

FIELD AND FIREIDE

KIDNEY WORMS IN SWINE

[Rural Alabama.] Kidney worms, both in hogs and sheep, are parasitic insects. In sheep it is called fluke. Therefore, to cure the animal, some remedy must be given that will operate through the liver and kidneys.

Among the remedies are white lye, from hard-wood ashes, to be repeated daily until the effect is produced. Turpentine thoroughly rubbed upon the loins is a good auxiliary, and it is also used internally, in doses of a tablespoonful every day in the food for three or four days.

Coppers pulverized, in doses of two or four ounces daily, fed in soft-boiled food is good; also half-grain doses of arsenic, to be increased by one-quarter grain each day for three or four days, or until an effect is produced, the animal to be constantly given access to fresh earth during the treatment.

As a preventive allow hogs all the soft (bituminous) coal they will consume. Since nixing tallow has not been troubled with this difficulty, and it is somewhat surprising how much will be consumed.

SAVE ALL THE BONES.

There is nothing that will induce early laying in pullets better, if as well, as to be fed with raw bones, pounded in pieces of proper size. It strengthens them, and prevents leg weakness, which is often seen in cockers. But for chickens intended for exhibition, we would not recommend its use, as the fact that it induces laying is an argument against its use, for it is conceded that growth ceases when the pullet commences to lay. In these cases bones that will be found to answer better, as it does not have the same effect on the tendency to lay.

The Impracticability of Balloon Navigation.

Editor Morning News: In addition to your clever article of yesterday morning on the Graphic Balloon Bubble, I give you a few facts that may interest your scientific readers, particularly of the younger class. And first, we give a table of the velocity and force of the wind:

Table with 4 columns: Velocity in one hour, Pressure on one sq. foot, Common designation of force of the wind, Miles per hour. Rows include: 1. Light breeze, 2. Gentle breeze, 3. Pleasant breeze, 4. Very brisk breeze, 5. High wind, 6. Very high wind, 7. Great storm, 8. A hurricane that tears up trees, carries buildings before it.

The maximum density of water is at 39.6 degrees, merely a trifle more than 1,000 ounces avoirdupois to the cubic foot, and its specific gravity about 1.020.

Now admit, which you in your article justly expose, that a balloon has a sustaining power equal to the lifting power of gas which it confines, yet how can it navigate the air against a head wind? See table of velocity and pressure per square foot above. A vessel beats against the wind on a law of physics known as the resultant of two forces, the wind being one, the resistance of the water the other. But the balloon is subjected to but one force—the wind—with which it has directly to contend, opposing to it the cross section through, vertically, the greatest width of the balloon, and to overcome the wind, it must be able to sustain, in addition to itself, an engine and machinery capable of exerting upon the mass of the balloon and appurtenances a propelling power greater than the wind. As far as the theory of navigating the air, unless science shall determine accurate wind and current charts, and the process by which the balloon when caught by an adverse breeze can surely ascend or descend to its favorable current, and go on its way rejoicing. Successful, useful navigation, then, would seem to depend on positive charts of air currents not known yet, and the ready passage from one current to another.

The California Election.

California is soon to have the excitement of another general election, that for Judge of the Supreme Court, which occurs on Wednesday, Oct. 12. It is predicted that it will be closely contested. Possibly the Supreme Judges will be chosen by the voters now in some doubt, and it cannot be decided until a close examination of the code, which is rather obscure, is made. Some districts are also to be chosen, and then, probably, will choose a Police Judge. The latter contest excites more local interest in San Francisco than the general election, as the political complexion of the entire Police Department of the city will depend upon the official elected, as the Board of Police Commissioners consists of the Mayor, Police Judge, and the Chief of Police, and the Mayor, already elected, is a Republican, and the Chief is a Democrat. Should the Democrats succeed a sweeping change will doubtless be made.

No Wonder the Farmers Groan.

The Minneapolis Tribune says the advance of the freight tariff on wheat three cents a bushel on the three lines of railway which afford to Minnesota farmers an outlet for their surplus of that grain, will cost those farmers a million of dollars more to market this year's crop than it would at the rates of transportation which have heretofore prevailed.

The Duke of Salsbor, the leader of the German Roman Catholics, who, although not joining the old Catholics, sympathizes with the Prussian Government, has just been appointed a full General in the German army by the Emperor.

Yellow Jack in Memphis.

HONORS OF HAPPY HOLLOW.

A Good Secret Stays Sleepy-Headed Authorities.—On Sunday the Epidemic Spreading.

[Letter to the Louisville Courier-Journal, Memphis, Sept. 17.—Midnight.]

