ANOTHER GRANT DODGE. Our telegrams inform us that considerable excitement has been created in the Tammany Hall General Committee by the discovery of the fact that nearly one hundred of its members are in favor of Grant for President, and Senator O'Brien for Mayor of New York.

Of course, these traitors have been bought at so much per head by means of the Grant corruption fund; and, no doubt, the immaculate Boss Tweed is at the head of the movement, though he may not be openly at work.

Could anything show more conclusively the desperation of Grant and his army of office-holders? Through the influence of Tweed and the United States Treasury these shameless wretches hope to control the vote of New York city, and thus give the electoral vote of the State to Grant and Wilson. Fortunately, however, for the Liberal cause, these desperate tricksters are closely watched; and they can use their stolen money to as little advantage in New York as in any State of the Union. They have overreached themselves, and if the are at all smart they will draw of their forces and make a raid on some other point.

KING CHARLES OF SWEDEN. By cable dispatch received from Europe yesterday the announcement reached us that King Charles of Swe-

Charles XV was the grandson of Charles XIV, and succeeded his father Oscar as King of Sweden and Norway in 1859. He was known as a patriotic and enlightened monarch, and as a man of cultivated tastes and decided literary talents. He published a volume of poems, we believe, in 1869. His grandfather, Charles XIV, whose real name was Jean Baptiste Bernadotte, was also a distinguished man, both in civil and military life. He died in 1844, leaving Sweden in a state of peace and prosperity which she had not known for half a century.

SOUTH CAROLINA.

A telegram received at Washington announces that Lewis E. Johnson, son of Reverdy Johnson, has been nominated for Congressman-at-Large by the bolting Republicans. Johnson was formerly U. S. Marshal of South Carolina and was removed by Grant. The plot thickens in the Palmetto State; and by prudent management our friends there can profit by the divisions in the ranks of the Radical thieves who have plundered

THE INDIANA CANVASS. Senator Hendricks Addresses 5,000 People at Hichmond.

RICHMOND, IND., Sept. 17. This county, the banner Republican county of the State, the town being noted as the scene of Senator Morton speech denouncing negro suffrage, was to-day the scene of the largest political meeting held in Wayne coun-ty for many years. Senator Hendricks had an audience of 5,000 persons, and was received with great enthusiam. He spoke for an hour and a half, and was followed by Mr. Cravens, Liberal candidate for Lieutenant-Governor, Judge Gooding, Liberal candidate for Congress, and Col. Stillwell.

Colquitt, and ex-Gov. Bonham, of South Carolina, The attendance was large and the enthusiasm great. The speeches which were most loudly ap-planded were those which said nothing about supporting Greeley as the choice of evils, or because nominated by the Democratic party, but which took the ground that he is the best man for the country's need to rescue it from impending centralism and despotism, to reform the gross abuses of Government, to restore harmony and fraternal feeling between the North and South, and to bring on an era of unity, peace and prosperity. The speech of Senator Miller especially, which was entirely in this view, struck a responsive chord that awakened the most enthusiastic demonstra-

tions of applause. METEOROLOGICAL RECORD. September 19, 1872. Weather Mean Temp. of day, 78 deg.

LIBERAL REPUBLICAN CLUB.

Enthusiantic Meeting-Address by Jacob DeWitter, Colored Orator from Washington City. At a called meeting of the Liberal Republican Club, held at their rooms last night, an able and telling address was delivered by

Jacob DeWitter, a colored orator from Washington City. The speaker, after s few remarks from the President, introduced himself as one of the few colored men who stood up as a champion for reconciliation between the races, and forcibly reasoned in behalf of reform in the political relationship of the officeholders to the masses. They now, said he, centrol the people by force and do not allow a calm, dispassionate discussion of the acts of the Administration. He paid a tribute to Boston and gave a hit at the mock philanthropy that interests it self in natives of the Fejee Islands, but allows the citizens of African descent within its limits to bear the insults that would be considered intolerable in Richmond and

New Orleans The military ring received a passing notice, and Gen. Grant, at its head, a criticism that we thought severe but just. Said he, between Grant and Greelev I hold up the character of men who represent distinct types of American citizenship—the one, a self-made man, born poor and a life-worker with the friends of humanity, always acknowledged as the special champion of the colored race and but recently the head and front of the Republican party; the other, a life-worker with the Democratic party, and who was educated at the public expense.

The remarks of the speaker were able, sensible and to the point and were received with every mark of satisfaction by the large crowd present. At their close a vote of thanks was tendered him by the Club, when the meeting adjourned with cheers. An effort was made to create a disturbance by a few of the office-holders' clique, but the attempt met with a signal failure.

Accident to a Seaman.

Yesterday afternoon, between 12 and 1 o'clock, a seaman belonging on the British Bark Sarnia, by the name of Thomas Williams, met with an accident which was at first thought to have proven fatal. The sel with rosin, while Williams, who was considerably intoxicated, persisted in standing about the hatchway. He received repeated warnings from the mate and others to keep out of the way or he would get hurt. but he paid but little attention to their well meant words of caution, asserting that he guessed he was able to take care of himself. Finally, a barrel of rosin, which had been hoisted on the vessel, swung against him, striking him with such force as to precipitate him head foremost down the hatchway, a distance of about eight feet. It was expected at first that his brains were dashed out or his neck broken. In fact, a message was dispatched to Capt. Pillow, who was in another part of the city at the time, that Williams had received fatal injuries. A physician was sent for, however, and upon examination it was found that the man had received very painful injuries about the head and shoulders, but no bones were broken or fractured, and it was not believed that his wounds were likely to prove in any way serious. He made an exceedingly narrow escape, however, and will probably be more careful hereafter.

