The troubles in Osceola, Arkansas, continue, and the citizens remain under arms, and are getting their families to places of safety. ____Archbishop Bayley says he is an advocate of liberty of conscience. ---- Neff's majority over Shanks for Congress in Indiana is 28. -A propeller foundered near Racine, Wis. ---- Freight engine yesterday morning, through drunkenness of the engineer it is reported, exploded its boller at Dover station, near New Berne, killing conductor, engineer and fireman. ----Outra-ges by Indians in Arizona Territory. ____ The cases of Fields and Tweed again up for a hearing, but finally postponed until Thursday. — The National Board of Trade in session at New York. ---- Several men lost by a marine disaster near Milwaukie. --- Minister Washburn sailed from London for New York. ---- The released Communists in Paris have been discovered with dangerous missiles in their possession ___The Legislature of Vermont, yesterday, re-elected Morrill U. S. Senator,

The October elections are over. They enable us to form a tolerably accurate idea of the true political sitnation of the country.

In Georgia we have to recount a victory for the Liberal ticket so unexampled as to take her out of the list of doubtful States, and practically to pronounce in advance the decision of at least 125 votes in the Electoral College. To this number it is only necessary to add sixty votes to elect Greeley and Brown.

erly to westerly winds, falling barometer, In Pennsylvania the distinguished warmer and cloudy weather. In the South Atlantic and Gulf States generally clear Chairman of the Liberal Committee has eloquently characterized the methods by which the result of the weather with southerly to westerly winds in sction there was accomplished. We commend his statement to the thoughtful attention of the country. In Ohio, despite most unprecedented gains for the Liberal-Democratic ticket, the Grant managers have carried the election by a reduced majority, having brought to the polls their entire reserve vote. Had our Democratic friends in certain localities of that great commonwealth shown the same earnestness and activity, and enabled us like our enemies to record sale. our entire strength, they would now be exulting over a brilliant victory. In Indiana the Democratic and Libe ral forces have achieved a most important success over Pennsylvania tactics most unscrupulously employed by the Administration and its allies, showing thus that a free people when aroused know their rights and dare maintain them. Indiana has fairly demonstrated that she can neither be "bought nor bullied." The moral of these results is that victory is still in plain view for our national ticket, and that energy and courage will assure it. That victory must be won. If we mean to preserve free institutions on this continent we must assure it. The event in Pennsylvania, on Tuesday last, when considered in its causes, is the most appaling political catastrophe that has ever taken place in this country. Should the system through which this caastrophe was brought about be condemned by the people and foisted on the other States, it seals the doom of freedom in America. A sad contrast it is surely that the city in which our republic was born amid the anthems of a free people should now be the first to toll the knell of its liberties. It is for the free, unbought people of all the States to calmly review the fearful crime against suffrage in Pennsylvania, and to decide whether it shall be repeated within ing. their own borders. For the first time the system of free government and the sanctity of the ballot are really on trial in the United States. From this hour forward the preservation of the franchise in its integrity dwarfs all other issues. Let our friends in each of the States catch inspiration from the heroic conduct of our fellow-eitizens in Georgia and Indiana; and from now till November let their struggle be manful and unceasing for liberty and an un-tainted ballot-box, for Reform and an honest Administration of the Government. AUGUSTUS SCHELL, Chairman National Dem. Com.

This splendid steamship, just completed for the Baltimore and Wilmington Steamship Company and designed especially for trade between the two ports, steamed gaily up the Cape Fear yesterday, her flags and ensigns fluttering in the breeze, and her appearance indicating a large, fine and substantial craft. As she neared her wharf a salute of three guns was fired from the vessel, and upon landing quite a number of our merchants and others went on board and examined her. Through the courtesy of Capt. A. D. Cazaux, the Agent of the line in this city, and Capt. John S. Oliver, who superintended the building of the Foley, we were shown through the vessel and furnish ed with all necessary information. She is

700 tons burthen, has a capacity of 7,000 barrels, is 165 feet long, 30 feet beam and 16 feet depth, of water, being designed to cross the bar at the mouth of the river at all stages of water. She was built by Messrs. Beacham Bros., Boltimore, her engines and machinery being furnished by Messrs, James Clark & Co., of the People's Works, of that city. She is rigged with three masts and with a fair wind need rely but little upon her propellor. Being built entirely for freight, her passenger accommodations are lacking, but there is every arrangement for the comfort and convenience of the officers and crew. She is strongly and compactly built and presents in every way a handsome and durable appearance.

During a trial trip on the Foley, at Baltimore, on Wednesday last, James A. Garey, Esq., former President of the Company, made some remarks in which he stated that the line was started six years ago with the little steamer bearing his name, of only 300 tons burthen; then he and others were compelled to ship goods to Wilmington in order to fill her up, and on the return voyage had to do the same thing in Wilmington in order to bring her home without a dead loss. The line soon grew into favor, and soon larger vessels had to be procured. The business has gone on increasing, and one of the results was the building of the D. J. Foley, decidedly, in every respect, one of the finest steamers on the Atlantic coast, a credit not only to her builders, but to Baltimore. He also predicted that the day was not far distant when there would be an almost daily line between Baltimore and Wilmington. The Foley left Baltimore on Saturday evening last, at 5 o'clock, and arrived at her wharf here yesterday morning, about 10 o'clock. She is under command of Capt. D. J. Price, formerly of the Lucille, than whom a better seaman seldom trod a quarter deck. The keel of another steamer for this line has just been laid, which will be built under the supervision of Capt. J. S. Oliver, and will probably be ready in April. Capt. Oliver informs us that the new ship will be considerably larger than the Foley, her length to be 180 feet. We wish this enterprising line every success.

