Proposed Railroad from Point Cas-

well to Clinton. We were shown yesterday, by Capt. R P. Paddison, a neatly executed map, gotten up by Mr. Henry Colvin, County Sur veyor, of the route of the proposed Railroad from Point Caswell, in this county to Clinton, Sampson county. The length of the road will be about forty miles and

the important points on the route through which it will pass are Newkirk's Bridge, Harrel's Store and Lisbon. The country which will be tributary to it is among the richest and most productive in the State, especially as regards turpentine and cotton, and the proposed road will consequent ly be the most direct route to Wilmington of a large amount of produce which now finds its way to other markets. Point Caswell is the head of navigation on Black River and is accessible to steamers at all times of the year, not being subject to the annoyance from low water experienced by the boats running between this city and Fayetteville. There seems to be no doubt that the road will be built, as its importance is realized and the necessity for its construction felt and appreciated by those most deeply interested, who will thus be afforded facilities for reaching the market of their choice which has hitherto been denied them to a great extent by the heavy cost of transpor-

We were shown yesterday a letter from Mr. G. G. Barker, dated at New York, the 28th ult., written to his brother in this city, in which he states that he had just received a letter from Clifton Springs, N. Y., which brought the information that the condition of Miss Amy Bradley, who has been very ill at that place, has greatly improved. The letter from the Springs above referred to says: "Miss Bradley improves daily, sleeps well, sits up part of the time, has a better appetite and altogether her condition is quite satisfactory." This will be cheering intelligence to the many friends and well wishers of Miss Bradley in Wilmington, who look forward with pleasurable anticipation to her return among them to resume the duties of the school which she has conducted so successfully in our midst for several

improving. We are glad to be able to announce some improvement in the condition of Capt. Morrison. His physician examined the wounds yesterday morning, while our informant was present, and stated that they looked better, the swelling in his feet and legs having materially diminished. The patient is still remarkably cheerful and sanguine. We hope to hear of still further improvements in his condition. Dr. J. F. King, of this city, visited him yesterday. Mayor's Court.

The following cases were disposed of

yesterday morning: Richard Crawford, charged with disorderly conduct and resisting a police officer, having been previously convicted and sentenced to pay a fine of \$25 and the costs, had a rehearing, when his fine was reduced to \$15 and costs.

Eliza Harriss, charged with cursing and abusing one of her neighbors in Thompson's

Alley, was fined \$5 and costs. - The potato crop in Brunswick is said

to be fine.

THE MURDER CASE.

Second Day's Proceedings—Examination of Witnesses Continued-Discharge of Billy Merrick.

The proceedings in the above remarkable case were resumed yesterday, and during the entire day dragged its slow length along. The morning session was consumed in the examination of a number of witnesses for the State. At half past 1 o'clock the case on the part of the State was closed, when, on motion of E. B. Sanders, counsel for the prisoner, W. H. Merrick was discharged by the Court. It appears that the only evidence against him was the confessions of the other defendants, which, not being legal evidence, he was allowed his liberty; and it seemed that Billy, if he did not understand the reason, fully realized the extent of the change. He picked up his hat, and, by his hasty exit, showed no anxiety to hear the balance of the case. In the afternoon the examination of witnesses for the defence was taken up and continued until the close of the session, when the Court adjourned to meet at half past 8 o'clock.

It may be remarked in this connection that the case has taken a new turn, which promises a continuance of the trial all day to-day. The testimony offered on the part of the State to show ill-treatment of the deceased on the part of Mrs. Carter was excluded yesterday, but afterwards evidence being admitted on the part of the defence proving Mrs. Carter's treatment of the deceased kind and affectionate, we presume that the rejected testimony will now be admitted by way of reply. In fact, we understand testimony of this sort was received at about the time of the recess last night. It was evident the Solicitor was taken by surprise by the witness Francis Jackson, who is said to have taken back every statement he made against Mrs. Carter before the Magistrate. The Solicitor offered to show this contradiction. It was objected that the State could not discredit its own witness. The Solicitor asked for a recess to enable him to produce the authority for the exercise of this right on the part of the State to discredit its own witness, which he said he would have ready.

At the opening of the night session Solici tor Cantwell read the authority to which he referred at the time of the adjournment-(State es Norris, 1st Haywood, N. C. Reports, Starkies' Evidence, &c.) The pages we did not catch. Judge Russell stated very frankly that he had not supposed any such authority existed. The decision of the Court in that case was

in conflict with what he had supposed until this decision was produced the universal sentiment of the profession. He thought it would not now be sustained by the Supreme Court. The proposed evidence was accordingly ruled out. Also all the declarations of the deceased as to his treatment by Mrs. Carter. Any facts showing ill treatment were admissable. Several witnesses then testified to bruises, stripes and wounds caused by whipping upon the person of the deceased just before his death,

Mabson, for the defence, addressed the jury until the hour of adjournment, about 11 o'clock. The argument will be continued to-day.

