LATEST FROM BALEIGH.

Our latest special telegrams from Raleigh inform us that the Conserv vative caucus which assembled yesterday afternoon failed to make a nomination for the Senate and adjourned until to-day. Gen. Alfred M. Scales received the highest vote, and it is prohable he will be the Conservative nominee, though it is difficult now to determine what a day may bring forth in Raleigh politics. Should that distinguished gentleman

receive the nomination, nowever, are confident it will give general satisfaction to the Conservatives of the State.

- Rev. G. D. Bernheim, of the Lutheran Church, preached at the Rooms of the Young Men's Christian Association on Sunday afternoon last.

- A colored woman left her infant with her husband on Saturday night while she went to atttend a watch-meeting, and upon returning home Sunday morning found that her child was dead.

- We were glad to see that Mr. J. B. Orrell, who was so painfully injured by being run over by a dray a few days since, was able to be out yesterday morning, though his back still hurts him considera-

bly. - Mr. George N. Harriss, formerly Comnercial Reporter of the STAR, took his departure for Goldsboro' yesterday morning, where he proposes to engage in the sewing machine business. We wish him the most abundant success.

- Rev. Dr. Moran was to leave the city for Conference yesterday and expects to return and, if possible, to bring with him Bishop Paine or Rev. Dr. Deems to fill the pulpit of the Front Street M. E. Church on the third Sabbath of the present month.

- We are pained to announce the death of Dr. H. H. Robinson, in Bladen county, a day or two since. Dr. Robinson had been a resident of this city for many years, and was closely identified with the agricultual and commercial interests of the Cape Fear region.

This is not surprising; for, apart from its being found in most of our Drug Stores in this eity and country, and its being strongly commended by the physicians, the mild and agreeable taste of this ar-ticle, contrasted with the strong, pungent and actual sensation produced on the palate by the common deleterious article—which is now the general com-plaint of nearly all the medical faculty of this coun-try—would, of itself, suffice to give it the decided preference. If prescribed as a medicine, it is not bad to take; and to use as a beverage it is considered by judges to be superior to any article of the kind ever imported into the country. Precipitated Down a Well-A Narrow Escape.

A little white boy, by the name of Garrell, aged about 11 years, living with Mr. W. P. Pope, in this county, made a narrow escape from death on Friday last. He was attempting to draw water from a well, there being a quantity of ice at the place where he was standing, when his feet suddenly slipped and the little fellow was precipitated headforemost down the well, a distance of twenty-five feet. Mr. Pope happened to be looking through the window at the time and witnessed the accident. He immediately ran to the assistance of the boy, being followed by others on the prem ises, one of whom went down into the well. and brought young Garrell up. Fortunately the water was not above his head and he was found standing on the bottom. His left arm was broken by the fall and he sus tained other slight injuries, but none of a serious character. Considering the depth of the well his escape from death was almost miraculous

The war extinguished a deal of capital, besides that invested in slaves. The negroes in their new relation did not harmonize in sentiment with the whites, and to their poverty was added stag-nation of business. Of late there had been an improvement, as denoted by increased business. He believed that Wilmington would derive a great advantage from the new order of things, for, said he, before the war the produce, they shipped to Northern markets; and in the Northern markets bought their plantation supplies. This trade, he said, now went to Wilmington merchants, who receive twice as much patron age as they did before the war, for all the producers sell their crops here and purchase their supplies. A medicine that has done more than all the prescriptions of the pharmacopæla to protect the human system against the bodily ills superinduced by unhealthy surroundings, is certainly worthy of universal confidence. It is mainly on account of its extraordinary preventive properties that Hostetter's Stomach Bitters is so exceedingly popular in localities subject to the visitation of miasmatic fevers and other diseases produced by empoisoned air. A family that has escaped sickness during a sickly, season in consequence of using the Bitters as a safeguard, is a living advertisement of the virtues of the prepara tion. The whole neighborhood realize the fact. "I couldn't have believed it," says one. "I scarcely 15 47 credited the advertisements; but one must believe what one sees," says another. "It is the very thing we need in this unwholesome section of country, remarks a third. And the result is that the instinct of self-defense, the first law of nature, induces three fourths of that commonity to obtain a supply of the great vegetable antidote before the next sickly sea son sets in. In winter, when the system requires extra vigor and elasticity to enable it to baffie the ef fects of damp and cold, the Bitters will be found particularly serviceable. Rheumatism will not be apt to 1 2 07 fasten upon muscles and nerves that have been braced up by this excellent invigorant and nervine; nor will the severities of the season, which have 8 73 such a disastrous effect on the pulmonary organs of the feeble and delicate, be likely to exercise the same untoward influence in cases where the stomach and the external surface of the body (which always sympathizes with the digestive organs) have been toned and stimulated by a course of the restorative. The fits of indigestion and irregularities of the bowels which proceed from sudden changes of weather may always be averted by a timely use of the Bitters. dec 8-1w Tu Th Sat Just Received. colored man charged with burning a cotton gin at Florence, some months since, and whose arrest in this city was alluded to in Saturday's paper, left for Florence yester-day afternoon with his prisoner. We are pleased to learn, as we do from the Chairman of the Committee of Lecture and Readings of the Young Men's Christi Association of this city, that he has seen the services of one of our clergymen for a lecture during the present month and those of Rev. Whiteford Smith, of South Caro-Winter Ink.

We have now on hand a full supply of News Ink for winter use. Cash or C. O. D. orders will have prompt attention.

A New Arrival. The British Barque Vick & Mebane, Capt. Roberts, from Cardiff, Wales, arrived here yesterday with a cargo of iron for the Wilmington and Weldon Railroad. She is intended to run regularly between this port and Liverpool, and will form one of the regular line of which Messrs. Vick & Mebane are the agents, she being, we believe, the sixth one. The V. & M. is a splendid vessel for the trade, and we welcome her

THE ALMANAC Publishers complain that their busi-ness is destroyed by Ayer's American Almanac. The people prefer it to any other, the Farmer's, Western, Southern, or the numerous local almanacs when they can get Ayer's. It supplies the best astronomical data, weather and jokes of them all, and above all medical advice which is invaluable for every family. It is supplied gratis by the druggists, and shoutd be preserved for constant reference and use. We are sure that no good housekeeper or grandmother goes willingly without one.—AnitSlaveryStandard, N.