Your readers have but a faint idea of the ravages of the yellow fever here from the brief accounts telegraphed. Its appearance was first made known publicly on Saturday night last, when the deaths for the preceding six days amounted to thirty-nine, these including several scattering cases that occurred previous and since then it has been gradually spreading in and out of that locality known as Happy Hollow. On Sunday fourteen deaths were reported, and without the slightest doubt, at least five or six were buried without permits. It is even said that some of the dead bodies were thrown into the river, that being close at hand.

On yesterday the deaths numbered twenty, all telegraphic statements to the contrary notwithstanding, and to-day 17 are reported, making a total in three days of 51, which with the 39 previously reported, foote up 90—quite a respectable showing for a small-sized town, and that, too, with fair prospects of its continuance and spread, as the weather has turned quite warm again during the day and is cold at night. On Sunday, when the great Board of Health made a special announcement of its presence, the city was all agog with excitement, and those who had their clothes prepared left at once upon the noon trains for healthier locations and created such a bustle and confusion that for twenty-four hours the feeling all over the city was one of panic. Merchants and business men generally would handle together and consider the subject, the inevitable result of their consultation being a sudden packing of trunks in the homes of each, the purchase of tickets and the departure Monday afternoon the city press, seeing that the city officials were not disposed to take any action in the matter suggested to his Honor, Mr. Johnson, that something be done, but yet the good and gracious city fathers headed not the admonition until the citizens organized and compelled him to do so, or forfeit the peoples' good will; and to-day he has taken the first step by ordering the streets and alleys flushed. Think of that! Four days meditation brings forth an order to turn the water loose from the fire-pumps. The old Howard Association met and reorganized last night and went hard to work.

Last night the gas was permitted to escape from every street-lamp all night as a disinfecting experiment, and barrels of tar were burned in Happy Hollow as well as on Promenade and other streets in the northern part of the city. Happy Hollow, the locality in which the disease first started, is just north of Market street, on the river bank, and there in hovels and rickety constructed shanties, reeking in filth and mixed up promiscuously with goats and hogs, dwell nearly one thousand negroes and low Irish—at they did live there before the pestilence visited them—getting their subsistence chiefly by scavenging, and there it was too, that when the police or detectives desired to find a thief or pickpocket they sought him. The scenes in this locality since the "cropping out" of the fever, beggars, and in some cases whole families have been stricken down, and one by one have fallen victims to its prey, where in other cases parents of large families of children have been carried away by death leaving their little ones to do the tender charities of the world. One case came under my own personal observation last night, as with others seeking to assist the needy we patrolled the "Hollow" in a low, dingy shanty which we entered the father, an Irishman, sat in a chair stone dead, with his head dropped upon his bosom, and in a rickety constructed bed lay the wife at the point of death, and on each side of her was a girl—about ten and the other eight years of age—all down with the fever and not a soul to nurse or care for them; in fact, the eldest of the girls stated that they had eaten nothing in thirty-six hours. All of them died during the night and were buried in the Potters Field. Hundreds of similar cases might perhaps be told, were the particulars in each case known, but now, thank God, they will all receive at least some little attention. Our physicians are nearly worn out with their arduous labors and two of them are down with the fever, but are not believed to be dangerously ill. To-night it is reported that the scourge has broken out in several other portions of the city and among a respectable class of the community.

THE DISEASE SLOWLY SPREADING.

[By Telegraph to the New York Tribune.]

MEMPHIS, Sept. 21.

The area of the fever is slowly spreading, although but few new cases are reported to-day. The Howard Association now has nearly 100 cases under the care of its nurses. A few good nurses reached here from Mobile last night and were immediately set to work. Neither the railroads nor steamboats are bringing any people into the city, and the heavy rash of outwards-bound travel is about over. Those remaining pursue their usual avocations calmly, and business in many branches is quite active, and has decreased less than was expected. The greater part of the sickness is still up town. The total number of deaths last week,

THE SENATORIAL TRI-MILLION-aires.

Jones of Nevada—How He Suddenly Grew Rich. Mr. Jones is not a Welshman, as commonly supposed, but an Englishman. The Welsh are, therefore, still unrepresented in the Senate of the United States.

THE HEROIC HALL.

Interview with the Scientific Man of the Expedition—Hall Died a Natural Death—London Tribune.

[Herald Special.]

LONDON, Sept. 20.

The following is a portion of an interview between a Herald correspondent and Dr. Bessels, of the Polar, at Dundee: Dr. Bessels said, on coming here, he found from American papers that several very silly and absurd rumors of a mischievous tendency have been abroad. It is possible that the Government at Washington prefers that we reserve what we have to say for a graver occasion, but I must emphatically contradict the statement that Captain Hall died other than a natural death. He was ill for about a fortnight. He appeared to be in perfect health when entering upon the voyage. I noticed nothing unusual in his health up to the period of his illness. The rumor that he was poisoned is too absurd to be seriously entertained. The rumor may have been founded on the hallucinations of the raving patient. Schuman, the engineer, says that Hall was in continual apprehension of being shot, but was not aware that any one of the crew more than another excited his suspicions.

