DR. AMOT ON THE CHRISTIAN DOCTRINE AND LIFE.

A Paper Read Before the Evangelical Alliance.

Rev. Dr. Amot, of Edinburgh, Scotland, read a paper on "The Relation, Vital and Casual, between Christian Doctrine and Christian Life." He said that the link which united doctrine and duty in the Christian system was like the Word of God...

Rev. William F. Butler called the attention of the Convention to the fact that a convention of colored men was to be held in Washington on the 10th of December to urge Congress to pass Senator Sumner's Supplementary Civil Rights bill.

"This State," said the reverend gentleman, "entitled to send twenty delegates, who are to be elected by this Convention. We want the question of our rights settled, so that a black man may travel from Maine to Florida, and from the Atlantic to the Pacific, without meeting with rebukes and rebuffs at every turn."

"They sweep clean," interrupted a delegate. "Yes," replied Mr. Butler. "Where they have been they have swept clean. [Laughter.] But we ought to have some representative men in office. I think that we shall get something by and by. The stir that has been recently made has worked up the Republican leaders, some of whom never think of us except about election times."

At the evening session resolutions were offered censuring the Republican party for failing to keep their promises, and for losing the maintenance of separate organizations. Several delegates, among them some Custom House officers, opposed the resolution censuring the Republican party.

John J. Freeman said: The Republican party ought to be censured. They had made promises to the colored men which they had not kept. "I am willing," said he, "to have the news flashed along the wires that the colored men of the Empire State dare to censure the Republican party, and I say here that if we adopt these resolutions in less than one year we shall be even and will get our rights. Some of us went to Mayor Havemeyer and demanded recognition of our services, and we were snubbed. We went to some of the departments and asked for work for colored men and were refused."

On motion of Mr. McKee the resolutions were tabled. On motion of the Rev. W. F. Butler a resolution was adopted favoring the continuance of separate organizations until the colored men have a representation on the Republican State Central Committee.

THE COLORED REPUBLICANS.

They Make Demands in New York. [Condensed from the Sun of Thursday.]

The colored Republicans held their State Convention yesterday in Republican Hall. Mr. Gilbert, the Chairman, in calling the Convention to order, said that its object was to decide whether it was advisable to maintain its own organization.

Messrs. William S. Baltimore and Washington Parker having been elected Vice Presidents, and J. J. Freeman having been appointed Assistant Secretary, Mr. George W. Myers, President of the Fifth Assembly District Colored Republican Association, took the floor and said:

The time has not come to disband our own organization. Although I am a member of the white Republican Association in my district, I am in favor of keeping up our own associations. We certainly have no cause to congratulate ourselves over what we have received from the Republican party. We have helped them, and we ought to get assistance from them in return for it.

NO ELECTORAL COLLEGE.

Senator Morton's Plan of Electing the President by the People and Placing the Elections Under Federal Control.

O. P. Morton, of Indiana, Matt. H. Carpenter, of Wisconsin, the Hon. H. B. Anthony, of Rhode Island, and Thos. F. Bayard, of Delaware, members of the Standing Committee on Privileges and Elections of the Senate of the United States on Wednesday, closed their conferences, which have been continued from day to day for the past week at the Fifth Avenue Hotel, New York, in reference to the mode of electing the President.

The substance of their deliberations thus far may be briefly stated as involving the following propositions: 1st.—To abolish the Electoral College.

2d.—That the President and Vice President shall be elected by the people voting directly for the candidates. 3d.—That each State shall be divided into as many districts as the State is entitled to representatives in Congress, to be composed of contiguous territory, compact in form, and as nearly equal in population as may be, and the person having the highest number of votes for President in each district shall receive the vote of that district for President which shall count one Presidential vote; that each State shall be entitled to two Presidential voters at large, which shall be counted for the person having the highest number of votes in the whole State.

4th.—The person having the highest number of such Presidential votes in the United States shall be President. 5th.—These provisions to be applicable to the election of Vice-President. 6th.—Congress shall have the power to provide for holding and conducting the election for President and Vice-President, and to establish tribunals for the decision of contests as to the vote in any district or State, and make regulations governing the proceedings of these tribunals.

Other questions were considered in connection with the votes in States and districts, and providing for the exigency of the death or resignation of the President after the election and before the inauguration, but of course no conclusions could be arrived at.
