BUSINESS DONE AT THE PRESS CONVENTION.

In nearly all important particulars we fully approve of the action of the Convention of publishers and editors which met at Goldsboro' last week.

We print elsewhere the Constitution and By-Laws adopted by the members of the press present, and express the hope that nearly every newspaper publisher in the State will signify his approval of the same.

Among the more important business transacted was the passage of the following resolves:

"That this Convention disapprove of any discrimination in favor of any advertising agency, North or South, and that the press feel themselves in duty bound to charge published rates; to take effect on expiration of present running contract. And that all "special rates" of a lower grade be discontinued."

"WHEREAS, The prevalance of the credit system of subscriptions has been found to work serious loss so publishers who have adopted it, and whereas experience proves that the cash system is the only safe one, therefore be it resolved, that the cash system be adopted as far as possible, and adhered to as closely as possible."

"*Resolved*, That no member of this Association shall receive what is known as "Legal Advertisements" published under the laws of this State, except upon prepayment."

"That a committee of three be appointed to draft a bill requiring all legal advertisements to be published in the newspapers, and that the committee be requested to present the present the bill in person to the member of the Legislature and urge its adoption, after the bill shall have been approved by the Executive Committee of this Association."

Resolutions were also passed requesting the press to unite in favoring immigration, endorsing the National and State Centennials, and requesting our members in Congress to procure the repeal of the law making newspaper exchanges subject to postage.

While, as we stated above, we endorse the action of the Convention in nearly every particular, it would have been better if the resolution condemning notices inserted in the Local department had prevailed. We have heretofore urged this matter on the attention of the press through these columns. It was not convenient for us to be represented at Goldsboro, or we should have presented and enforced our views in the Convention. We hope this and one or two other matters of importance we do not now mention will meet with proper consideration at the next meeting of the Association.

The strike of the Raleigh operatives in the building trades, which culminated in the passage of a resolution, at a general meeting Monday night, demanding that ten hours should constitute a day's work, does not appear likely to succeed. There is some opposition in the ranks of the workingmen, and contractors will bring laborers from the North. No notice of a strike was given until Saturday.

The Railway Association in America.

At the meeting of this Association in New York, last Wednesday, Hon. Thos. Allen, President, announced that the total number of railroads represented by the Association was one hundred and eight, and that this network of roads was rapidly becoming more and more complicated, and uniformity in every branch of the management was essential.

The report of the committee on mails and postal cars rehearsed the Congress enactments and the circumstances of the recent controversy, but offered no suggestions. The President said that he had experienced great difficulty in obtaining the views of railroad men on this subject. It was generally thought that the pay had been insufficient. The Western companies, however, deemed it advisable to keep out of collisions with Congress or the postal authorities, as the traffic of mails was thought by them to be beneficial to the roads. They have taken what they could get.

Necessity for Creating New Cardinals.

There is a rumor in Rome that unless new cardinals are created any election of the new Pope made by the actual College of Cardinals will be contrary to ecclesiastical laws. The present number of cardinals is forty-five, and it ought to be at least seventy, and the twenty-fourth session of the Tridentine Council prescribes that the cardinals should be positively chosen in equal number from all nationalities. Of the forty-five cardinals thirty-three are Italians, five French, three Spaniards, two Austrian, one German, one Irish. The twenty-six millions of Italian Catholics are represented by more than half the number of cardinals, while the one hundred and eighty millions of Catholics have a number of representatives much less in proportion than the Italians.

Taxes for the Construction of Railroads Declared Unconstitutional.

The Supreme Court of Ohio has pronounced unconstitutional a law of that State empowering communities to levy taxes for the construction of railroads. The grounds of decision, which was unanimous, are that such taxation is not for public purposes, for which alone taxes can be constitutionally levied, and that the State Legislature is forbidden by the Constitution to authorize any community to engage in this way in private enterprises directly or indirectly. As the Constitutional Convention of Ohio is now in session it is probable that this matter will receive their attention.

Histrionic Entertainment.

The promised Histrionic Entertainment of Wilmington High School, to consist of declamation, dialogues, original orations, dramas and tragedies, will take place at the Opera House this evening, commencing at 7½ o'clock. Among the selections chosen for the occasion may be mentioned Payne's Tragedy of Brutus, David and Goliath, Columbus at the Court of Spain, Extract from Shakspeare's Tragedy of Richard III., Herbert and Prince Arthur, from King John, Balcony Serenade, etc. The preparations for the exhibition have been ample and the rehearsals thorough, and we have no doubt that the entertainment will be a very creditable one in every respect.