Another phase of his mania was a determination not to eat or drink anything unless it was first tasted by some person. The tasting was mostly done by Hannah, the Esquimaux woman. When he refused and for a while recovered his wonted intellect, he would say to Buddington: "If I die, you must still go on to the North Pole." He would say: "My last wish is that you strive to go to the North Pole. Don't let my death be a hindrance to the accomplishment of this great undertaking."

LONDON, Sept. 21.

At the session of the British Association at Bradford, yesterday, Captain Markham, of the British navy, who was on the Arctic when she received the men rescued from the Polar, gave a detailed account of the voyage of Captain Hall, which he had gathered from members of the expedition. He said the Polar occupied only five days in making the distance from Cape Shackleton northward to latitude 82.06. This was the nearest point to the North Pole ever reached by civilized man. The ice was soft all the way, and stronger vessels could have attained a much higher latitude.

HYDROPHOBIA.

Interesting Cases from Different Standpoints.

We find in the Medical Record an account of a rare case of hydrophobia. A little girl was bitten by a mad dog who tore out of her right cheek a piece the size of a silver dollar. She was treated by immediately cauterizing the wound with a saturated solution of carbolic acid, and keeping it wet constantly with a weaker solution of the same, while two drops of liquor ammonia fortis were given her every two hours in water. Three days afterwards the wound was cauterized a second time with nitrate of silver, and the dose of ammonia was increased to three drops. This treatment was continued till August 9, the wound not being allowed to dry a single instant during the whole period, and it was healed without leaving a scar. As two years have since elapsed, without symptoms of the poison, it is believed that the patient is entirely out of danger.

GRANDEST SCHEME EVER KNOWN.

FOURTH GRAND GIFT CONCERT FOR THE BENEFIT OF THE Public Library of Kentucky.

12,000 CASH GIFTS—\$1,500,000.

Every Fifth Ticket Draws a Gift.

THE FOURTH GRAND GIFT CONCERT AUTHORIZED by special act of the Legislature for the benefit of the Public Library of Kentucky, will take place in Public Library Hall, Louisville, Ky., Wednesday, December 3, 1873.

Only sixty thousand tickets will be sold and one-half of these are intended for the European market, thus leaving only 30,000 for sale in the United States, where 100,000 were disposed of for the Third Concert.

Prizes are awarded to ten couples of boys and girls, their best school records, with a full explanation of the mode of drawing.

At the concert, which will be the grandest musical performance witnessed in this country, the unprecedented sum of \$1,500,000.

Divided into 12,000 cash gifts, will be distributed by lot among the subscribers, the number of tickets to be drawn from one wheel by blind children and the gifts from another.

LIST OF GIFTS.

Table listing gifts: ONE GRAND CASH GIFT, \$250,000; ONE GRAND CASH GIFT, 100,000; ONE GRAND CASH GIFT, 50,000; ONE GRAND CASH GIFT, 25,000; ONE GRAND CASH GIFT, 12,500; 10 Cash Gifts, \$10,000 each, 100,000; 50 Cash Gifts, 1,000 each, 50,000; 100 Cash Gifts, 500 each, 50,000; 100 Cash Gifts, 200 each, 20,000; 100 Cash Gifts, 100 each, 10,000; 1000 Cash Gifts, 50 each, 50,000.

PRICE OF TICKETS.

Twenty tickets \$2.00; ten tickets \$1.00; five tickets \$0.50; one ticket \$0.25.

The unprecedented success of the Third Gift Concert was well attested by the fact that all the tickets were sold in less than 100 days.

The Fourth Gift Concert will be conducted in all its details like the Third, and full particulars may be secured from the Librarian of the Public Library of Kentucky, Louisville, Ky.

Tickets now ready for sale and all orders accompanied by the money promptly filled. Liberal terms given to those who wish to sell again.

T. H. BRAMLETTE, Librarian of the Public Library of Kentucky, Louisville, Ky.

Havana Royal Lottery.

Class 97, July 12th, 1873; Class 98, Oct. 4th, 1873; Class 99, July 24th, 1873; Class 100, Oct. 2nd, 1873; Class 101, Aug. 14th, 1873; Class 102, Nov. 20th, 1873; Class 103, Aug. 30th, 1873; Class 104, Nov. 20th, 1873; Class 105, Sep. 7th, 1873.

The amount drawn in every Ordinary Drawing will be \$250,000 divided into 782 Full Prizes.

1 Prize of \$100,000; 2 Prizes of \$50,000; 3 Prizes of \$25,000; 4 Prizes of \$10,000; 5 Prizes of \$5,000; 6 Prizes of \$2,500; 7 Prizes of \$1,000; 8 Prizes of \$500; 9 Prizes of \$250; 10 Prizes of \$100; 11 Prizes of \$50; 12 Prizes of \$25; 13 Prizes of \$10; 14 Prizes of \$5; 15 Prizes of \$2; 16 Prizes of \$1; 17 Prizes of \$0.50; 18 Prizes of \$0.25; 19 Prizes of \$0.10; 20 Prizes of \$0.05.

