HIGH-HANDED TYRANNY IN GEORGIA.

The American Sylla is at work in Georgia. From an account we publish this morning from the Macon Telegraph and Messenger it will be seen that the work of proscription, hate and high-handed despotism has been inaugurated in that gallant stronghold of Democracy. On the affidavits of irresponsible negroes more than thirty of the citizens of Macon, Irwinton, Toombsboro and other places in that State have either been arrested or warrants have been issued to United States marshals for their arrest.

They are charged with intimidation of voters. Who makes the charge? Who shall say they have been intimidated? Only the testimony of bitter, partisan irresponsible colored men, doubtless bribed to testify by the minions of Grant, is adduced Who is to try these alleged offences: The despot's commissioners. Who shall say under this showing of facts that a man of them will get justice?

It is the beginning of the second act in the drama of American despotism. The first was an insult to the people; the last will be a deep and lasting injury, unless the people rise and resent their wrongs ere it be too late to redress them.

Citizens dragged from their homes and tried before tribunals unknown to the Constitution, the existence of which is flagrantly violative of the fundamental principles that underlie all'free government! Just think of the enormity of the act. Just see how rapidly we are sinking into stark, unrelieved, sombre and degrading despotism.

Such tyranny as this ought to give the State of Georgia to Greeley and Brown by seconty-five thousand majority. Georgians, we feel, will not be terrified by all the menaces and deeds of the American Gesar. Let them thunder at him fifth of Novema tremendone note at defiance, and let the indignant voice of popular rebuke teach him that the free spirit of American citizenhood is yet capable of asserting itself after the manner of the old time

"If the Democrats are true to the great cause of popular rights, which is now imperilled, and faithful to the traditions which once made us honored and respected among nations, a glorious triumph will crown their efforts. There is no such word as fail in the vocabulary of those who deserve success, and strive to achieve it by patriotic exertion. Whoever withholds his support from Mr. Greeley, or stands aloof in sullen indifference contributes not only to the election of General Grant, but to the perpetuation of the policy of Hate, Agitation, and Strife, which have signalized the conduct of the present Administration, and will make its name as odious in history, as it has been oppressive in experience."- Washington Patriot.

"The commitment of Mr. George A. Heinrich without bail was a most unwarrantable exercise of authority. It was an insult to our German fellowcitizens, who are noted for their lawabiding character, and who are not to be frightened by the threats of Grant's agents from supporting the candidates of their choice."-N. Y. Sun.

The great battle has not yet been fought. The Democrats and Liberals do not scare worth a cent. They understand quite well what the late elections mean and intend to contest every inch of ground."—Louisville Courier-Journal.

"From the West come words of good cheer. The Liberal ranks are closing up, and every preparation is being made for the final struggle which is so close at hand. One thing will be in our favor in the election which takes place on the 5th of November, and that is, the fight will be all along the line. The repeaters and the roughs of Baltimore, New York, and our other large cities, will be kept on home duty by the Administration party."—Titusville (Penn.) Courier.

"Manliness, patriotism, and duty to our Liberal allies, demand that we shall not falter now in the battle for right. It matters not that a corrupt majority was east against us at the State election. The enemy has exhausted himself in that struggle. His money is spent, his tricks are played, the frauds are laid open to day. Now let freemen assert their rights, unbribed by gain, unawed by power, and unswayed by the fear of defeat."-Harrisburg Patriot.

## TIMELY TOPICS.

The terrible malady among the horses is the absorbing theme at the North just now. It doesn't seem to be fatal in many cases, though thousands of horses are afflicted with it. We get the following from a Philadelphia paper relating to the symptoms, treatment, &c.: The premonitory symptoms are described to be dullness, a staring coat, watery discharges from the nose, speedily followed by a severe hacking cough, a hot mouth and quickened pulse the ears and legs unnaturally cold, and also labored and severe breatning in some cases. As the disease grows the nasal discharges become of a greenish-yellow color. The malady seems to be a sort of catarrh, and its cause is believed to be atmospheric, as it appears at the same time overlarge sections of country. Overwork or other debilitating influences are said, in frequent cases, to be the original cause of a severe attack, and it is believed that proper care and treatment will prevent fotal results. From Canada, where it has been for some time prevalent, and where they have learned to treat it with considerable success, we are told that the affected animal should be al lowed plenty of pure air and a liberal diet of nourishing and easily digested food, with carrots or apples to tempt the appetite. The stable should be well aired daily and thoroughly ventilated, whilst disinfectants should be used freely. If the throat is very sore, a mild embrocation should be used, and cooling medicines also given to allay the fever. So far as our intelligence goes, the disease is not within hundreds of miles of this city, but at the same time our people should be prepared to meet it judiciously should it come this way.

The Courier-Journal thus foots up Greeley's chances: Mr. Greeley will receive the electoral votes of the following States: Delaware, 3; Maryland, 8; Virginia, 11; North Carolina, 10; Georgia, 11; Alabama, 10; Mississippi. 8; Louisiana, 8; Texas, 8; Arkansas, 6; Missouri, 15; Tennessee, 12; Kentucky, 12; West Virginia, 5-making in all 131. Add to these New York, 85; New Jersey, 9; and Indiana, 15, and we have 190-six more than is necessary for an election. Connecticut will as certainly go for Greeley as any of the States enumerated, and New Hampshire and California can hardly be considered doubtful. It is be re-elected.

Stir up! Next week is the last before the election. Do all you can for Greeley, reform and liberty in that short time.

Since the Pain-Killer was first introduced and met with such unsurpassed sale, many liniments, reliefs, panaceas, and other remedies have been offered to the public, but not one of them has ever attained the truly enviable standing of the Pain-Killer.

WHY IS THIS SO?

It is because Davis' Pain-Killer is what it claims o be, a reliever of pain.

Its Merits are Unsurpassed! If you are suffering from internal pain, from twenty to thirty drops in a little water will almost instantly cure you. There is nothing to equal it. In a few moments it cures
