THE SENATORIAL SKEIN TO BE TINTANGLED.

By reference to our special telegram from Raleigh, received after 10 o'clock last night, it will be seen that the shameful statu quo of the past ser eral days on the Senatorial question is at last to be changed. The names of Vance and Merrimon have been withdrawn by their respective friends. Some one will be nominated and elected by our party to-morrow.

The noble conduct of Gov. Vance s much to be commended, and if we mistake not will add to his great popularity.

W. C. GREEN. - Notice.

Friday night, about half-past 8 o'clock, somethief entered the store of Mr. James Bagley, on Fourth between Harnett and Swann streets, and stole his money drawer, containing about \$10 in greenbacks and a number of valuable papers. Mr. Bagley, with a number of friends, was at the time in the rear room by the stove. He had a glass so arranged in the door leading into this room that he could usually observe any one who entered the store, but the thief managed to clude discovery. Mr. Bagley thought he heard some noise in the store and went to see what it meant, but seeing nothing amiss he was about to return to the room when he happened to dethief was evidently acquainted about the premises, but no clue has as yet been obtained by which the scamp can be identi-

In the meantime, and unperceived by Col. Klein, a locomotive switched on the track and came thundering by, and just as it reached the point opposite where the car and horses were standing the engineer blew his whistle and commenced letting off steam. The horses, frightened by the noise made by their iron namesake. darted off like a flash and ran with fright ful rapidity down the track, successfully rounded the curve at the corner of Rankin and McRae streets and continued in their mad career until they reached the vicinity of the stables. Chicken Stealing. There seems to be a perfect chicken stealing mania raging in that part of the city known as Brooklyn, and it is feared that the "disease," which is spreading with such frightful rapidity in that particular section, many cross over the railroad and extend its ravages into the part lying South of that thoroughfare. We hear of any number of "cases" in the locality first alluded to, and it is to be hoped that the police, who have not heretofore displayed any extraordinary zeal in the matter of arresting the spread of the "malady," may be brought to the determination to do their duty as valiant knights of the Clubs and Stars and rid the community of such a pestilence.

fact that Christmas is so near at had.

Deserving of Praise.

Among the draymen of this city who deserve especial mention in these times of exorbitant charges for hauling wood, etc. is a colored man by the name of Charles Meares, who, during the prevalence of the horse disease in Wilmington, has never charged more than 25 cents a load, the same price which he asked previous to the appearance of the epidemic. UDOLPHO WOLFE'S AROMATIC SCHIEDAM SCHNAPPS seem to be extensively gaining on public confidence, and promises to take the place of every other liquor now in use, especially for medicinal use.

This is not surprising; for, apart from its being found in most of our Drug Stores in this city and country, and its being strongly commended by the physicians, the mild and agreeable taste of this article, contrasted with the strong, pungent and actual sensation produced on the palate by the common deleterious article—which is now the general complaint of nearly all the medical faculty of this country—would, of itself, suffice to give it the decided preference. If prescribed as a medicine, it is not bad to take; and to use as a beverage it is considered by judges to be superior to any article of the kind ever imported into the country.

NEW ADVERTISEMENTS.

Humbug Dissected. Quaint old Burton has favored us with an "Anatomy of Melancholy," but who shall dissect the melancholy fallacies and fibs with which knaves and fanatics endeavor to delude the sick and feeble of this generation. Charlatans, through the newspaper ress, recommend to the strengthless victim of disease convulsing purgatives which, if taken, are sure to turn his debilitated system almost inside out, and sink him into the uttermost depths of helplessness and despondency! Fanatics, on the other hand, assure the prostrate patient that no medicine containing a diffusive stimulant ought to pass his lips. If he elects to be guided by the advice of impostors and lunatics, let him make his will and order his coffin; but if there is a spark of common sense in his composition, let him resort in his extremity to Hostetter's Stomach Bitters, the most potent of vegetable tonics and alteratives—the purest and most entirely wholesome of medicated stimulants. The wonderful cures of dyspepsia, biliousness, rheumatism, physical prostration and malarious fevers which this rare specific has effected during the last twenty-two years, are the most conclusive answers that can be given to the enemies of mankind who offer volcanic cathartics as tonics, and to the mistaken beings who would refuse a medicinal stimulant to a poor, broken lown invalid, who is literally dying by inches for the want of judicious stimulation. Temperance, proper-ly understood, countenances no such folly as this. The State laws enacted to put down the abhorrent vice of drunkenness, provide for the sale of brandy, whiskey and other liquors as medicines; and if these adulterated liquors of trade are accepted by temperance legislators as remedies, what ought to be the general verdict of the temperance public as regards he peerless vegetable tonic based upon a stimulant dec 1-1w SuWed Fri