Young Men's Christian Association. At a special meeting of this society held last evening in their new and elegant Hall in the Evans block, Princess street., Rev. J. C. Hiden delivered a chaste, beautiful and appropriate address on the character and purposes of the organization. The association, said the reverend speaker, is a liberalizer of creeds, an adjunct and handmaiden of the Church, a place of resort for young men, innocent, pleasant and serviceable in social, intellectual and moral cul ture. It should receive broad and gener

ous encouragement. He was gratified at the happy start made. Quite a large number of ladies and gentlemen were present who appeared to enjoy the evening in listening to the address, to the sweet strains of the organ, and in examining the paintings, books and newspa-

Accused of Deserting His Wife. In our paper a few days ago we stated that one Robert Walker, colored, had deserted his child, the mother having first deserted both him and her infant, and that he then placed it in the care of a colored woman, promising to pay all expenses, but that he disappeared from the city, while the child soon after sickened and died and was buried in the pauper's burying ground. The Board met in adjourned session yesterday and proceeded to ballot for Sheriff. On the third ballot A. R. Black, Esq., received three votes, which was a majority of all the votes cast. Mr. Black was then declared duly elected and appointed Sheriff of New Hanover county and allowed until Wednesday, the 16th inst., at 11 A. M. (today), to file his bond and qualify according

It was ordered that a committee of two be appointed to regulate and fill all vacancies which may occur among the registrars and poll-holders for the ensuing election. Commissioners Shoemaker and Lowrey were appointed said committee.

It was ordered that the polling place in the Third Ward be changed from Gerkin's store to the Giblem Lodge lot, corner of Eighth and Princess streets.

Perry M. Rice, appointed register for the Fourth Ward, was excused from serving, owing to his removal from the city, and John C. Morris was appointed to serve in his place.

Death of an Old Citizen.

We regret to announce the death, by appoplexy, of Mr. T. W. Brown, one of our oldest and most highly respected citizens, which occurred last night about half past 10 o'clock. Mr. Brown, we learn, was nearly 70 years of age; but up to the time he was attacked with the disease which terminated his existence, which was on Monday night, he had presented the appearance of robust health, while his bodily strength and mental activity seemed to be unimpaired. He was born in the State of New York, but removed to this city when about 17 or 18 years of age, since which time he has been

a constant resident and enjoyed the full confidence and esteem of the community,

Harris, Esq., were elected respectively President and Secretary of the Central Agricultural Society at Henderson, at the regular meeting last week during the Fair. - There was a mass meeting at Union Court, on Thursday, says the Southern Home, addressed by Gov. Vance and Hon. Thos. S. Ashe. The county is all right politically and we did not hear of a ingle straightout in it.

- Judge Shipp, says a Raleigh corespondent of the Norfolk Journal, wrote the powerful appeal signed "Many Demo-crats" in behalf of Hon. Josiah Turner, Jr. We think it ought to meet with a generous response at the hands of a grateful people. - The Synod of North Carolina which has been in session in Charlotte the past week, after a most pleasant and harnonious session, wherein a large amount of ousiness was transacted, adjourned last Saturday afternoon. The attendance was unusually large, between one and two hundred members present.

- The following is a floating item: Forty-eight colored young girls and boys from different points in North Carolina, eighteen being from Greensboro, the point where they were shipped, have arrived at Hampton, Va., to attend the colored National School, where they will be fitted for teachers gratuitously. - The Charlotte Democrat says:

The next Legislature should take some acion towards compelling sheriffs to collect poll taxes from black men as well as white men. The sheriffs have grossly neglected their duty in this respect. No man black or white should be allowed to vote who has not paid a poll tax. That's the rule in Georgia, and why not adopt it in North Carolina.

- Dr. F. N. Lucky, of Rowan, visited Charlotte on the 4th inst., to get money. He got off the train at Mooresville, in fredell, and was followed by four mounted men, who, about nightfall, demanded his money. He entered into a parley with them and watching his chance put spurs to his horse and escaped. So says the Southern Home

PURGATIVE PILLS have become a settled necessity with the American people. Indeed, cathartics al-ways have been and always must be used, in some form, by all mankind. In this country the pilular form of administration has been growing in favor ever since pills were first made of Aloes and Rhu-barb, rolled into a ball. Their high position in the public confidence has finally been secured and fast-ened into permanency by Ayer's Cathartic Pills, the most skillful combination of medicine for the dis-eases they are intended to cure, that science can de-vise or art produce. Those who need pills, no longvise or art produce. Those who need pills, no long-er hesitate what pills to take if they can get AYER'S PILLS.-Wheeling Va. Press.
