The Polaris.

We know that on the 1st of July Buddington and his party were alive and well, and there is a strong probability that they have been picked up before this time by one of the whalers which cruise in considerable numbers during the summer months in Buffin's Bay and the waters opening from it on the north. The locality of the catastrophe which separated Tyson and his eighteen companions from the ship was further and took up their abode in Louisiana. The farmer boy who followed the wagon was the ship was further north than has commonly been supposed. It was not Northumberland Island but Littleton Island, nearly a de-gree higher; for it seems clear from the narratives now pre-

sented that the Polaris never moved | England.

Severe Accident. A colored boy by the name of James Waddell, aged about 12 years, met with a severe accident yesterday morning. He was engaged in guarding a rice field from the depredations of birds near Brunswick ferry, about three miles from this city, and had laid his gun down on the grass for a few moments while he went to get a drink of water. In the meantime, it appears, some other boys used the gun and upon replacing it left it half cocked. When Waddell returned and attempted to take up his gun, the muzzle being towards him, it was accidentally discharged, the load entering under his right arm near the shoulder and inflicting a severe wound, the flesh being torn badly. It was not thought, how ever, that the bone had sustained any injury. He was immediately brought to this city and placed under the care of a competent surgeon, who dressed his wounds. Accidents of this character are almost constantly occurring, but the warnings to be careful in handling fire-arms seem to make

Relies of a Noted Outlaw Chief. We were shown yesterday a knife and strap which formerly belonged to the notorious Henry Berry Lowrey, and which were used by him for a long time previous to his departure for the "happy hunting grounds of his fathers." Mr. C. H. Manning, who has them in his possession, procured them from some of the relatives of the noted chief on the occasion of a late business visit to Scuffletown, and his information concerning them is such as to leave no doubt that they were in reality his property. The knife is a formidable weapon, the handle and blade being of about equal length and measuring altogether about eight inches. It is not of the dirk pattern, but opens and shuts and was used as an ordinary pocket knife, although capable of

of pistols and knives which the noted outlaw always carried about his person. Magistrates' Court. John Lewis, colored, was arraigned before Justice T. M. Gardner, yesterday, on the charge of an assault and battery on the that Mosely went into the engine room and persisted in bothering him at a critical time, when his entire attention was required in the proper performance of his duties. Finally he became impatient and struck Mosely a severe blow, whereupon the latter procured the issuance of a warrant for the arrest of Lewis on the charge above specified. The case was dismissed on the pay-

fight. The strap was probably used around

Officer Moses Whiting of the police force, charged with arresting Henry Anderson judgment of the Court in his case has not yet transpired.

Doings of the Board of Aldermen. In the hurry of getting up the proceed ings of the Board of Aldermen for our last issue, several errors of more or less importance occurred. For instance, the communication from E. Kidder & Sons was in reference to the introduction of Nicholson paving blocks.

The communication of the Board of Underwriters asked that the city extend such encouragement and patronage to the Cape Fear Water Works Company as will enable them to prosecute their work. This was referred to a special committee, consisting of the Mayor and Aldermen Moore and Fishblate, with instructions to report

at the next regular meeting. The communication of Chief Engineer Robinson of the Fire Department was in reference to procuring one of Noyes' patent hose oilers for the use of the Department.

The petition of J. G. Darden and others, as to prevent the sale of liquor in the neighborhood of Eighth and Wooster and not Tenth and Wooster streets.

We would further state that the Commit tee on Ordinances was authorized to introduce an ordinance in reference to piling wood on wharves and report the same at the next regular meeting.

The Hog Question Again. Persons residing in the vicinity of Fifth and Mulberry streets complain loudly of the depredations of hogs that are allowed to run at large. What makes it more annoying to them is that they are not allowed to keep hogs of their own, in accordance with the late city ordinance prohibiting the keeping of these animals within certain prescribed limits.

Murderous Assault.

