NOON REPORTS.

WASHINGTON. Miscellaneous.

WASHINGTON, Feb. 27. Louisiana affairs are becoming serious. Upon a resolution of the Fusion Legislature to reinstate certain courts in Orleans parish Gov. McEnery calls out the militia of the Gov. McEnery calls out the militia of the parish. No danger seems to be apprehended here or there, and up to this hour no Federal action has been taken. It was understood that the McEnery government should be allowed to organize so as to obtain status before the Courts, and was not to be interfered with, unless it attempted to seize the State government. It is thought here that the rubicon has been crossed and startling news may be expected.

here that the rubicon has been crossed and startling news may be expected.

The Senate has passed the Utah bill. It provides easy means of divorce, validates the claims of a plural wife to share the property of polygamists, and gives women the custody of their minor children. The panel from which juries are selected is summoned under the auspices of five commissioners, three appointed by the United States and two elected by the people, who will probably be Mormons.

The House will vote early to-day on the expulsion of Ames and Brooks.

Snow has again suspended travel in the far West.

CONGRESSIONAL

SENATE.—The calendar being the regular order, Carpenter moved to lay the calendar on the table for the purpose of taking up the bill reported from the Committee on Privileges and Elections, providing for new election in Louisiana. It is absolutely necessary, he said, that this should be acted upon in order to avert the bloodshed shown by the morning papers to be imminent in

Sherman and Morton also urged immediate action upon the bill and it was taken up. Hill offered a substitute, embodying his views, in favor of forming a Legislature out of the legally elected members of both of the bodies now claiming to be the Legislature of Louisiana, and authorizing the new Legis-lature so formed to count the returns of the last election and decree who are legally elect-

the Committee. The views of the Committee, he said, were fully set forth in the majority report, and as the bill had been submitted to persons representing all sides of the con-troversy, he supposed that if such a bill were to be passed at all, this one would be satisfactory in its details. He had just been handed by Mr. McMillan, claiming to be clected from Louisiana, a telegram addressed to himself, which was read at the desk as follows:

"New ORLEANS, Feb. 25.

"It is not true that the country parishes are rapidly acknowledging their allegiance to the Kellogg government. The people in the country, like the people in the cities, will never yield obedience to that government. It can never collect taxes and it can only be maintained by force. That force will have to be United States troops, stationed in every parish to enforce the authority of his government. His government can only be maintained by an actual conquest of the people, and not by the kind of force which the people would submit to rather than have miltis." The dispatch was signed by a large num-

ber of citizens. According to McMillan, they are leading men in the country parishes. Morton said it would be a vast national misfortune and a great misfortune to Lou-isiana, that this bill should pass. A small faction in that State having got up the the so-called McEnery government without a shadow of title under the laws, was now endeavoring to stir resistance. As to resistance to the true government—the Kellogg government—which must lead to strife and bloodshed, McEnery, a so-called Governor, without any authority whatever, was now doing all he could to destroy the efficiency of the defacto government, and doing this, as he (Morton) was advised, at the instigation of persons now in Washington. [To make good this charge, Morton read the several proclamations of McEnery, concluding with the one published this morning.] But McEnery and his friends were now getting into rather deep water. Upon attempting to carry out this proclamation, they would be mere riotors, and on refusing to disperse, they would be liable to be shot. Telegrams had been read from Gov. Kellogg showing what McEnery was doing and under what influence he was acting. In one telegram Kellogg says: "Gov. War-moth telegraphs, urging collision. I don't think the opposition can get strength enough; they are fast losing the confidence of the community." In another telegram, dated o the 20th, Kellogg says: "Gov. Warmoth has telegraphed McEnery as fol-

lows: 'If you are a government, do something to show it now. Action! Action! Action!" Trumbull.-I am authorized by Gov Warmoth to say that both of those dispatches, stating that such dispatches ever came from him, are utterly false.

Morton.-I have nothing to say upon that subject: I have read the dispatches as they have been sent here. Carpenter proceeded with an elaborate

Congressional.

WASHINGTON, Feb. 27. SENATE.-Carpenter was generally denunciatory and eloquent in his speech on the Louisians bill. He argued there was the courses to pursue to achieve the courses to pursue to achieve the courses to pursue the argued there was the course to pursue the argued there was the course to pursue the course to pursue the argued there was the course to pursue the argued there was the course to pursue the course to pursue the course to pursue the course the cou

the Louisiana bill. He argued there was one of two courses to pursue: to acknowledge McEnery or pass an election bill.