By the way, we noticed very fine portraitures of some of the leading performers, *en costume*, in the show window at Heinsberger's yesterday.

Our Southern Mail.

We have been unfortunate of late in getting off our Southern mail. Sometimes it has been due to our inability to get to press in time; but frequently it has been the fault of those who have the contract for carrying the mail. Without further complaint or explanation, however, we will say that we have now made arrangements by which we shall be able to do our part towards supplying our subscribers on the Southern road with promptness and regularity. They will oblige us by reporting any failures hereafter.

Masonic.

Deputy Grand Master T. M. Gardner returned from a visit to Goldsboro' yesterday, where he had been to make arrangements for instituting a new Lodge to be known as Goldsboro' Lodge No. ——. The proposed Lodge, which will be composed of twenty-five gentlemen from the best material in Goldsboro,' have obtained a recommendation from Wayne Lodge No. 112, and will probably secure a dispensation from the Grand Master in a few days, when the new Lodge will be duly instituted.

The Camp Meeting Excitement.

Although the camp meeting is over the excitement arising from it still continues. A large number of colored people arrived from the camp grounds yesterday, on the steamer *Waccamaw*, and were met at the wharf by a crowd of friends. Many of them were very jubilant and happy and the suburbs of the the city rang with their shouts during the remainder of the day.

A Spiritual Medium.

A colored man, by the name of Teeney McIlhenny, was picked up near the corner of Front and Church streets, yesterday afternoon, in a beastly state of intoxication, and carted down to the Guard House, in which he was furnished with lodgings until he cooled off. He was said to have occupied a position on the pavement for at least five hours.

Corner Stone.

The corner Stone of Mt. Zion A. M. E. church, corner of Seventh and Howard streets, will be laid to-morrow at 2 o'clock P. M. The ceremonies will be conducted by Rev. W. H. Bishop, assisted by Revs. D. P. Seaton, of Washington city, and J. H. Sprigg, pastor in charge.

BOARD OF ALDERMEN.

Extract from the Proceedings.

The Board of Aldermen was called to order by Mayor Canaday, who submitted the following remarks:

Gentlemen of the Board of Aldermen: I have the pleasure to inform you that G. W. Price, Jr., Esq., has filed his bond, with Messrs. Owen Burney, Owen Dove, Henry Taylor and Alfred Howe as sureties, and has been sworn in and entered upon his duties as Marshal. Mr. Price is the first colored man that has ever occupied the position of City Marshal in Wilmington; and it must be very gratifying to our colored fellow-citizens, when they consider the fact, that Mr. Price was unanimously elected, although three of the gentlemen who compose this Board are Conservatives. It proves that a better feeling exists in our city to-day than has ever existed before, between the two races; and it further shows that the white people will vote for a colored man when they know that he is qualified to fill the position that he applies for. When the Conservatives voted for Mr. Price they knew him to be not only a Republican, but a colored one. The gentleman who has been elected and qualified as Marshal should, as I have no doubt he will, do his whole duty in the responsible position to which he has been elected. He has an opportunity to make a name for himself and be a credit to his race. He has held many positions before with honor, and we have every reason to believe that he will strain every nerve to retire from the Marshalship with the well-earned plaudit: "Well done thou good and faithful servant" of the people.

Aldermen Rice moved that the bond of George W. Price, Jr., as City Marshal, for the sum of one thousand dollars, be approved and accepted.

Aldermen Wilson wished to know if the sureties were worth one thousand dollars over the homestead exemption; but the motion of Aldermen Rice having been seconded, the Chairman decided that Alderman Wilson was out of order and requested him to take his seat—which he did. Thereupon, the motion of Alderman Rice was adopted.

Alderman Moore asked if the sureties had justified. The Chairman replied in the negative. Alderman Rice then stated that he had supposed the sureties had justified, but as they had not done so he moved a reconsideration, which was carried.

Alderman Moore then moved that the Mayor be authorized to approve the bond as soon as the sureties justified, before a Magistrate, to the amount of one thousand dollars in excess of the homestead exemption and all liabilities. This motion was unanimously adopted.

On motion of Alderman Moore the Board took a recess until next Monday evening, at 8 o'clock.

In justice to Alderman Wilson we must express the opinion that his inquiry in regard to the sureties on the bond was timely and proper, under the circumstances, as is fully established by the subsequent action of the Board.

A Rare Entertainment.

