The Peace Offering-Charles Sumner

[Condensed from New York Tribune,] WORCESTER, Sept. 11. The Liberal Republican and Democratic

State Conventions in this city, to-day, were eminently successful, as political gatherings, in every respect. Numbers, enthusiasm and harmony are three points which will insure success on such occasions, and from any and every point of view it was apparent to everybody in the city that the Convention possessed these requisites. There were nearly 600 delegates to the Reublican Convention, who completely filled Vashburn Hall. In the Democratic Convention there were nearly 1,200 delegates. The latter was the largest delegate convenion over held by that party, and, in point of unanimity and enthusiasm neither concention has ever been surpassed in this state. The Hon. F. W. Bird, of Walpole, called the Convention to order, and in do-ing so said: We have left the Republican party of Massachusetts and of the country because that party has left its principles. [Loud applause.] We propose to found

THE GREAT PARTY OF THE FUTURE. which shall be true to the great principle of the Republican party of the past, and which still more shall be true to the great principles which shall promote the pros perity of this country in the future. [Loud applause.] With undoubting faith in the immediate triumph of those principles we have entered upon this movement. That triumph in all its completeness may be de-layed. We know only what the duty of the present hour is, and that is fidelity to our arnest and honest convictions and such | South Carolina, who reviewed Grant's Adgood cause to which we have devoted our- abroad, and showed that the South was in selves [Loud applause.] But we come earnest for reconciliation and a perfect peace under Horace Greeley. principles for which we have been strug-gling, and ask to be received, I am in fa-

Of the triumph in North Carolina he said:

The two Conference Committees paid re-

on the Liberal Republicans, getting a warm

greeting, and announcing that the Demo-

the Democratic Convention and had a

hearty reception, and all of the visits were

of a most cordial nature. Early in the af-

Wilmington as a Commercial Empo-

The Battleboro Advance of yesterday, alluding to Wilmington as the chief commercial city of the State and the advantages to be derived by the business men of that and other sections in bringing their produce to our market and purchasing their supplies from our merchants, very truthfully says: "As a market for naval stores and cotton it is equal to any in the country and, being our chief commercial city, it should be patronized by our people. As a grocery market, especially for molasses and salt, it is said to be superior to any other. Parties in this section who shipped cotton to Wilmington last season obtained prices equal to those obtained in the Northern markets. The merchants appeal to the merchants and farmers of this section to give them a trial and they guarantee to do, at least, as well for them as can be done outside the State. They do not ask for patronage at any sacrifice on the part of North Carolina, but they do reasonably claim, where equal advantages are offered, that we should encourage our home market, for in building up Wilmington we are helping North Carolina, and in helping her we are helping our-

The Washington Campaign Patriot. | THE CONTEST We take pleasure in calling attention to this excellent Campaign paper, which is the Organ of the National Democratic and Conservative parties, and published at the National Capital.

The price of the Weekly is only \$2 per annum. To clubs of six or more only \$1 50 per annum, while for the campaign, or four months, it is furnished to clubs of six, or upwards, for a small sum of fifty cents It has thirty-two columns of carefully selected reading matter, embracing edi torials, the latest political and domestic news; and, besides, has correct market reports and miscellaneous news.

We bespeak for it a liberal patronage: for, as our only representative party organ at the National Capital, it should be in every Democratic and Conservative household, as its cheapness brings it within the reach of even the poorest. Make up your clubs and send your lists in.

New Revenue Regulations.

After the 30th of September Collectors of Internal Revenue will be held responsible for the collection of penalties, and Supervisors will be instructed to frequently examine the lists, with the view of enforcing the collection. The practice has been for Collectors to use their discretion; but they are informed that in all instances the duty is obligatory and must be rigidly enforced.

The First Comptroller has decided that powers of attorney and other evidences of authority to collect interest, or to enclose drafts or checks executed on and after the 1st of October, need not be stamped.

Gaugers are to be instructed to brand beer kegs with the denomination of the stamp required in place of their capacity. The Internal Revenue Bureau holds that for all practical purposes a keg containing less than the pretended capacity must be stamped the same as if it was a full package.

Arrest of an Ex-Sheriff of Bladen.

We learn from parties who arrived on the W., C. & R. R. R., yesterday afternoon, that the Grand Jury of the Superior Court of Bladen, now in session at Elizabethtown, have found true bills against ex-Sheriff Eldridge, of that county, and a man by the name of Hammond, living at Rosendale, for complicity in a robbery that occurred some time since. The parties were arrested and carried to Elizabethtown, but Hammond succeeded in making his escape. Eldridge, at last accounts, was in the Sheriff's office under guard. His trial, we in Raleigh, left there yesterday morning for learn, was to have come off on Thursday. As a matter of justice we would state that Eldridge's friends are confident that he will be able to prove his innocence.