Thurman, who represented the Democrats, favored the recognition of McEnery as the only solution.

The speeches upon the subject indicated that, in the opinion of the orators, a republican form of government in Louisiana for the moment had fizzled. The indications are that the vote will be very close and that

the issue will be forced before the Senate

HOUSE.—The proceedings of this body to-day were quite sensational. The House met at 10 o'clock and discussed the expulsion resolutions till past noon. It then pro-ceeded to vote on a substitute offered by Sargent (of Cal.) for the resolutions, and this was carried by a majority of four. Sar-gent's resolutions absolutely condemning the conduct of Ames and Brooks were then adopted by a vote of five to one.

A third resolution (Sargent's) was to discharge the committee, and thus end the whole matter. That was defeated by a majority of twenty, and thus the whole subject was again thrown open. Speer (of Pa.) then offered a resolution censuring the conduct of Kelly, and that was discussed, amid great excitement, till

the hour for taking a recess.

If that resolution be adopted it will be followed by similar resolutions in regard to Dawes, Garfield, Bingham and Scofield. MISCELLANEOUS.

The bankrupt bill recently passed by Congress has been received in proper form by the President and submitted hy him, in accordance with the usual routine, to the Department of Justice for careful examination by the Attorney General. The approval of the President to the act is required on or before the 4th proximo to make the bill a law. In the meantime Judge Williams is carefully considering the entire bill, and the arguments which have been presented thereon, before sending to the Executive his official views of the measure. The principal opposition thereto comes from merchants and prominent business men of the sitles of Baltimore, Philadelphia and New York, to which is given the most earnest attention. The opinion of those who are more deeply interested than all others is that whatever the Attorney General reports will be concurred in by the President. The entire Congressional delegation from the State of Virginia are pressing for an approval of the bill. Butler says an extra session of Congress

is inevitable. Senator Bogy, from Missouri, is at Wil-Commodore Gillis is dead, aged 70.

MEDICAL

BALTIMORE LOCK HOSPITAL OR. JOHNSON,

DHYSICIAN OF THIS CELEBRATED INSTITUTION, discovered, when in the great hospitals
of Europe, viz; England, France and elsewhere, the
certain, speedy, pleasant and effectual remedy in the
world for all excesses or abuses of the system.
Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness,
Dyspepsia, Languor, Low Spirits, Confusion of
Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the
Head, Throat, Nose or Skin, Affections of the Liver,
Lungs, Stomach or Bowels—those terrible disorders
arising from solitary habits of youth—secret and
solitory practices more fatal to their victims than
the song of the syrens to the mariners of Ulysses,
blighting their most brilliant hopes or anticipations,
rendering marriages, &c., impossible, destroying
both body and mind.

YOUNG MEN Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which an-

nually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the the thunders of cloquence, or waked to ecstacy the living lyre, may call with full confidence. MARRIAGE.

Married persons, or young mea contemplating marriage, aware of Physical Weakness, Loss of Procreative Power (impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician. ORGANIC WEAKNESS

immediately cured and full vigor restored.

This distressing affection—which renders life miscrable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may enste. Now, who that understands this subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudential? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the physical and mental functions weakened, Loss of Procreative Power. Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE SPEEDILY WARRANTED.

Persons ruined in health by unlearned pretenders who keep them triffing month after month, taking poisonous and injurious compounds, should apply immediately. DR. JOHNSTON,

Member of the Royal College of Surgeons, London, graduate of one of the most eminent colleges in the United States, and the best part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad melanchely effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are toms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, couph and symptoms of Consumption.

YOUNG MEN

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE

Reflect that a sound mind and body are the most necessary requisites to promote commubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with

A CERTAIN DISEASE,

When the misguided and impredent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after menth, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment; or, by the use of that deadly poison, Mercury, cause the constitutional symptoms of this horrid disease to make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and 'limbs,' dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head and face, and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whose bourne no traveler returns,"

To such, therefore, Dr. Johnson offers the most certain, speedy, pleasant and effectual remedy in the world.

The many thousands cured at this establishment within the last twenty years, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the representatives of the Press and many others, notices of which have appeared again and again before the public, besides his standing as a man of honor and responsibility, is a sufficient guarantee to the afflicted.
