THE CITY.

Civil service examinations under the new rules are somewhat complicated affairs. A Washington dispatch, giving the outline of the proposed proceedings, says that the Treasury service is to be replenished with clerks taken from groups gathered at St. Louis, Cincinnati, Savannah and New York. These are to be formed by issuing invitations, and the best men are to be selected from the competing candidates. Any reformer on his old mode of filling the minor offices at Washington will be considerably surprised to find a little pitiful that the demands of local interests and office seeking compel the examining to travel about the country in search of candidates. The programme of the day commenced and ended with the closing races.

THE MORNING STAR

Several Frank trees in bloom at the Wilmington Garden. — We are glad to hear that the diphtheria at Southville has abated. — Some of our schoolmates are going to import oranges from Morehead City. — There were no cases for trial before the Mayor's Court yesterday morning. — Regular communication of Wilmington Lodge 618 this (Tuesday) evening at 7 o'clock. — The steamer "Waco" left Wilmington on Sunday. — A heavy rain fell on Sunday morning, followed by a cool breeze for the remainder of the day. — The city service examinations under the new rules are somewhat complicated affairs. WILMINGTON, N. C., TUESDAY, OCTOBER 24, 1875

Laying in a winter stock of provisions. — The residence of Mr. Dunham on Second, between Market and Duke streets, was entered on Monday night, between 10 and 11 o'clock, and robbed of a number of articles of clothing, including two overcoats, seven hats, a lady's shawl, several umbrellas, etc., amounting in value to \$100. A member of the family coming in after 10 o'clock found the door wide open, but the door of the articles was not discovered until yesterday morning. Housekeepers should be constantly on the guard against the operations of the professional thieves which infest the city. — The British Brig "A. M. P. Capt. Strong," which arrived here yesterday from Belfast, Ireland, reports having experienced a heavy gale on the 7th of October, about 250 miles South of the Cape Fear, during which both masts were carried away. The vessel was damaged and the boatsmen her course for that port, which she will reach tomorrow morning, when she will be discovered about 30 miles from the bar by the steamer "Waco," the vessel being very rough in the time, when she was taken in tow and brought safely to this port. — CITY ITEMS. — "Patented" Lard. — We have in stock over 300 sacks of lard, also lard, weight, 50 lbs. per sack. In lead, soap, paper, salt, etc., in lots to suit, for cash, or sent by express C. O. D.

THE LAST DAY-CLOSING SCENES, &c.

The Thirtieth Annual Fair of the North Carolina Agricultural Society closed its brilliant and successful term. The attractive programme announced at the opening, and the unusually large number of visitors considering the fact that it was the closing day, and until late in the afternoon the crowd lingered around the pleasant scenes of the eventful week. The exhibitors were busily engaged packing up their goods, and for transportation, drays in numbers were passing to and fro, giving an animated, business-like appearance to the grounds that favorably compared with the bustle of the two preceding days.

THE PEASANT CROP

From Mellen, Brown & Co., cotton factors and commission merchants, Cincinnati, Ohio, we have the "Annual Review of the Tennessee Peasant Crop for the year ending Sept. 30th, 1875." The crop for Tennessee is estimated at 875,000 bushels; stock on hand Sept. 30th, 1875, 400,000; exports for Sept. 30th, 1875, 450,000; stock on hand in Cincinnati Sept. 30th, 1875, 100,000; cottons received for Sept. 30th, 1875, 100,000; cottons in New York, 50,000; of all other kinds in New York, 50,000. The following additional facts are given: The Virginia crop for the year ending Sept. 30th, 1875, is estimated at 300,000 bushels; for the present year one-half the previous crop was planted, but the unusual season has probably been the cause of the increase. The crop for the present year is estimated at 300,000 bushels. The business in Africa has been very light and unsatisfactory the past year, but it is expected to be better this year.
