NORTH CAROLINA BONDHOLD-

At a meeting of holders of our bonds residing in Baltimore, yesterday, it was resolved to memorialize our Legislature to get that body to take action for the liquidation of the bonds of the State. The plan submitted was as follows: Issue bonds payable in thirty years, with three per cent, interest for the first five years, four for the next, five for the next and six per cent. thereafter until maturity The bondholders in other places are requested to co-operate with this movement or adopt some other plan for bringing the subject before the Legislature of North Carolina.

We presume the subject will meet with attention early in the session. It is certainly a matter of vital in terest to the people of the State.

TRIBUTE OF RESPECT.

NOVEMBER 15TH, 1872. The Chamber of Commerce met to-day in special meeting to receive a report of the Committee appointed to draft resolutions relative to the death of Col. Robert H. Cowan. Mr. Alfred Martin, Chairman, made the following report, which was

unanimously adopted "Death loves a shining mark!"
Again the Great Leveler has invaded our commercial circle, and laid His relentless grasp upon one of our most distinguished members; one who, not only our own small circle, but the people of our whole loved commonwealth admired, loved and de-

lighted to honor. The personal friends and associates of Col. Rob't H. Cowan, and the public press, have left us little to say of his private character, public services and superior abilities. Yet we cannot permit one so greatly admired and so much loved to pass away from among us without spreading upon our minutes a record of our gratitude for his able, zealous and oft successful advocacy of all measures designed to advance the commercial interest of our community, our admiration of the character, both public and private, of our friend and companion. and our profound sense of the loss that we

have sustained by his death. Quick to perceive and to comprehend all things tending to the advancement of our commercial interests, he was ever their ready, able and vigorous advocate, as well before the public at large as in our Legislative halls, t

No man was ever more sincerely and earnestly devoted to the interests of his friends and the welfare and prosperity of his State and his native city, or sacrificed his means, his time and his talents to the advancement of great and important measures of public utility more freely and more cheerfully. Appeals in such behalf were never made in vain to him. In this, as in his social virtues, and in all things that go to make up the life of the good and great man, Col. Cowan has left us a noble example; therefore be it

Resolved, That by the death of Col. Rob't H. Cowan this Chamber has lost a wise counsellor, an able and influential advocate. and a zealous and faithful member. Resolved. That we will ever hold in grate-

ful remembrance his many valuable services as a member of this Chamber and a public representative of the interests of our com-

munity.

Resolved, That to his afflicted family we tender the assurance of our deep and earnest sympathy in their bereavement.

Resolved further, That a memorial page of

our journal be duly inscribed to our deceased friend as a token of our high appreciation of his valuable services, and our love and admiration of his many social virtues, his distinguished abilities, and his life-long devotion to the interest of this, his native city.

Be it further resolved, That a copy of these proceedings be furnished to the city papers for publication, and also to the family of the deceased.

The Howe Sewing Machine was award ed the highest premium (a silver medal) at the Fair of the Cape Fear Agricultural Association held during the present week. We are pleased to announce this to our friends and patrons and advise all who need a good sewing machine to call on the agent for this machine in our city and examine the various styles. This machine was awarded the highest premium at the State Fair at able fatal injuries by being run over on the Raleigh, also at a number of fairs in Virtrestle across Smith's Creek, on Friday ginia and North Carolina. This being the order of times of trouble. evening, by a train returning from the Fair oldest machine in the world, with all the Grounds, died at the College of Physicians late improvements, we feel no hesitation in and Surgeons yesterday morning at a recommending it. UDOLPHO WOLFE'S SCHIEDAM SCHNAPPS, AS A MEDICINE AND BEVERAGE.—As a general beverage, a necessary corrector of water rendered impure by vegetable decomposition or other causes, as Limestone, Sulphate of Copper, etc., the Aromatic Schiedam Schnapps is superior to every other alcoholic preparation. Its purity and exemption from all grossly intoxicating properties, combined with its mildly stimulating and invigorating elements, establish it as the only alcoholic beverage in our country that can be imbibed with pleasure and safety. The nervous torpor and debility which follow the administrations of other alcoholic preparations and mixtures of the day, succeeded by their intense and painful nervous reactions, are unknown, as the subsequent effects of the Schiedam Schnapps, even when taken so freely, while as a Stomachic, a Tonic Apperiser, it stands pre-eminent among the established curatives of the day.

A public trial of twenty years' duration, in every section of our country, of the Schiedam Aromatic Schnapps; its unsolicited endorsement by the medical faculty, and a sale unequalled by any other alcoholic distillation, have insured for it the reputation of purity and salubrity claimed for it by the proprietor on its original introduction to the public.

NEW ADVERTISEMENTS. BE ON THE SAFE SIDE. We hold health and life by a frail tenure, and no to protect them to the best of our ability would seem

to argue a deficiency of common sensa. The searching winds and cold rains of spring, the tropic heat of summer, the malarious vapors of autumn, and the paralyizing temperature of winter are all inimical to those finely adjusted and sensitive pieces of mechan ism we call our bodies. Each season has its pecu liar perils, and the fall is perhaps as prolific of dangerous disorders as any of them, for at this season fevers and bowel complaints are very apt to take an epidemic form. As a preventive of this class of diseases Hostetter's Stomach Bitters cannot be too warmly recommended. In it are combined five essential medical properties. It is a tonic at once pow erful and wholesome-s stimulant, pure and unde filed-an aperient, mild and painless-an anti-billous agent of marvelous efficacy, and a general regula ting medicine without an equal in the pharmacopeis. These five distinct properties, operating together in perfect harmony, produce a condition of the system somewhat analogous to that brought about by a course of pugilistic training. In other words, as judicious physical training hardens the flesh and renders it comparatively fire-proof, so does this marvelous invigorant increase the capability of the organs of the body to resist the more indirect and insiduous assaults of disease. It imparts new elasticity and strength to the vital machinery, and A LARGE LOT OF those who use it as a preventive of intermittent fever, dysentery, diarrhœa, dispepsia, rheumatism and other ailments common at this season, may walk fearless through an atmosphere impregnated with the morbid elements which give rise to those mala-
