## THE LEGISLATURE.

On Monday the principal business in the Senate was the appointment of six gentlemen to meet ten on the part of the House and constitute a joint select committee on Constitutional Amendments, formed of equal numbers of both political parties; the introduction of a bill by Mr. Waring to establish an Insane Asylum for Chronic Cases at Charlotte; the passage of the House bill establishing the Governor's and Treasurer's salaries, with an amendment, making the former \$4,000 and the latter \$3,000.

The House concurred in the Senate's amendment to the bill regulating the salaries of Governor and Treasurer, and so the bill becomes a law. The sheriff's relief bill-allowing all sheriffs until April 1st to settle-was indefinitely postponed. The bill chartering the Wilmington & Planters Railroad Company passed, but on motion of Mr. Bennett was reconsidered and made the special order for

The Meeting To-Day.

All interested in the speedy completion of a Railroad from this city to Onslow county, skirting the seacoast, should not fail to attend the meeting at the Commercial Exchange this morning, at 11 o'clock, when the matter of consolidating the various projected lines will be taken into consideration. This is a matter of serious concern to our people and they should realize the important fact that now, if ever, is the time to act. The occasion is one that calls for all the enterprise for which the business men of Wilmington have always been noted, and we hope it will be displayed in a proper shape at the meeting to-day. A company is already on the eve of obtaining a charter from the Legislature for a road which will. if constructed, cut off our city from many of its former sources of supplies and our people must be prepared to counteract, as far as possible, what may otherwise in the end prove to be more detrimental to our interests than we can at present imagine. Let there be a large attendance at the meeting this morning and such a concert of action determined upon as will insure the

J. C. Mann, Organist and Librarian. W. A. Williams, R. W. Price, Stewards. The installation ceremonies will take place on St. John's Day.

Cotton Stealing.

Some unknown operator in the cotton business opened a bale on Mr. J. H. Neff's wharf, foot of Dock street, on Monday night, and abstracted a sufficient quantity to fill twenty good size bags, and carried it off. Two police officers were put on the track of the missing cotton yesterday morning and succeeded in tracing it to a wharf on North Water street near a cotton press.. Upon the arrival of the proprietor of the press he disclaimed any knowledge whatever of the cotton, it having been left there during his absence, and at his request it was taken to the City Hall to await further developments. No clue has been obtained to the perpetrator of the robbery.

Concord Chapter.

At the regular annual meeting of Concord Chapter No. 1, held Monday evening, the following officers were elected for the ensuing Masonic year: . C. M. VanOrsdell, M. E. H. P.; H. H. Munson, K.; A. G. Bates, T. The following were appointed: Geo. Patterson, Chaplain; J. C. Mann, Organist.

Merchants' Licenses.

In the House of Representatives on Monday, Mr. Richardson read a memorial from sundry merchants of this city, Raleigh, Charlotte, and other places in North Carolina, asking the Legislature to exempt them from paying the burdensome licenses, while they are required to list their merchandise as personal property. No action has yet been taken on the memorial, but it is supposed that it will receive favorable consideration.

Nearly Suffocated. The absence from his post of the night guard employed at the county jail, a few nights ago, came near resulting seriously to the prisoners. By some accident the gaslights all went out and the atmosphere of the cells became so impregnated with the gas that the prisoners could scarcely breathe. They became frightened and shouted so lustily that Jailor Nash was aroused from his slumbers. Being under the impression at the time that the prisoners were attempting to escape he secured the necessary assistance and proceeded to examine into the matter, when he discovered the cause of the demonstration on the part of his boarders. They made a narrow escape and the guard deserves the severest censure for his inattention.

Foul Chimneys. A foul chimney on Second, between Market and Dock streets, caught fire yesterday afternoon and continued to burn so long a time and to emit such a glaring flame and such a quantity of sparks, that some uneasiness was felt, notwithstanding everything was wet from the rain which had been falling during the day. The regular old-fashioned chimney-sweep is an institution much needed in this city. Chimneys should always be kept as free from soot as possible, otherwise they are danger-

Ladies who have not been favored by nature with this crowning charm of womanhood can readily and certainly increase the volume of their hair and impart to it a silken lustre by using Lyon's Kathairon as a daily dressing, while those whom Providence has blessed with a superabundance of this "glory" of the sex can preserve it, undiminished, in quantity and undiminished in beauty to the latest period of life. There is a germinating principle in the Kathairon which literally compels the hair to grow. An illustrated monthly journal, universally admitted to be the handsomest periodical in the world.

A representative and champion of American taste. NOT FOR SALE IN BOOK OR NEWS STORES HE ALDINE, WHILE ISSUED WITH ALL THE THE ALDINE, WHILE ISSUED WITH ALL THE regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature, and a collection of pictures, the rarest specimens of aristic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and heanty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any shape or number of volumes, for ten times its cost, and then there are the chromos besides!

Notwithstanding the increase in the price of subscription last fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year, proving that the American public appreciate, and will support, a sincers effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of the ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America. In addition THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest, avoiding such as have become familiar through photographs, or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' ininitable child-sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously-illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world, at a cost so trising, will command the subscriptions of thousands in every section of the ceuntry, but, as the usefulness and attractions of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance doubly sure" by the following unparalleled offer of

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive without additional charge a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled "The Village Belle" and "Crossing the Moor" are 14x30 inc es—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for \$30 per pair in the art stores. As it is the determination of the conductors to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers of a \$5 periodical, will mark an epoch in the history of art, and considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos see Nov. issue of THE ALDINE.)

THE LITERARY DEPARTMENT

will continue under the care of Mr. Richard Henry Stoddard, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic
