In a Critical Coudition.

Officer Josh, Green, who was alluded to a few days since as having received a se vere blow over the head with a stick, inflicted while he was attempting to quell a disturbance in a store, a night or two previously, was out on duty Thursday night for the first time since receiving the injuries. The result proved that he had acted prematurely, as, while he was on his beat, his wounds commenced bleeding profusely, and he had to be assisted home by two of his fellow policemen, and at last accounts he was in a critical condition.

Brutal Conduct. Persons who have not been in the habit of driving oxen very naturally find some difficulty in managing them properly. In such cases drivers should exercise all the patience possible and not become unduly exasperated at what is probably due more to their own ignorance than to the obstinacy of the animal. These remarks are suggested by the fact that a driver of one of the city carts was noticed yesterday pummeling his poor ox unmercifully over the head with his shovel handle, because he did not perform his duty exactly to suit bim. Such cor is brutal in the extreme and should w the offender to arrest and punishment.

[TO BE CONTINUED.] Appeal to the Humane.

The undersigned begs leave to enlist the sympathies of all good people for the many bereaved and needy who suffered from the violence of the recent terrible gales in counties bordering on the Baltic. From the heartrending accounts which have reached us by cable, and which the reader has undoubtedly seen in the newspapers, vessels have been wrecked, islands have been inundated, sea towns have been destroyed, and a great number of lives lost, one entire island having been submerged and all the inhabitants drowned. It has become my duty, therefore, to make an earnest appea to the benevolently inclined, whether native or foreign born, for contributions toward relieving the immediate necessities of those who are the greater sufferers by this calamity. They are now on the verge of a long and severe winter and their sufferings must be terrible beyond expression, and cannot fail to touch the humane heart. Contributions will be received at the Danish Vice Consulate, Wilmington, N. C. They will be publicly acknowledged, thence forwarded to the Danish Legation at New York, and remitted by cable, and judiciously distributed by the Government among the most ne dy sufferers. Remember mercy.

R. E. Hanne,

Banish Vice Consul.

Twenty Years Younger .- To say that hundreds of maids, wives and widows look twenty years younger than they are in consequence of the gan's Magnolia Balm is simply to state an absc lute fact, which mi ht be promptly verified by di-rect testimony if ladies were as willing to tell their rect testimony if ladies were as willing to tell their ages as to use the best means of making themselves lovely. Nature sometimes, but very rarely, crowns the charms of perfect features with a complection of exquisite clearness, but even then time soon begins to make inroads upon the velvet cheek, the fair white brow, the ivory bust, the rounded arm. To preserve the "glory of woman" unblemished, even after the meridian of life has been passed, it is only necessary to use daily this cooling, healthful vegetable preparation.