MISCELLANEOUS.

FOR SALE, TURPENTINE LANDS, FINE BUSINESS LOCATIONS FOR BUYING AND DISTILLING TURPENTINE.

THE SUBSCRIBERS HAVING DETERMINED to change their business and remove from this city, they offer for sale their property, namely: 1. Two acres of turpentine lands in good standing, 2. A large quantity of turpentine, 3. A large quantity of turpentine, 4. A large quantity of turpentine, 5. A large quantity of turpentine, 6. A large quantity of turpentine, 7. A large quantity of turpentine, 318. A large quantity of turpentine, 319. A large quantity of turpentine, 320. A large quantity of turpentine, 321. A large quantity of turpentine, 322. A large quantity of turpentine, 323. A large quantity of turpentine, 324. A large quantity of turpentine, 325. A large quantity of turpentine, 326. A large quantity of turpentine, 327. A large quantity of turpentine, 328. A large quantity of turpentine, 329. A large quantity of turpentine, 330. A large quantity of turpentine, 331. A large quantity of turpentine, 332. A large quantity of turpentine, 333. A large quantity of turpentine, 334. A large quantity of turpentine, 335. A large quantity of turpentine, 336. A large quantity of turpentine, 337. A large quantity of turpentine, 338. A large quantity of turpentine, 339. A large quantity of turpentine, 340. A large quantity of turpentine, 341. A large quantity of turpentine, 342. A large quantity of turpentine, 343. A large quantity of turpentine, 344. A large quantity of turpentine, 345. A large quantity of turpentine, 346. A large quantity of turpentine, 347. A large quantity of turpentine, 348. A large quantity of turpentine, 349. A large quantity of turpentine, 350. A large quantity of turpentine, 351. A large quantity of turpentine, 352. A large quantity of turpentine, 353. A large quantity of turpentine, 354. A large quantity of turpentine, 355. A large quantity of turpentine, 356. A large quantity of turpentine, 357. A large quantity of turpentine, 358. A large quantity of turpentine, 359. A large quantity of turpentine, 360. A large quantity of turpentine, 361. A large quantity of turpentine, 362. A large quantity of turpentine, 363. A large quantity of turpentine, 364. A large quantity of turpentine, 365. A large quantity of turpentine, 366. A large quantity of turpentine, 367. A large quantity of turpentine, 368. A large quantity of turpentine, 369. A large quantity of turpentine, 370. A large quantity of turpentine, 371. A large quantity of turpentine, 372. A large quantity of turpentine, 373. A large quantity of turpentine, 374. A large quantity of turpentine, 375. A large quantity of turpentine, 376. A large quantity of turpentine, 377. A large quantity of turpentine, 378. A large quantity of turpentine, 379. A large quantity of turpentine, 380. A large quantity of turpentine, 381. A large quantity of turpentine, 382. A large quantity of turpentine, 383. A large quantity of turpentine, 384. A large quantity of turpentine, 385. A large quantity of turpentine, 386. A large quantity of turpentine, 387. A large quantity of turpentine, 388. A large quantity of turpentine, 389. A large quantity of turpentine, 390. A large quantity of turpentine, 391. A large quantity of turpentine, 392. A large quantity of turpentine, 393. A large quantity of turpentine, 394. A large quantity of turpentine, 395. A large quantity of turpentine, 396. A large quantity of turpentine, 397. A large quantity of turpentine, 398. A large quantity of turpentine, 399. A large quantity of turpentine, 400. A large quantity of turpentine, 401. A large quantity of turpentine, 402. A large quantity of turpentine, 403. A large quantity of turpentine, 404. A large quantity of turpentine, 405. A large quantity of turpentine, 406. A large quantity of turpentine, 407. A large quantity of turpentine, 408. A large quantity of turpentine, 409. A large quantity of turpentine, 410. A large quantity of turpentine, 411. A large quantity of turpentine, 412. A large quantity of turpentine, 413. A large quantity of turpentine, 414. A large quantity of turpentine, 415. A large quantity of turpentine, 416. A large quantity of turpentine, 417. A large quantity of turpentine, 418. A large quantity of turpentine, 419. A large quantity of turpentine, 420. A large quantity of turpentine, 421. A large quantity of turpentine, 422. A large quantity of turpentine, 423. A large quantity of turpentine, 424. A large quantity of turpentine, 425. A large quantity of turpentine, 426. A large quantity of turpentine, 427. A large quantity of turpentine, 428. A large quantity of turpentine, 429. A large quantity of turpentine, 430. A large quantity of turpentine, 431.