At last accounts received by the steamer Murchison, the river was still very low. She left here on Saturday last and did not reach Fayetteville until the following Tuesday, it having been necessary to haul her over the different shoals, which took considerable time. She started on the down trip on Wednesday and arrived here yesterday morning, meeting with less difficulty, partly on account of not being so heavily laden. There was a heavy rain up the river on Thursday, which no doubt made a material improvement in the amount of water and i is hoped that in a few days the river will be in good boating order. The Murchison started for Fayetteville yesterday afternoon and it was not anticipated that she would have much trouble in reaching her destina-

Heavy Rain Yesterday. The universal desire for rain, so often exressed in this latitude for a week or two past, was fully gratified yesterday. It fell in torrents during the greater part of the afternoon, flooding the streets and sidewalks and making it anything but pleasant to those whose business called them out of doors. On the wharves, in some instances, the water was forced into the stores to a considerable depth. The storm was accompanied by thunder and lightning, but there was very little wind. He Believes there is Substantial Ground for a Contest-The People Desire it-He Will Do Everything that is Just and Lawful to Establish the Right, Nothing Rashly or Unadvisedly to Gratify Party Spirit or Po-

litical Revenge.

So much having been said as to whether Judge Merrimon would contest the election or not, Capt. S. A. Ashe addressed him a letter on the subject. The correspondence is published in the Raleigh papers of yesterday, and is copied into our columns to-day. It will be seen that Merrimon will contest the election if sufficient evidence is collected, of which he seems to entertain no doubt. What becomes of the boasts of the silly Radical sheets which said the Judge would not contest?

Below we publish the correspond ance between Ashe and Merrimon:

CORRESPONDENCE.

RALEIGH, Sept. 12th, 1872. My DEAR SIR:-As much has been said with reference to contesting the result of our late election, and as our political friends feel a deep interest in the matter, I take the liberty of requesting you to to state your purpose in the premises, with the view of having your reply published for general information.

Very respectfully, yours &c. S. A. ASHE. HON. A. S. MERRIMON, Raleigh, N. C.

RALEIGH, Sept. 12th, 1872.

MY DEAR SIR: Your letter of today inquiring whether it is my purpose to contest the late election for Governor at the approaching session of the General Assembly, or not, has just been handed to me.

When in May last I accepted the nomination for Governor made by the Greensboro Convention, I became the candidate of a great party and such other citizens as might choose to honor me with their votes for that high office, and thereby grave duties were devolved upon me. Not the least among them was that of securing to the State and those who voted for me, the lawful fruits of the ballot box.

I am satisfied by a great variety of facts and circumstances that have come to my knowledge, and by incontrovertible evidence already in the ossession of the Executive Commitees, that enormous frauds were perpetrated at the election, and that great numbers of illegal votes were dates associated with me on the Democratic-Conservative ticket for State offices. I sincerely believe that we each received a majority of the lawful votes cast; but whether those who perpetrated these frauds directly and indirectly, did it so artfully as to avoid complete legal detection remain to be seen.

I would not think of the grave step of contesting the election upon slight or captious grounds, or to gratify party caprice; but if there is substantial ground for doing so-and I believe there is-and it can be made to appear according to law, then if the people demand it, it will be my duty, and I will add, my pleasure to contest it, and I shall do so at the instance of the people. If, on the other hand, in the opinion of friends competent to judge of such matters, sufficient proof of frauds actually perpetrated, cannot be made, to contest successfully, I will not attempt a fruitless undertaking. I do not desire to engage in an unavailing controversy, and I am sure the people do not.

But I have the most abundant information to satisfy me, that the great body of the people throughout the State who supported me and those associated with me, believe such gross frauds were perpetrated and desire that such contest shall be made, if sufficient proof can be produced to make it successful-not otherwise. So that if it turns out upon the ex-

amination now being made by my friends through the Executive Committees, that substantial ground for contest can be established, I will contest the election and vindicate the rights of the people, and as I believe, the best interests of the State and country by so doing, to the utmost of my capacity and to the last extremity.

I will not do anything rashly or unadvisedly, or to gratify party spirit or political revenge; bat I will do everything that is just and lawful to

establish the right! I believe this is the spirit and determination of my associates on our

State ticket. I am, &c., very truly yours, A. S. MERRIMON. S. A. Ashe, Esq., Raleigh, N. C.