The Berger Family. Through a "friend of the family" we were posted yesterday in reference to the present whereabouts, future intentions, &c., of the Berger Family Swiss Bell Ringers, who made so many friends in this city last season. They are at Jackson, Michigan, "resting on their oars." Sol. Smith Russell will leave the troupe and travel with a company of his own this season, but his place will be supplied. Among the new accessions to the company is a young lady from Augusta, Ga. They will open the campaign at Jackson early in November and will probably visit Mexico and Cuba during the season.

Important to Correspondents.

The Postmaster-General has issued a circular to the different offices of the department to the effect that when a letter requiring more than one full rate (three cents) in prepayment is dropped into an office, it shall be forwarded as a single rate letter, but that double the amount of the deficiency shall be collected from the party to whom the letter may be delivered.

Arrest of Deserters. Two deserters from the British Brig Ma dusa, named Wm. Thompson and John Brown, were arrested by Officer VanSoelen of the police force, yesterday morning. They deserted about five days ago, since which time they have managed to keep out of reach of the authorities. They were lodged in jail for safe-keeping.

A Painful Accident. Mr. John G. Raleigh, an employee Messrs. Hart & Bailey's Foundry, met with a severe accident yesterday, about 11 o'clock. He was using what is known as a foot ax when he made a false blow and struck his right foot, cutting a terrible gash which nearly severed it from his body. A phy sician was called and the wound sewed up, and at last accounts the sufferer was doing as well as could be expected.

Type for Sale, We offer for sale the display and body type formerly used in printing the Dai, and Weekly Stan. Also, a lot of column rules, chases, brass dashes, &c. The assortment of type is large, and consists of Bourgeois, Minion and Nonpared, cash purchaser the entire lot will be a in lots to suit at a moderate price.

Funeral of Henry Haar, Jr. The many friends and acquaintances of

the young gentleman whose name heads this article, and who was highly esteemed in this community, were pained to hear of his death, which occurred in this city on Wednesday evening last, and yesterday they testified their appreciation of his worth by attending in large numbers to pay the last sad tribute of respect to his memory. The friends and acquaintances of the family, together with the Knights of Pythias, in their beautiful regalia, the Odd Fellows, bearing the emblems of their order, the Howard Relief S. F. E. Company in full uniform, the German Association and the Mechanics' Hose Company, met at the late residence of the deceased, where appropriate services were conducted by Rev. Dr. Moran, after which the mournful procession was formed and the funeral cortege, which was one of the largest we have witnessed in the city in a long time, repaired to the Lutheran church, where the services were concluded, and the body was borne thence to Oakdale Cemetery.

We would mention in this connection, as a rather remarkable fact, that Mr. Haar is the first member of the Order of Knights of Pythias who has died in North Carolina since the establishment of the Order in this State, the first Lodge of which was instituted in this city in November, 1870.

Sale of Building Lots: We find that our informant was mistaken in reference to the number of building lots disposed of on Wednesday. Messrs. Bunting & McQuigg, who conducted the sale, inform us that they sold 137 half lots, or about eleven and one-half blocks, every one being bid off by a bona fide purchaser. The titles are warranted and no lot withdrawn after once being put up. The sale will be resumed on Tuesday at 11 o'clock.

- The Goldsboro' Messenger says A most diabolical murder was committee near La Grange, in Lenoir county, on Sun-day night last. Susan Rhodes, a negro-woman, employed as cook by James S. Wooten, Esq., was found dead in her bed Wooten, Esq., was found dead in her bed on Monday morning, with her brains beaten out. The outrage seems to have been perpetrated with an axe, which was found at the wood pile, stained with the blood of the victim. The murderer had taken pains to lock the body up in the house. The windows were all fastened inside, and the key was missing. No arrest had been made when we last heard from there. There is, however, strong circumstantial evidence pointing to a negro man, named Octavous Davis, as being the perpetrator of this hellish crime.

So general has the public confidence become in Dr. Ayer's medicines, and so great the demand for them, that unprincipled villains are attempting to deceive the unwary by imposing upon them their worthless nostrums under a similarity of name. Cherry Pectoral Lozenges, Dr. Ayer's Troches, Ayer's Pastile for Coughs, Cherry Pectoral Cough Drops, Ayer's Fever and Ague Cure, Doct. Ayer's Indian Pills, &c., &c., (none of which are of Dr. Ayer's manufacture or composition) are specimens of this villainy and deceit. They not only defraud the sick of their money but of their health, or the recovery of their health, which is far more important than money. From actual counterfeits the people are protected by law which the Doctor promptly enforces, but these evasions sometimes clude the law, and purchasers must protect themselves by refusing to be deceived by them.—Dover (N.