On Thursday night, about half past 10 o'clock, as Mr. R. J. Scarborough was returning home from his place of business, corner of Third and Orange streets, close to the First Presbyterian church, he was suddenly assaulted from behind by somebody, who struck him a severe blow on the side of the face with a rock or brick which he held in his hand. Mr. Scarborough reeled from the violence of the blow and fell to the pavement, and upon regaining his feet the person who had assaulted him had disappeared. His face was badly bruised and four of his jaw toth were knocked out, two of which went down his throat. He caught a glimpse of the individual who struck him and is positive that he was a white man .-Mr. S. was about his business vesterday as usual, but the appearance of his face indicated the severity of the blow he received.

Jailed for Contempt.

A colored man by the name of Henry Anderson, who had a case before Justice Gardner yesterday, became so obstreperous that His Worship ordered him to jail for ten days for contempt of Court. He was opposed to such a proceeding as that and without a warrant for so doing, was also Deputy Sheriff Morris had to summon Mr. arraigned before Justice Gardner, but the R. L. The splendid monument crected at Castle Havne over the body of Capt. J. H. K. Burgwin, of the 1st regiment U. S. dragoons, who was mortally wounded in one of the battles during the Mexican war, has been removed to this city by Mr. G. W. W. Davis and others and was yesterday placed in its proper position in Oakdale Cemetery, where the body had been previously reinterred. This monument is said to be the largest one in the cemetery and rests over the form of one who was known in his time as a most worthy gentleman and a gallant

We learn that the new City Directory, to be issued previous to the Fair in November, is meeting with the most decided success, Owing to many changes in places of business, residences, &c., contemplated on the 1st of October, a reliable Directory will prove an almost absolute necessity. The publishers, Messrs, S. G. Hall and E. S. Warrock, are both practical printers and will no doubt furnish just such a Directory as is required.

Still in Prison. The sheriff of Marion county, S. C., did not arrive yesterday, as was expected, and consequently nothing was accomplished towards the release of the young man Reaves from confinement in the county jail. He will probably be released to-day,

on the arrival of Solicitor Cantwell.

The Late Homicide in Columbia Township An Arrest Upon the Charge of Implication Malpass Es-A young man by the name of Henry Gur-

ganus was brought to this city yesterday under a commitment from Coroner E. D. Hewlett, charged with being implicated in the killing of Mr. E. J. Walker in Columbia Township on Wednesday last, an account of which appeared in our paper yesterday morning. The specific charge against Mr. Gurganus is, from what we can learn, that he instigated the difficulty which terminated in the death of the unfortunate man Walker. case will be made. F. J. Malpass, the man who inflicted the fatal blow, has made his escape, although it was at first reported that he had quietly surrendered.

Attempted Incendiarism.

Last night, about 11 o'clock, the kitche on the premises of Capt. H. E. Orr, on Fourth, between Nun and Church streets, was discovered to be on fire. The family had retired, but one of them, Mr. Wm. C. Orr, who happened to be awake, saw a light through the back window of his bedroom, which excited his curiosity. Going to the window and raising it he discovered that the weatherboarding on one side of the kitchen was in a light blaze. He seized a bucket and by the prompt application of water the fire was extinguished. From the fact that the smell of kerosene was very strong, and from other circumstances connected with the affair; there seems to be no doubt that it was a case of incendiarism. In fact a certain party is suspected. There was no general alarm.

A colored man rendered assistance in extinguishing the flames.

Never Called For It. It seems that the party who sent the since, purporting to come from Mr. Hottendorf, and asking his partner, Mr. Hashagen, to send \$250 to him at Philadelphia, an account of which appeared in this paper, never called for the money, a letter to that effect having been received from Messrs. Mathieu & Sons, who had been requested to cash the check for Mr. Hottendorf. It is evident that the fellow "smelt a mice" and was too shrewd to be easily caught. Fair in Ald of Giblem Lodge.