THE PRESBYTERIAN SYNOB.

Third Day. The Synod met at 10 o'clock, A. M. with the Moderator in the Chair. After devotional exercises and the reading of the minutes, on motion the order of the day was suspended.

Rev. J. C. Alexander, of Mecklenburg Presbytery, appeared and gave satisfactory reasons for his absence. Rev. J. H. Fitzgerald, late of West Hanover Presbytery, Va., was reported by Orange Presbytery as a member and was enrolled as a member of

The annual report of Union Theological Seminary was read and referred to committee on the subject. [This report shows that at the close of the 49th year of the Seminary, May 6, 1873, there were sixtytwo students, and of this number sixteen sindents of the Senior Class stood their final examination, and the usual certificates were warded them. Certificates were also awarded to two others who could not be at the examination, and who rendered satisfactory excuses. Since the report of 1872, seven hundred and seventeen volumes have been added to the library. The total num ber of volumes is 9,075.1

Synodical Treasurer's report was read and referred to its appropriate committee. The Moderator appointed 11 o'clock A.

M. to-day to hear the Committee on Publi-

Report of the Agent of Sustentation was oostponed until afternoon session of vesterday. The same action was taken with the report on Sunday Schools.

Rev. Drs. Moran and Closs were invited

to sit as corresponding members. The principal subject of discussion at the morning session was the question whether Mecklenburg Presbytery is bound to the support of the theological seminaries at Farmville and Columbia. The Judicial Committee's report of '72, on the complaint of Rev. W. W. Pharr and Dr. E. Nye Hutchinson, against the Presbytery of Mecklenburg, was read. The action of Mecklenburg Presbytery, in declining to pay the expenses of the Directors of either Union or Columbia Seminarles, who may be in their bounds, was read. Mr. Pharr supported the complaint. By request the original contract between the Synod of Virginia and the Synod of North Carolina, of 1826, was read. Rev. Dr. Miller replied to the Rev. Walter W. Pharr at some length, and was followed by the Rev. Jno. Douglas, of Mecklenburg Presbytery! The action of the Synods held in Raleigh and Fayetteville were read. Rev. H. G. Hill spoke on the subject. The Synod adjourned for dinner, the subject going over.

EVENING SESSION. The Synod's agent for the education of candidates for the ministry, Rev. N. Mc-McKay, D. D., made a report, which elicited much interest and debate. During this debate Rev. P. H. Dalton, agent for Davidson College, made an earnest aud effective address, setting forth the great work in education and Christianity done by this institution. He pressed its claims on the Synod for an ample endowment to increase its efficiency for good.

[There is much interest manifested in the proposition for increase of endowment of this sterling institution of learning. Some ten or twelve thousand dollars have been raised. The Agent, Rev. Mr. Dalton, has been indefatigable in pressing its claims on the Church and the public.]

The Agent for Sabbath Schools, Rev. L. C. Vass, of Newbern, N. C., made a report which was accepted and filed.

Synod took recess until 74 P. M., when the Foreign Missionary meeting was held. At the night session Rev. Daniel Mc-Gilvary gave an interesting account of mission life and progress in the East. He is stationed in the Kingdom of Siam.

Mr. McGilvary was followed by Rev. Messrs. Atkinson, Rumple and Hill, in behalf of Foreign Missions, and at the conclusion of their remarks a collection was

We extract the following from a letter recently received from Vienna:

"One of the most attractive features in the machinery department of the Vienna exhibition, is the collection of Fairbanks & Company's Scales, and a large crowd is frequently gathered around it. Several of the royal and imperial visitors have shown great interest in the weighing apparatus, and some of them have tried their weight upon one of the scales. The Austrian Emperor made a careful examination of this part of the American section, and after looking at the different varieties, from gold and letter up to the railway scales, paid a high compliment to the skill and enterprise of the inventors.—Fairbanks' Scales have become the standard in several European countries, and their adoption by Austria can be regarded as among the certainties.

"Many of the foreign visitors to the Vienna Exposition are greatly puzzled over the scales exhibited in the American department by Fairbanks & Company. They can understand the apparatus for weighing small articles and all the dozen or more ordinary varieties of scales, but when they come to the railway scales for weighing severel loaded cars at once, they are quite bewildered. Such a scale is beyond their comprehension and they examine it with much doubt. The agent of the Fairbanks house has a great many inquiries to answer daily, and the questioners frequently remark, when their curiosity is satisfied, that they never before understood the greatness of America." We extract the following from a letter recently re
