gusta, February 2.

Fifty-seven cases of homicide, or more than one a week, 140 of suicide, 209 of sunstroke, 735 accidental deaths, and 206 bodies found floating in the rivers and harbor. The number of homicides exceeds that of the pre ceding year by 15, and the list of suicides is also large, incuding 32 more names than were on the record of 1871. The deaths from accidental causes have fallen off largely from the preceding year, but there has been no Westfield explosion or July riot. The bodies of 122 infants were found in the streets and rivers. Such is the ghastly record of New York city for 1872, as made up by The Tribune.

SUFFOLK HERALD.

We are in receipt of the first issue of the Suffolk (Va.) Herald, a very handsome weekly newspaper, of which Mr. T. E. Cropper is editor and proprietor. It is almost faultless in typography, and shows much taet and ability in its editorial and news departments.

NEW ORLEANS.

Difficulty is apprehended Monday in New Orleans when the new State officers are to be installed. The General in command of the Federal forces will have three or four thousand troops on hand. We hope the occasion will pass without bloodshed.

Hughes, who was found dead on the track of the Wilmington, Columbia and Augusta Railroad was published in this paper at the time, and the jury returned a verdict that deceased was murdered by some person or persons unknown. Mr. Hughes, it will be

remembered, was a wire tender in the employment of the Western Union Telegraph Company and resided in this place. It is hoped that the murderer will eventually be brought to justice.

A POLYGLOT BUSINESS.—The widespread influence of American skill and enterprise has outstripped the comprehension of the Americans themselves. The fabrics of our mills clothe the savages of both continents. They wrap the loins of Africa, and the tawny skins of South American pampas. But wider still are spread the products of our skill in medicines. A late visit to Dr. J. C. Ayer & Co.'s laboratory and office in Lowell showed us that the whole surface of the habitable globe pays its tribute there; there they cater to and serve the requirements of almost all nations. Their publications are in the many fongues that widely-severed people use. Their letters must be read from and written in many longues, for which there sits a long range of correspondents with the

The New Post-Office. A bill, introduced by Hon. A. M. Wad dell, is now pending in Congress, appropriating \$100,000 for the erection of a new post-office building in this city; and we hear that energetic efforts will be made to secure

its passage. The Government may well afford to abandon entirely the building now used for the public offices, selling it for a handsome sum, and erecting a new one for the use of the post-office, customs, and United States Court. If our Postmaster will visit Washington when Congress reassembles, we think he can aid Col. Waddell in securing the necessary appropriation.

- From the Raleigh News: Ed. Lane, Jr., an attache of the Yarborough barber shop, yesterday afternoon launched a snow-ball, compounded of snow, rock and mud, at another colored boy who was passing in front of the hotel. The missile took effect just where the jugular vein crosses the parotid gland, and laid the unfortunate youngster senseless for a short while. Policeman Mitchell, alsas Boots, came along and marched the snow-ballist before the Mayor, who, after reprimanding him on the heinousness of his offence, consigned him to the lock up for the space of two hours to "chew the cud of sweet and bitter fancies."

The North Carolinian thus:— Elizabeth City now contains a population of about four thousand. Two years ago it was less than fifteen hundred. Then we were without a paper, without a bank, without a good school, or hotel—in short everything looked blue and everythody was dispirited, discouraged and disheartened. To-day we have a thriving newspaper, two banks, the largest and best hotel in the State and four good schools, in addition to quite as many of the appliances and sur-roundings of comfort and progress as could be expected. This is but the beginning. There is now a more hopeful feeling among the people here—a genial and healthy pop-ular sentiment and a liberal spirit manifested by all far beyond what has yet exsted. All this is encouraging—is auspicious for the future.

— The Raleigh News thus tries the patience of its readers: There is a man in Alamance county who is 79 years old; has been married four times, all four of his wives are dead. He had eight daughters and one son, the son having died an infant. His eight daughters have been married, four of whom are living and four dead. His eight daughters gave birth to 73 children, forty of whom have married, and had nearly 400 children; of the 400 children, nearly all are young, but some have married, and raised some 50 children; several of whom have married and had about 15 children. Five of these have also married, and raised about 6 children. To sum up, this man had 4 wives, 8 daughters and 1 son; 78 grand-children, 50 great, great grand-children, 15 great, great, great grandchildren, and 6 great, great, great, great grand-children. the memory and heroism of our fallen comrades, to aid the families of our former brethren in arms who need assistance, and to try and preserve the trath and purity of history.

We are now specially engaged in the sacred duty of raising funds to assist Hollywood Memorial Association in removing the remains of our noble dead from Gettysburg and other points where they are neglected and mistreated, to Hollywood Cemetery near this city, where, through the untiring efforts of our ladies, an honorable resting place is provided, and an enduring monument erected to their memory; and where, protected and cared for, they can early receive the honor bestowed on our "Memorial Day," in decorating their graves with flowers. There are yet at Gettysburg the remains of near ONE THOUSAND BODIES; they are from nearly all the States; and when we say, in some instances, the heartless wretches of the vicinity where they fell and lie are ploughing their bones about as if they were dogs, it is enough to make the blood of decent humanity boil, and the pocket—of all who are not false to feeling—false to principle—false to a cause once dear—open to remove these heroes from such indignity and inhumanity.

Can't you spare a day or so to canvass specially for this purpose?

It is necessary to raise several thousand dollars to accomplish our purpose, but we not healtate to undertake it, as we cannot think Southern people will close their hearts and pockets to so sacred an appeal.

Remit all contributions to W. C. Carrington, care Piedmont and Arlington Life Insurance Company, Richmond, Va., he being Chairman of Committee.

Please act promptly; give as liberally as you can, but give something, and let us bring our brothers away from hostile hands and Northern soil.

OUR ORDER IS COMPOSED OF CONFEDERord during the war. Its objects are to perpetuate
the memory and heroism of our fallen comrades, to

and inhumanity.

Some of these men are from your State; some of them may have been your dear friends or your own kin; all of them lost their lives in your defence.

You professed to love them while living; you professed to love the man while living; you professed to love the man while living; you professed to love the man while living; you professed to love the cause for which they died. Shall their remains be dishonored when they lost their lives for you? Will you aid us to remove them to a safe and sacred spot, where the warm, noble hearts and gentle care of Virginia women can watch over them? Into whatever hands this appeal falls, we beg you to aid us in this cause, in which our whole soul is enlisted. Ask your friends to aid you. Do not hesitate because you cannot give much; remember, as drops make an ocean, so many small contributions will make a goodly sum.
