NOON REPORTS.

The Weather-Holiday Calls.

The Weather-Hollday Calls.

New York, Jan. 1.

The weather is bright, clear and cold this morning, but the streets are in good condition, the slush having frozen.

All stores and places of business are closed, everybody being intent upon enjoying the holiday in making calls.

A Newport special says that the schooner Louisa A, from Hayti for Boston, put in there last night with the loss of her deck load, and reports that on December 20th she saw an unknown ship, of a thousand tons, on fire; but no crew or boats could be seen. It is believed she was petroleum laden. It is believed she was petroleum laden.

By the falling of scaffolding at Liberty

several hundred feet into a pit. Eight were seriously injured.

The Times New Orleans dispatch says it is rumored that there will be an attempt to inaugurate the McEnery State officials on the 9th inst., and trouble is anticipated.

A. T. Stewart has presented \$1,000 to the fund for disabled firemen.

The last accident of the year was the explosion of a soda water fountain at May's factory, Rose street, last night. One man was injured, and the building badly damaged.

Fibel's furnishing store, Church street, was burned last night; loss, \$17,000.

The World says several of the sub-committee of the Louisiana delegation are still in this city, and are daily receiving assurances that the people of the North are beginning thoroughly to understand their cause and the situation of affairs in Louisiana. They pronounce several telegrams from New Orleans by way of Washington, which assert that the people of New Orleans and Louisiana have quietly acquiesced in the situation, as untrue.

leans and Louisiana have quietly acquiesced in the situation, as untrue.

The Tribune's Washington dispatch says: Some Louisiana Liberals are now in this city discussing the shortest way out of the political muddle in that State. They say matters have become so much mixed up that they can see no methodical remedy except in a sort of reconstruction. They propose that Congress shall pass a resolution declaring that a republican form of government no longer exists in Louisiana, and that it then proceed to order a new election.

The Sun to-day calls upon Congress to make a thorough investigation of the Louisiana case when it reassembles. The Sun refutes the assertion that it is useless to investigate the causes of the quarrel in Louisiana, and says this disposition to shrink from the discharge of a great duty, like that which has arisen in that State, is an alarming sign of the times. So that to say that a thorough discussion of this Louisiana business will do no good, is simply an excuse for neglecting a duty whose performance requires skill and nerve.

The Raging Ohio-Heavy Losses. CINCINNATI, Jan. 1.

The loss by ice to-day is estimated at 200,000. The chief loss is in coal barges LATER.-At half past 10 o'clock, the ice

in the river gorged and stopped running.

A few minutes past 11 o'clock it commenced to move slowly again, the 50th street ferry-boat was thrown on the Kentucky shore opposite the lower part of city, and about fifty barges have been crushed to pieces and scattered along the shore on both sides of the river below the city.

At Galesburg, Illinois, eight of the finest stores in Metropolican block have been de-stroyed—loss \$100,000. The Opera House was saved by demolishing adjoining houses.

OUR NIGHT REPORTS.

WASHINGTON.

The reception at the White House to-day fully equalled in the splendor of its details that of any former occasion. The ceremonies commenced with the reception of the diplomatic corps, which formality was executed by Secretary Fish. The ministers, resplendent in full court costume, and many of them accompanied by the ladies of their families, were headed by Blacque Bey, the dean of the corps, followed by Sir Edward Thornton, and all were presented in the order of their rank. There were also present, of the fereign legations, Baron Lederer, Austrian Minister; Col. Heyre, Peruvian Minister, and lady; Count Corti, Italian Minister; Senor Mariscal, Mexican Minister; Mr. Karl Vonschlozer, German Minister; Counsellor Berger, Bardlian Min-WASHINGTON, Jan. 1. Inauguration of the Governor and other State Officers—The Governor's Address on the Occasion, &c.

RALEIGH, Jan. 1.

Gov. Todd R Caldwell and other State officers were inaugurated to-day. Upon taking the oath, Gov. Caldwell said in sub-

In assuming this high and responsible office, believe me, I will make it a point of duty to take care of the interests of the people of North Carolins. I do not mean to act the part of a partisan in this office.—Of course, where I have patronage to bestow, other things equal, I shall give such patronage to my party friends, judiciously and in a manner consistent with the privileges of my office. I shall endeavor to discharge my duties to the best of my ability. When I cannot fill the office from my own party acceptably to myself, I then consider it my duty to select a good man from the opposite party, and I know every good and true Republican in the State of North Carolina will approve my determination in true Republican in the State of North Carolina will approve my determination in
this respect. I hope, however, that I will
be able to find in our own party intelligent,
well-educated and honest men enough to
fill these offices. I desire in conclusion to
tender to you, and through you to the people of North Carolina, my most sincere
thanks for the generous manner in which
you bestowed your suffrages upon me for
the highest office within the gift of the people, and to give assurance that in the diccharge of my duties I shall have an eye
single to the interests of my beloved State
and to all her citizens, without regard to and to all her citizens, without regard to party; and while I claim no immunity from just criticism, I bespeak in advance a fair hearing and honest judgment from the pub-

MISCELLANEOUS. Diamond Spectacles.

THESE SPECTACLES ARE MANUFACTURED from "minute crystal pebbles" melted together, and are called DIAMOND on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles. THESE SPECTACLES ARE MANUFACTURED
