remain until an opportunity offers to send her to Moore's Creek, she being in destitute circumstances. How is your wife to-day? said a friend to a French gentleman. "Oh, moche de same," said he, "she is no better, and I'm 'traid very little was. If she is gone to die, I wish she would do it soon. I feel so unhappy--my mind is so moche unsatisfied. Ven she die I shall be so moche satisfied."

Type for Sale.

We offer for sale the display and body type formerly used in printing the Daily and Weekly Star. Also, a lot of column and chase, brass dashes, &c. The serules, of type is large, and consists of sortment of Nonpareil. To a cash purchaser the entire lot will be sold on the most reasonable terms; or it will be sold in lots to suit at a moderate price. "Which, my dear lady, do you think at the merriest place in the universe?" "That immediately above the atmosphere that surrounds the earth, I should think." "And why so?" "Because I am told that there all bodies lose their gravity."

Spirits Turpentine.

Wadesboro builds up. Hail big as hen eggs in Nash. Two new stores going up at Whitakers. Much travel through Wadesboro, says the Argus. Mr Noah Leggett, an aged citizen of Whitakers, died Sunday evening. Judge Merrimon and family are on a visit to the Western counties. The Mail says the warm weather causes much sickness at Rocky Mount. New Post Office at Sharpsburg, Nash county, Geo. W. Robbins, P. M. Work will soon be commenced on the new Court House at Greensboro. After a protracted illness the editor of the Rocky Mount Mail has ventured on a trip to Weldon. The Salisbury Watchman says the Federal Court jurors from Rowan are all Radicals, of the deepest dye. The Argus says the crops are fine in Richmond county, but the army worm has appeared in the corn. The Battleboro Advance says that the fruit crop is very good, and more brandy is being distilled than usual. Wilson, so we learn from the Plaindealer, has a Greeley and Brown club, and Col. Thos. S. Kennan is President. The New North State records a fearful storm in and around Greensboro and the washing away of all the bridges. The New Bern Times says a little daughter of Mr. Z. Habour was killed by lightning in Washington on the 21st inst. The Advance reports fine crops in Nash and Edgecombe and general rejoicings there in the way of good old fashioned dinings. We learn from the Raleigh News that a turpentine distillery was burnt at Sanford, Wednesday night; most of the contents of the building were saved. The Raleigh News says it is reported that the New newspapers will pass into new hands in a few days. Harris will, as a matter of course, draw his pay usual. The Advance says: At Nash County last week John Coley, of Warren County, was convicted of horse stealing and sentenced to the Penitentiary for five years. Moses Bunn was convicted of forgery and sent on for one year.

Humane share with Horses.

Beneficial share with Horses. The benefits derivable from the world-renowned Mexican Mustang Lincture, The most irrefragable testimonial establishes the fact that this wonderful balm exerts the same soothing and healing influence when applied to the human cuticle, that it does in cases of spavin, founders, ring-bone, poll evil, scrofula, wind gall and other ailments of the horse which require prompt treatment. It is, in fact, the most perfect of all external remedies for rheumatism, stiffness of the neck, neuralgia, sore throat, swellings, cuts and bruises of all kinds. BUFFALO, N. Y., Dec. 18, 1870. DR. V. F. FERRIS: For the past six months I have used your Golden Medical Discovery in my practice, and in that time I have tested its merits in a variety of acute and chronic, in chronic diseases of the throat, severe cases of bronchitis, general derangement of the system, constipated condition of the bowels, and wherever a thorough Alternative or Purgative has been indicated. In all cases I have found it to act gently, yet thoroughly and effectively in removing the various diseased conditions, and bringing about a healthy action throughout the system. Yours fraternally. R. L. HALL, M. D. This medicine is sold by all respectable Druggists in all parts of America. aug 20-72 TR A.
