SOUTH CAROLINA ELECTION.

The news we get by telegraph from South Carolina is not very definite. Still enough is known to make the success of ex-Gov. Perry, Democratic candidate for Congress in the 4th district, highly probable.

The Radical majority in this district in 1870 was 3,304. The election of Hon. B. F. Perry would, then, be a magnificent Democratic Liberal victory. We hope full returns will make the election of this able gentleman certain.

The Moses or regular Radical State ticket is no doubt elected, and a majority in the Legislature of the same faction chosen. There seems no good thing politically in store for the land of the Palmetto.

THE OPERA HOUSE. The New Ball Room-Israelitish Ball this Evening-Improvements to the Opera House.

The new ball room at the Opera House, which has just been completed, will be opened this evening, the occasion being the giving of a grand subscription ball by the

Israelites of this city, which is expected to be one of the most magnificent that has ever been given here. The ball room itself is as unique as it is convenient and appropriate for the purpose. A moveable floor, connecting with the stage, has been con-

structed, which can be taken up and replaced at will. This covers the entire parquette, or extending to a distance of five seats from the front entrance to the room. This was in position last night, the room brilliantly lighted, the scenery in the rear of the stage properly arranged, and

we were given a very fair idea of how the room will appear when the ball comes off. It will undoubtedly prove one of the most elegant and convenient ball rooms in the State and when no theatrical companies are here will probably be in great demand.

The Opera House proper has undergone Brown will take place to-morrow (Friday) extensive improvements. It has been furnished with new and beautiful scenery, the dress circle has been elegantly carpeted and upholstered, added to which a neat and cozy reception room has regular services in that church will be rebeen fitted up and handsomely furnished, which is intended to be used by

the ladies while a ball is in progress, and by gentlemen during theatrical performances.

This is located on the left of the passage at will prove a source of great convenience. The many improvements which are noticeable must be seen to be appreciated and the

public will soon have an opportunity to judge for themselves. The Lessee and Manager deserve encouragement for their efforts to give our citizens a first-class place of amusement, second to none in the South

outside of Baltimore or New Orleans, and

NEW ADVERTISEMENTS. PRESIDENT-Notice. W. F. WENZEL-Wanted

County Commissioners.

An adjourned meeting of the Board was held yesterday morning.

The meeting having been called to order, Archibald R. Black tendered his resignation as a member of the Board of County Commissioners, which was accepted; and also his office of County Examiner, which was accepted.

Archibald R. Black, having been elected and appointed Sheriff of New Hanover County, tendered his bonds as required by law, to wit: A bond for the sum of \$15,000, conditioned for the faithful collection and payment of the public or State tax; a bond for the same amount, conditioned for the faithful collection and payment of the county tax; and a bond for the sum of \$5,000, conditioned for the faithful discharge of his duties as Sheriff, and the service and return of processes, &c., all of which bonds were duly executed and acknowledged by the said A. R. Black, and by Porter, John McRae, Patrick Murphy, Alexander Sprunt, Sol. Bear and John C. Heyer, as sureties to the same.

The bonds were approved and accepted the Board, and ordered to be registered, whereupon the oaths prescribed by law were duly administered, and A. R. Black was declared Sheriff of New Hanover unty until the first Monday of September.

On m. tion, the Board proceeded to fil he vacancy in the Board occasioned by the resignation of A. R. Black, when, on the first hallot, Law. on E. Hice was duly elected County Computationer to fill said va uncy, and it was ordered that the Clork in orm Mr. Rice of his election. II. E. Scott, Superintendent of the County our House, was granted leave of absence. The Board adjourned to meet on Monthe 28th inst.

about two weeks. Severe Accident.

of Charles Baker, happening to be close at Mr. Thomas Morrison, of this city, met hand at the time, hastened to the rescue of with a severe accident yesterday morning, the little fellow. Upon reaching the point about 10 o'clock, at the shops of the Wilmington, Columbia and Augusta Railroad. At the time of the accident he was engaged in what is known as the "round house" putting a smoke stack on an engine. He was standing on the steam chest of the engine, busily at work, when the smoke stack suddenly broke from the fastenings which secured it in position, knocking him from the steam chest to the ground and falling upon him. The weight was immediately lifted from his body, but for some minutes it was the general impression of those who had come to his assistance that he was dead. He finally revived, however, sufficiently to reach home, a physician having in the meantime been summoned to examine into his injuries. These were found to be very severe, and consist of an ugly gash over the left eye, both wrists cut so badly as to render his arms temporarily use-

less, while his back is very painful from the Fear. crushing weight which fell upon it. It is hoped, however, that his wounds are not serious and that he will soon be out again. An employee in the shops who was helping him at the time also received some painful cuts about the face and head, but his injuries

were not of such a character as to prevent him from attending to his business.

Cotton to Europe. A new feature in the cotton trade has de-

veloped itself in this city. Formerly all the cotton passing through the hands of our merchants found a lodgment in some Northern port, when a great deal of it was shipped to Europe, but here recently many have adopted the wise course of shipping the staple direct to Liverpool themselves, thus realizing the profits which were before divided with the Northern shippers. Of course cotton shipments from this port

to Europe cannot at present be made to any great extent, as only a few of the larger vessels will receive it; but every opportunity for so doing is made use of and we hope the day is not far distant when all the cotton, like the most of our naval stores, will

be enabled to find direct shipment to the manufacturers of Europe. Among the late shipments we notice that the Barquentine Leonora, which was cleared for Liverpool by Messrs. Vick & Mebane on the 12th. took out 294 bales, and Messrs. Williams & Murchison are about shipping a quantity to the same place by one of the foreign vessels now in port.

Jottings Journalistic, The Savannah Daily Advertiser appears in an enlarged form and in a complete new

from which the boy had fallen Mr. Baker found that he could not reach him even if he had been on the surface, which was not the case, as he had sunk probably for the second or third time and was then not visible. Without a moment's hesitation, after discovering the state of the case, Mr. Baker threw his hat off and plunged head-foremost into the river, coming to the surface in a few moments afterwards with the little fellow in his arms, when, with the assistance of other persons who had arrived at the scene of the accident, he was landed safely on terra firma, wet, cold and somewhat exhausted, but otherwise none the worse for his involuntary bath. Mr. Baker deserves much credit for the promptness and heroism displayed by him on the occasion, but for which no doubt another victim would have been added to the many who have lost their lives by drowning in the treacherous waters of the Cape PUBLIC SPEAKING. Masks and Faces.-Ladies who mask their faces and necks with enamels endanger their health to no purpose. The plaster work deceives nobody. There is but one article known which will restore a blemiahed complexion or create external brilliancy and bloom where they have never heretofore exist-ed, and that article is HAGAN'S MAGNOLIA BALM. It ed, and that article is HAGAN'S MAGNOLIA BALM. It performs this tollet miracle by infusing vitality into the skin. The floral and herbal juices of which it is composed gently stimulate the circulation in the minute blood vessels, and brace the network of nerves through which they pass. Thus quickened and strengthened the external covering soon ac-quires a fresh and healthful hue, and every trace of sellowmens disappears. The palest observed the duries a freen and heartain may and every face sallowness disappears.
