GEORGIA ADDRESS

RINGING APPEAL.

To the Democratic Party in Georgia: The conflict is over. The battle has been fought, and we have achieved a brilliant, a decisive victory. All honor to those who have so " nobly dared and done," but they must not rest on their arms, nor lean on their swords, until the enemy, now defeated, is routed and his forces destroyed. Linger not among the spoils on the battle field to recount your struggles or chant your passus of victory-but crose up your ranks, push on the column and prevent him from rallying to save his broken fortunes .-Your victory will not be complete if by indifference or over-confidence you suffer him again to make a decisive stand. Cease not your efforts-weary not in your duties-stop not your pursuit until his flying hosts beg for quarter and give up the conflict. The struggle through which we passed has been for Georgia alone; you must now unite your forces with the grand sword or furl the banner until the one is wreathed with garlands of victory

the White House in Washington. To the Liberal Republicans who have aided us so gallantly in the struggle, we acknowledge with gratitude their valuable services, and with their aid in the coming conflict we will overthrow the party in power, whose corruptious they have denounced and whose usurpations they have

so fearlessly exposed. To the Executive Committeemen in the districts, I would urge increased activity. See to it that your Congressional districts are organized and canvassed, for our Congressmen can be triumphantly elected.

To the sub-electors, whose services our committee so gratefully recognize, I can only say, persevere in your good work, perfect your organization, rally your county forces, and let each and all of us determine to stay not our hands until we have reclaimed the saered temple, and instituted anew the pure worship of the builders around the holy altars of constitutional lib-

On, then, good men, true men, to duty, and in November next we will plant our banners upon the walls of the nation's capital and "sing again our temple songs in reclaimed Jeru-

The officers of the railroad running through the property have the good sense to run early and late trains, at low rates of fare, especially to suit-the laborer. Fresh air, good water, and yards for the children to play in, form a sharp contrast to the crowded courts and alleys, the squalor and foulness of the great city. The expense of living in Lord Shaftesbury's village is no greater than in London, while access to work is even more convenient.

HEINSBERGER-New Books Just Out. Pomeroy Suedair Operatic Troupe. This talented troupe will open at the Opera House in this city this evening. The Raleigh Sentinel, in speaking of the perfor-

mance in that city on Friday night, says: "Seldom has this city been visited by a troupe of the high order of merit which this one possesses. Their entertainment Thursday evening, at Metropolitan Hall, gave a high degree of satisfaction, and it was thoroughly appreciative. Rebecchini violin solos, the violin duets of the young Cornu brothers, Eckerts French horn solo and Lugi Suedair clarionet solo, were perormances evidencing a high standard of excellence. In fact, all these performers

are artists and the music which they rendered was of a rare order. As a cantatrice, Miss Viola Pomeroy, enoys a deservedly high reputation. Her roice has a richness and volume rarely excelled, and cultivation has placed it well under control. Combined with this gift of musical genius, Miss Pomeroy possesses great personal attractiveness, and upon the stage presents a queenly appearance. The sudience, on the evening above mentioned, was enthused by her performances and greeted her with round after round of applause. Melody seems to flow from her

ips without an effort.' In addition to the above complimentary notice, we have a letter from Dr. Blacknall, of the Yarborough House, who says: "All who have heard them here feel no hesitancy in saving that no such combination of musical talent has ever visited the State, and to hear them is a treat only to be enjoyed by a visit to New York; and to me the idea of army of Reform and Conciliation their making a tour through our towns that are marching toward the nation's looks like a school of whales leaving the capital; determined not to sheathe the | deep waters of the Atlantic to find a healthy Summer retreat up old Tar River.'

Two of the three seamen who escaped from the German Barque Claudia on Thursday night last, while lying at anchor near the Bar awaiting an opportunity to go to sea, were captured by the authorities of Brunswick county; but, while taking them to Smithville to place them in confinement to await the requisition of Captain Dinse, one of them succeeded in making his escape. The other one was safely housed and subsequently delivered to the Captain of the ship. Capt. Dinse returned to the city yesterday to procure additional hands to enable him to prosecute his voyage.

Two seamen employed on the German Barquentine Charles, lying at the wharf of Messrs. Cornand had a suspicion that the men intended to desert, and as a preventive he had all their clothing removed from the forecastle to the cabin. During the Captain's absence, however, they demanded their clothing, accompanying the demand with such threats of violence that the articles were given up by

SYMPTOMS OF CATABRIL. Dull, heavy headache, obstruction of nasal passages, discharge falling into throat, sometimes profuse, watery, acrid, thick and tenacious macus, purnlent, muco-parulent, bloody, putrid, offensive, etc. In others a dryness, dry, watery, weak or inflamed eyes, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, constant deaire to clear nose and throat, voice altered, nasal twang, offensive breath, impaired smell and taste, dizziness, mental depression, tickling cough, idiocy and insanity.

All the above symptoms are common to the disease in some of its stages or complications, yet thousands of cases annually terminate in consumption, and end in the grave without ever manifesting out-third of the above symptoms.

No disease is more common or less understood by physicians. The proprietor of Dr. Sage's Catarrh Remedy will pay \$500 reward for a case of Catarrh which he cannot care. Sold by druggists.

The Justice of the Verdict rendered by the public years ago in favor of the Mexican Mustania Lania and must be apparent to all who have used that famous preparation or seen it used. Its healing inducate is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, and that in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember, it is not increiv a palliative but an eradicant of disease.

Times, March 3. We were too fast last week in our item on the conflict between Dr. Ayer and the wild geese. The Doctor's science beat their instinct this time. Not for ears have we had such a snow-storm as that of las sunday. The snow lies three feet deep on a level in Minnesota and two feet in Wisconsin, while the storm has swept from the Atlantic to the Rocky Mountains. Snow fell to various depths as far south as Denver, Fort Union and Santa Fe. Learned as

ved Dr. Ayer in the arcana of nature, and wonderful as we know his medicines to be, we were not prepared for so signal an instance of his supe-riority, not only over the wise men, but the wisest animals whose instinct is considered unfailing, We drive up the peg, more firmly than ever, over our hearth for Ayer's American Almanac.—Cedar Rap-ids Times, March 10. oct 17-eodiw Th Sa Tu
