#### OUTLINES.

A riot between whites and blacks at Cin

cinnati Monday resulted in the shooting of several white men and knocking down of some negroes. The latter took possession of the armory. The police at 1:30 a. m. vesterday got possession of the armory, when the blacks retired. -103 counties in Georgia give Democratic majority of 50,671; probability that it will reach 60,000. -Liberal successes in town elections of Connecticut. -Reddy the Blacksmith arrested in Philadelphia for voting too often. -Coal mine accident at Moseley, Eng. land, forty miners killed. - Two Wrights, county officials of Shreveport, La., killed by two of the police. Their murderers, Shepherd and Sherwood, were pursued and Shepherd was killed by friends of the Wrights. - Riot in Madrid. Streets cleared of troops. Nobody killed, and order was restored. - Latest election returns give Pennsylvania to Republicans. Meagre returns from Ohio and Indiana.

#### THE RESULT YESTERDAY. PENNSYLVANIA.

The election of Hartranft, the candidate of the Grant-Cameron Ring, seems to be conceded in Pennsylvania. This result was foreshadowed several days since when it was announced that the city of Philadelphia had registered ten thousand more voters than the great city of New York with its third of a million more population. With 800 Deputy United States Marshals around the polls, hundreds of New York "repeaters" headed by "Reddy the Blacksmith," and the millions of dollars of public money under the control of Simon Cameron, it is a matter of no surprise that Philadelphia has given a fraudulent majority that must be flattering even to such unsullied patriots as Cameron, Hartranft, Yerkes and Mercer. Our telegrams are very meagre, but the fact that Cols. Forney and McClure concede the State to Hartranft is conclusive to

The returns from Ohio and Indiana are very imperfect. We have a reported Liberal majority of twenty-five hundred in Cincinnati, which is a Liberal gain of several thousand on the vote of previous years. Other returns from a few precincts show small Republican gains. The indications are that the vote of Ohio will be close, with chances in favor of the Liberals. INDIANA.

Notwithstanding the imperfect returns from Indiana, we feel confident that the gallant Hendricks has carried the State by a decided majority, although the unscrupulous Morton gave all his energies to the task of indirectly, securing his own re-elec-

THE VERY LATEST. 1 o'clock A. M.

A special telegram to the STAR from Washington says: "Pennsylvania will probably give Hartranft 20,-000 majority. Walcott, Chairman of the Republican Committee, telegraphs that Ohio is safe for 15,000 majority. Niblack, (Dem.) of Indiana, is beaten for Congress. Vote in Indiana very close, with chances in favor of the Republicans."

We have concluded not to bring out any roosters this morning.

A little white child, who had strayed from its home, somewhere in the vicinity of the railroad, was picked up near the corner of Front and Market streets yesterday. The little one could not talk and consequently it was with some difficulty that the identity and whereabonts of its parents were discovered. Those who do not employ nurses should be very careful not to allow their little ones to stray out of their sight, as they are constantly in danger of being run over by drays or other vehicles.

A Resolute Son of Neptune-He Said He Wouldn't and He Wouldn't.

It will be remembered that when the British Barque Madusa was at this port two of her men deserted and were at large for several days. They were finally arrested, however, and placed in the lock-up for safe-keeping, where they remained until the ship sailed, when they were taken on board. They were very obstinate, their confinement not having the effect to break the spirit of insubordination which had before characterized them, and they gave the Captain a positive assurance that they would not perform their customary duties on the vessel. One of them, by the name of Wm. Thompson, more desperate and resolute than his companion, resolved to leave the vessel at the first opportunity, and on last Wednesday morning, about 4 o'clock, while the ship was lying at anchor outside the bar, he jumped overboard and swam ashore, a distance of about a mile and a half, having taken one of the vessel's spars to assist him in his efforts to effect a safe landing, which he accomplished after having been in the water four hours. He subsequently started for this city, reaching here on Saturday night last.

- We have now on hand the very latest styles of Cape and West End Overcoats. DAVID & WEIL.

A Child Deserted by its Parents. A colored man of this place, by the name of Robert Walker, and his wife, Julia Walker, having "agreed to disagree," and she having expressed a determination to absolve herself of all allegiance to him as her husband and leave the city, they bade a final adieu to each other, the husband retaining possession of their only child, an infant, and the wife taking her departure for Charleston, S. C. This happened about three weeks ago. After his wife had left, Robert took his child to the house of a colored woman by the name of Laura Bailey, living on Church, between Fifth and Sixth streets, and prevailed on her to take care of it, promising to bear all expenses. A few days afterwards, however, he also disappeared and has not since been seen or heard of in this latitude. The child, withdrawn from the care and solicitude which it should have been the pride of its unnatural parents to bestow upon its helpless infancy, though through no neglect, that we are aware of, on the part of the woman who had charge of it, languished and died and yesterday its remains were deposited in the pauper's burial ground at the expense of the city,

Advice to the Public, or that Portion of Them Who Have Been Unfortu-

The grandest principle of natural philosophy teaches us that where we have lost a thing there, and there only, can we find it.

Then I would say to those who express themselves as having lost from ten to fifty dollars in the lotteries of the past not to despond because their night is dark, for the darkest hour is just before the dawn of day, but just to raise their heads and breathe one thought of that invincible resolution which hids as thought of that invincible resolution which bids us never give up less than conqueror, and lay hold of the means, or tickets, which are now within your grasp, and on the 30th of October will rise a sun that will shed a ray of light to dispet the darkness with which you are now enveloped. which you are now enveloped.

Before entering on any business or subject study it prudently; but when thou dost grasp the theme, grasp it with that untiring, invincible energy and ambition that faltereth not though all earth oppose, and success is inevitably yours. Despair is the

death of prosperity.

Now if ye do pine and quit in despair ye are the victims of whiting passion, and commerce, with all her pomp and splendor, denies you a prosperous seat within her busy walls, which are upheld alone by the pillows of ever increasing and untiring energies.

Purgative Pills have become a settled necessity with the American people. Indeed, cathartics always have been and always must be used, in some form, by all mankind. In this country the pilular form of administration has been growing in favor ever since pills were first made of Aloes and Rhubarb, rolled into a ball. Their high position in the public confidence has finally been secured and fastened into permanency by Ayer's Cathartic Pills, the most skillful combination of medicine for the diseases they are intended to cure, that science can devise or art produce.
