month of congestion of the brain, Captain John Summerfield Green, of the Mobile Register.

John Green was born in Newbern, N. C., in 1833; removed to Alabama in 1853; served with Walker in the ill-fated Nicaragua expedition; returning to Mobile, he entered the Register office, where he remained until the commencement of the war between the States, when, with thousands of other true men, he took service under the Stars and Bars. He served with credit through the war, returning with the rank of Captain in the 25th Alabama Regiment.

His illness was sudden, and terminated fatally in a few hours. He leaves a wife and two young children.

PROBABLE FATAL ACCIDENT.

A Colored Boy Run Over by a Train on a Trestle and Seriously Wound-

o'clock, as the train from the Fair Grounds was coming in loaded down with passengers, a small colored boy, by the name of Primus Swayne Geyer, was run over and probably fatally injured. He was attempting to cross the trestle over Smith's Creek in advance of the train, which was runing backward, when, just before he reached a position on the Western side where he could jump off the car passing over his right side and knee, inflicting severe wounds and finally jostling him off the trestle upon the rocks beneath. After the train passed a litter was improvised and the unfortunate boy was placed upon it by a number of men who conveyed him to the College of Physicians and Surhis parents reside on the corner of Front and Wooster streets, near the Messrs. A gentleman who arrived on the Northern train last evening, informs us that a burglar was shot and badly wounded in Weldon, yesterday morning, between midnight and day. It seems that the burglar, who is a white man, was attempting to enter the residence of a widow lady through a window, when the family became alarmed, and a young man, a relative of the lady, seized a gun and put a load of buck-shot in one of his arms. When our informant left Weldon, the wounded limb had been amputated by our friend Dr. Manning, of the News, and the sufferer was receiving proper attention at the Emry House. Names of the parties unknown, though the wounded man is said to have been concerned in a robbery at that place some time since.

THE FAIR.

Fourth Annual Fair of the Cape Fear Agricultural Association.

FOURTH DAY.

The weather yesterday was very propitious for the closing day of the Fair, the air being cool and bracing and hardly a cloud appraring to obscure the brightness which reigned supreme. The opportunity was embraced by the visitors present to enjoy themselves to the fullest extent, which they did by walking over the grounds and viewing the different objects of interest and in visiting Floral Hall, which, thanks to the energy and skill of the ladies, has undoubtedly been the most attractive feature of the

The side shows and other similar attractions on the grounds were in full blast during the day and from indications reaped a considerable harvest of greenbacks. The feat of walking on a wire suspended in the air in front of one of the tents, which was performed by a young female, attracted considerable attention.

On account of the prevailing epidemic among horses here and elsewhere little racing was done. The only thing in this line was a trotting race, half mile heat, between a bay mare and a cream-colored mare, owned by W. D. McMillan, Esq., each being 30 years old, which was won by the bay in 1:46; and a pacing race against time, (3 minutes) by Moore's mare Fanny, mile heat, which was made in 3:171.

Considerable amusement was created by a sack race and a wheelbarrow race, the premium being \$2 in each, which was participated in by a number of colored men and boys. Alonzo Perkins was the winner in the sack race and - Atkinson in the wheelbarrow race.

The crowning feature of the day was the balloon ascension, which took place about in the air, the daring æronaut, a mere youth, being seated on a trapeze bar suspended some ten or fifteen feet below the balloon. variously estimated, but it was the general supposition that the altitude reached did not fall far short of a mile. Having reached the highest point it seemed to remain almost stationary for a few moments, the æronaut in the meantime appearing like a mere speck beneath the monster balloon, when it floated gradually Southward and finally fell somewhere in the vicinity of Pine Forest Ceme-

The premiums were awarded by the various Committees during the day and a list will appear as soon as they are prepared

And thus closes the Fourth Annual Fair of the Cape Fear Agricultural Association. We cannot say that it has been equal in every respect to its predecessors, but we can say that there are evidences that a spirit has been awakened during its sessiona long dormant enthusiasm aroused-which will lead to a determination on the part of the Association and its friends to make the Fifth Annual Fair excel, in every particular, any previous exhibition that has taken place since its organization. To this end, let every friend of the Association, and the great objects it has in view, go to work at once, and come prepared next year to "astonish the natives."

Beath of Captain Baker.

The Raleigh papers announce the death from consumption of Capt. Geo. B. Baker, which occurred at the residence of his mother-in-law, Mrs. H. W. Miller, in Raleigh, on Thursday afternoon. Capt. Baker was well known in this city, where he was formerly connected with the Dispatch. He was a native of Fayetteville, and was aged about 35 years of age.

Game Fowls.

To the poultry fancier, one of the most attractive exhibitions at the Fair was the display of game fowls by Mr. J. G. Arrington, of Nash county. The Arrington game stock has a wide celebrity, and very justly, too; for we do not believe it can be surpassed in the world.