To-morrow (Thursday) evening, at the Opera House, under the auspices of the Odd Fellows of Wilmington, Mr. Wm. H. Barnes, P. G. M., of New York, (formerly of Georgia,) Editor of the "*Heart and Hand*," will deliver his world-renowned Medley Melange for the 335th time, entitled, "Entertaining an Audience," illustrated with sentimental and humorous recitative, and musical renditions; introducing, among other selected and original pieces, "Bingen on the Rhine," "Twenty Years Ago," "Swinging in the Lane," "The Charming Young Widow," &c. He will precede his literary programme with "Fifteen Minutes on American Odd Fellowship." An exchange, alluding to one of his entertainments, says: "Mr. Barnes understands how to please and entertain an audience, and for more than an hour his eloquence, mirth-provoking illustrations and mimicry, the relation of anecdotes, varied with an occasional song, kept the packed and overflowing house delighted. While making palpable hits at the 'follies' of the day, he clothed his language so as to give no offence."

Admission, 50 cents; Children under 12 years, 25 cents. The "Trouble" commences at 8 o'clock.

Mayor's Court.

Mayor Canaday opened his Court yesterday morning for the first time, but only had one trifling case upon which to exercise his new functions. This was the case of Mary Eliza Nixon, charged with disturbing Mr. J. W. Jewett's school by throwing rocks at the building. His Honor administered a reprimand and ordered the defendant to be confined in the Guard House for two hours.

This was the first session of the Court for nearly two weeks, the last being held on the 9th inst.

Snobs and Snobbery.

At the Opera House, last evening, Rev. C. W. Warren repeated his lecture on "Snobs and Snobbery" to a large and appreciative audience, who, as was the case on the previous occasion, were intensely delighted. This was sufficiently evident from the interest manifested as the speaker progressed in his amusing and instructive discourse on the novel subject he had chosen, and which suffered no abatement to its close.

Ascension Day.

We are requested to state that the following services will be observed at St. Mark's (colored Episcopal) Church to-morrow, it being Ascension Day, or Holy Thursday: Morning services at 11 o'clock. The Bishop of the Diocese will visit the Church in the evening and administer the Rite of Confirmation. The public are cordially invited. Seats free.

Unmailable Letters.

— A colored individual by the name of Henry Wilkins was arrested by Officer Walcott and lodged in the Guard House yesterday on the charge of disorderly conduct on the streets.

A Ludicrous Incident.

A white man, considerably "obfusticated" by the number and strength of his potations, created no little excitement and amusement at the foot of Market street yesterday afternoon. He jumped into the dock, and, as many supposed, was in danger of drowning. Consequently efforts were made to rescue him from the water, which were successful; but upon being turned loose he immediately leaped over again. This time a colored man, standing on the edge of the wharf, attempted to reach him and pull him out, but was seized by the man in the water and he, too, found himself immersed in the river. The latter individual, however, soon reached dry land, but the other floundered about for some time before landing. In the meantime, a large crowd had gathered and rent the air with their shouts of laughter at the ridiculous spectacle.

Going to Work.

We learn from the Charlotte *Democrat* that Major Winder, the Constructing Engineer of the Carolina Central Railway, was in that city on Friday last organizing his Corps of Engineers for immediate work on the route between Charlotte and Wadesboro. Mr. W. Ames is the Contractor, and the work will now be pushed ahead to completion.

We learn in addition to the above that it is designed to put from one thousand to two thousand hands to work on the road immediately. This looks like business, and indicates an early completion of the road through from this city to Charlotte.

— On Monday night the mechanics and laboring men of Raleigh held a meeting at which there were some thirty white men and two hundred negroes. Speeches were made by Haywood Spencer and Henry Jones, col., in favor of the ten hour system. Stewart Ellison, col., made a mild speech in opposition to extreme demands, and so did Keith and Maj. Wylie D. Jones. The meeting closed with a joust between Keith and Spencer, the latter calling Keith a renegade leader of the working classes. A meeting was called for last night. A resolution in favor of the ten hour system for work was adopted.

— The Raleigh *Sentinel*: Yesterday the brick masons and a portion of the house carpenters of Raleigh struck for an advance of fifty cents per day and a reduction in the hours of labor of two hours per day. The principal establishments affected by this strike are Thos. H. Briggs', in which only the brick masons have struck; the firm of Betts, Allen & Co., in which all the carpenters have struck, and the establishment of H. J. Hammell, the most extensive contractor in the city, where all the hands have struck. The employing carpenters have so made their contracts as to enable them to suspend their work without prejudice to their pecuniary interests, whilst Mr. Hammell is bent upon bringing into the State from the North the requisite number of brick masons to continue his contracts, no matter what the cost may be. There is no building in progress in the city which cannot afford to wait; and we heard of several projected buildings which will be abandoned for the present.
