#### The Louisiana Troubles.

[From the Baltimore Sun of Saturday.] The troubles in New Orleans appear to have been brought to an abrupt termination. The attack made on the Kellogg police, which produced the intervention of Gen. Emory, is said to have been concocted by some of the hot-blooded young men of the city, and was executed on the spur of the moment. The statement made from New Orleans that it was not inspired by Gov. McEnery is corroborated by advices received by his friends in this city. Gov. Warm'oth, who left here seon after aft or the news arrived of the election of M'r. McMillan to the Senate by the McEnery Legislature, was not exnected to reach New Orleans before last night. The rumors connecting him with the move on the Kellogg fortifications are, therefore, without fou. idation. Collector Casey, of New Orleans, who is here, received this afternoon a dispatch from Mr. Beekwith, of New Orleans, as follows: "Everything quiet; Kellogg has abundantly demonstrated his ability to maintain himself without Federal aid. The police force proved themselves very efficient and masters of the situation. The strongholds are all taken. The McEnery Legislature dispersed. There will be no more trouble." ------

## Fremont and the French.

A rumor agitated government and diplomatic eircles to the effect that the French Minister had been directed by his government to demand of the U. S. Government the surrender of Gen. John C. Fremont, under the terms of the extradition treaty between the two countries. The treaty between France and the United States would seem to cover the

### A Dangerous Nuisance.

If the authorities have any regard for the health of the city, which we have no reason to doubt, they will immediately examine into the condition of several of the premises on the East side of North Water street. just north of where the fire occurred some months since. Our attention was called to the matter yesterday by a gentleman occupying one of the buildings. He tore up one of the planks of the floor and disclosed to us the fact that water was standing underneath the building to the depth of from one to three feet, and this water, which came from the engines and was mixed with molasses, liquors, &c., has been standing there ever since the fire. The smell arising from the stagnant mixture, especially at night, and when stirred by the accumula-

characters and influence have no doubt contributed largely to the flattering results that have attended the operations of the company; but a large share of the credit is also due to the zealous and undivided efforts of Mr. James D.' Brooks, the General State Agent, who has been connected with the company for the last twelve months, and who has shown his fitness and efficiency for his duties by the success which has marked his labors in its behalf. In concluding their report the Board of Directors say they congratulate the com-pany upon its sound and rapidly improving

condition, and that they trust every stockholder and every policyholder will feel he has a right, and that it is his interest and duty to commend the company to the confidence and patronage of the people of tion of fresh water in case of heavy rain, is North Carolina. said to be terrible. The Sneak-Thieves at Work. Some thief entered the room of Mr. R. H. Beery, residing on Fifth between Nun and Chestnut streets, on Saturday night last, and picked his pockets of \$20, his garments having been found on the floor outside of the room on Sunday morning. It seems that the back door had been accidentally left unfastened the evening previous. A watch and several other articles which the names of the parties arrested for the were lying about loose were not disturbed. A young gentleman occupying the same murdər. room with Mr. Beery was robbed fof the contents of his pockets, which, fortunately, was only about \$1 25 in money and a plug of tobacco. There was a light burning in the room at the time. No clue to

Cutting Affair. Yesterday morning, between 3 and 4 o'clock, a difficulty occurred at the shops of the Wilmington, Columbia and Augusta Railroad between two of the colored employees by the name of Virgil Nance and Geo. Wood, during which the former drew his pocket knife and cut the latter about the face, inflicting severe if not dangerous wounds. The parties slept together in a shanty car and had just got up when the difficulty originated. Virgil Nance was arrested by Sergeant John Nash and Officer Gordon, of the police force, and taken to

A young man by the name of Charles Price, who says he is a native of Halifax, Nova Scotia, fell in a faiting fit on the pavement at the corner of Third and Dock streets vesterday. We learn that he was attacked in a similar manner on Sunday. The necessary assistance was rendered the poor fellow and as soon as he revived sufficiently he was taken to the College of Physicians and Surgeons, where he received medical aid. Ashe is in feeble health and without money or friends in the city, the authorities were to furnish him transportation to Florence, S. C., last night, where he is said to have some relatives.

# In the Cotton Business.

Joshua Ivring, colored, was arrested yesterday morning on the charge of attempting to steal a lot of cotton from the warehouse of Mesars. Moffitt & Co., on North Water street. It appears that one of the employees of the firm had occasion to enter the warehouse about half-past 11 o'clock, when the individual alluded to was discovered in the act of packing the cotton in a bag. He was taken to the Guard House

and locked up to await a hearing before the Mayor's Court this morning. Joshua is said to be an old offender, he having but recently vacated a berth in the County Work House. 122221