- The Howe Sewing Machine was awarded the highest premium (a silver medal) at the Fair of the Cape Fear Agricultural Association held during the present week. We are pleased to announce this to our friends and patrons and advise all who need a good sewing machine to call on the agent for this machine in our city and examine the various styles. This machine was awarded the highest premium at the State Fair at Raleigh, also at a number of fairs in Virginia and North Carolina. This being the oldest machine in the world, with all the late improvements, we feel no hesitation in recommending it. These machines are sold on easy payments, and free instructions

At a meeting of the Board of Directors of the Wilmington N. C. Life Insurance Com-pany, held on Tuesday, the 12th of Novem-ber, 1872, the death of President Robert H. Cowan having been announced, the following minutes were ordered to be placed on the records of the Company;
This Board cannot consent to adjourn

without making a permanent record of its estimate of the late President, so recently

removed from us.

1. It is not from any selfish reflection upon the magnitude of our loss as a Company, great as that is, that we mourn for him; our sorrow is of a higher character. We grieve for him as a most cherished personal friend and valued citizen.

Able, frank, true and generous, ever ready to lend a sympathicing tar to the distress of with

others and a helping hand to alleviate their pain; courageous and bold in supporting the right, and denouncing whatever savored of dishonor; eloquent in speech to a degree rarely equalled, he had attached to himself, by the strongest ties of both love and ad-miration, the great body of his fellow-

Not only so, but those winged words of eloquence which he was accustomed to utter in the Legislative Halls, have caused his fame to extend throughout his native State and made him to be as much admired abroad as at home.

2. We fondly hoped a life so valuable would be preserved to his family, his friends and his State; but, alas! this hope is fled. While separated from us during his protacted illness, our hearts have been with him in sympathy; and in his death we are cheered with the bright hope that he has now attained a higher place than earth can offerone eternal in the heavens. 3. To his deeply afflicted family we offer

our sincerest sympathy, and trust they, too, in their darkest grief, will be consoled by the remembrance that there is a pitying ear that never yet was closed to the sad mourner's cry.

Resolved, That a copy of this minute be furnished for publication in the several newspapers of this city, and also presented the family of our late President.

WILMINGTON MONEY MARKET.

RRECTED DAILY BY THE BANK OF NEW HANOVER I. B. GRAINGER, PRESIDENT.

A correspondent, writing from Athens, curiously contrasts the mixtures to be found there of ancient and modern civilizations. Railroads spin their trains amid the temples of three thousand years; steamers dash their swells upon the Pireus, and the scream of their whistles resounds from Athos, Pentelicus and Cytheron to Clympus and the heavens beyond their goods. Dr. Aver's world-renowned medicines, those consummations of modern science, are posted on the Acropolis, the Parthenon, the Areopagus and the Thesion, while the modest cards of Cherry Pectoral, Ayer's Sarsaparilla, Ague Cure and Pills look from the windows of the shops in the streets of Athens, where they are sold.—N. UDOLPHO WOLFE'S SCHIEDAN SCHNAPPS, AS A MEDICINE AND BEVERAGE.—As a general beverage, a necessary corrector of water rendered impure by vegetable deco position or other causes, as Limestone, Sulphate of Copper, etc., the Aromatic Schiedam Schnapps is superior to every other alcoholic preparation. Its purity and exemption from all grossly intoxicating properties, combined with its mildly stimulating and invigorating elements, establish it as the only alcoholic beverage in our country that can be imbibed with pleasure and safety. The nervous torpor and debility which follow the administrations of other alcoholic preparations and mixtures of the day, succeeded by their intense and painful nervous reactions, are unknown, as the subsequent effects of the Schiedam Schnapps, even when taken so freely, while as a Stomachic, a Tonic Appetiser, it stands pre-eminent among the established curatives of the day.

A public trial of twenty years' duration, in every section of our country, of the Schiedam Aromatic Schnapps; its unselicited endorsement by the medical faculty, and a sale unequalled by any other alcoholic distillation, have insured for it the reputation of purity and salubrity claimed for it by the proprietor on its original introduction to the public.

Triumphant for Twenty Years.-More Triumphant for Twenty Years.—More than twenty years ago the Mustang Liniment made its debut in the West. Its cures of the various external diseases of horses and cattle, astonished the planters and farmers of the Mississippi and Ohio Valleys, and a demand for it sprung up which necessitated its manufacture on an extensive sale. Soon the discovery was made that it was a grand specific for rheumatism, gout, neuralgia, earache, toothache, and other external ailments of mankind. Then it was tried as a healing, pain killing application, in cases of outward injury, such as cuts, bruises, burns, spasms, &c., and was found equally serviceable.—The fame of the new remedy for some of the most painful ills that afflict mankind and the lower animals, spread rapidly, and Mustang Liniment soon took rank in every State and Territory of the Union as a Standard Cure.

\$1,000 BEWARD is offered by the proprietor of Dr. Pierce's Golden Medical Discovery, for a medicine that will equal it in the cure of all severe cases of "Liver complaint" and all diseases arising from impurity of the blood, as Eruptions, Pimples, Boils, Blotches etc. lotches, etc. nov 12-1w Tu Th Sat
