"NO CHANCE FOR POOL," So says our Raleigh correspondent. whose special telegram we publish this morning.

threatened disturbances.

This is fine news for the people of North Carolina.

Whether the people's favorite, Gov. Vance, be chosen or not, we will feel relieved at the defeat of the infamous traitor, Pool.

" No chance for Pool" means there is a chance for honesty and State pride-a chance for North Carolina

The tone of the Paris Republican journals is indignant and denunciatory. They insist that the monarchists have made a plot to overthrow the government of Thiers, and charge that Changarnier is privy to the plot. There is intense excitement throughout France and it is evident the crisis of the Republic has arrived. The latest move in the Committee on the President's Address is regarded as favorable to the Government. It was the carrying of a dilatory motion.

#### Civil Service Reform. By Telegraph to the Tribune.

WASHINGTON, Nov. 24, 1872. The announcement " on authority,' several days ago, that President Grant meant to stand by Civil Service Reform, and to enforce it upon each and evary occasion, and particularly that he would, in accordance with this determination, appoint Special Deputy Surveyor Benedict to succeed Surveyor Consul at the port of New York, is reported to have caused as much excitement among a certain class of New York politicians as his action in regard to the Philadelphia postoffice did in that city. News has come that a delegation of President Grant's New York supporters will shortly be in Washington to press some other candidate. A similar state of affairs exist in regard to the office of Surveyor at San Francisco, which will become vacant by the election of the incumbent to a seat in the

The Ole Bull Concert. Notwithstanding that the weather was anything but propitious, one of the largest most select and appreciative audiences of the season greeted the first appearance of the King of Violinists on our boards last evening. In consequence of unavoidable delay in getting their baggage from the depot to the Hall the Company were late in making their appearance, which naturally caused considerable manifestations of impatience on the part of the waiting audience, but when the performance commenced all signs of annoyance speedily gave place to exhibitions of the mos intense satisfaction. Such a musical treat as was vouchsafed our citizens last night has probably never been enjoyed by them before, and their appreciation was frequently and unmistakably displayed. The sweet strains of the violin, although produced by such a master hand, were almost rivalled by the charming soprano of the bewitching Miss Ridgway, while the rich baritone of Signor Ferranti and the exquisite melody of the piano, as produced by Mr. J. N. Pattison, served to make the en tertainment one long to be remembered by those who were so fortunate as to be presof Republicans are satisfied with the act;
