JUDGE PEARSON'S OPINION IN THE UNIVERSITY CASE.

Chief Justice Pearson, in his opinion in the case of the University vs. McIver, concurred in the opinion of the Associate Justices of the Supreme Court, that the amendments to the Constitution were duly adopted. But he dissents on the second point, holding that the Legislature cannot appoint Trustees, because such power is probibited by sec. 5 art. 3, and is opposed by the analogy of the law.

TRIBTY-THIRD DAY.

SENATE.

WEDNESDAY, Jan. 20.

Mr. Linney, a bill to allow a deposit of mortgage in courts in lieu of money on bond deposits.

The fish bill was considered, which provides with the doing away of all the requirements as to the weight and size of barrels and packages.

Mr. French argued against the bill. Mr. Kerr thought the agent or mersponsible, and not the fisherman.

The bill passed its third reading. The Usury Bill being the special order, was, on motion of Mr. Le-Grand, postponed until the 20th inst.

at 12 o'clock. The bill placing the principal and sureties in all cases on the same footing was considered and recommitted.

Bill authorizing the Government of of the United States to purchase and hold land near Wilmington to be used as a national cemetery. Passed

its third reading. Mr. Kerr's bill to amend section 4, chapter 40, of Battle's Revisal, passed its third reading. Said bill substitutes county commissioners for county canvassers, where the same are required to meet at the county court house within two days after any election and count the votes of the county-there being no county canvassers in the State, there was danger of the vote in this State for President and

and Vice President being thrown out. Mr. Bushee's bill for the protection of birds in the State at certain seasons of the year was considered. Prevents the killing of the same between the first day of April and the first of

October in each year. The bill was advocated by Messrs. Busbee, Standford, Parrish and Bod-

Mr. Latham was not willing to vote for the bill for the whole State, but would vote for it for the county of any gentleman desiring it.

Tucker, colored, offered an amendment making the penalty \$20 instead of \$50.

Messrs. Latham, LeGrand and Mc-Elroy offered amendments providing that this act should not apply to the counties of Martin, Washington, Tyrrell, Dare, Beaufort, Hyde, Pamlico, Buncombe, Madison, Richmond and Montgomery.

Mr. Linney offered a substitute for the whole bill.

On motion, the bill and its amendments were recommitted.

Mr. Cantwell, a resolution in favor of David A. Moore and other disabled Confederate soldiers. Referred.

Mr. Cantwell announced that Mr. Love was confined to his room from severe indisposition, and, on motion. indefinite leave of absence was granted the Senator. Adjourned.

HOUSE OF REPRESENTATIVES.

Honse bill to provide for the better attendance on the public schools of the State, failed to pass its second

House bill to establish two additional terms of the Superior Court for Wayne, with Senate amendments and an amendment offered by Mr. Dortch, passed its final reading.

House bill to prevent swindling on Fair Grounds, passed its several read-

On motion of Mr. Means the vote by which his bill in regard to the jurisdiction of magistrates of police of towns and cities was tabled on yesterday was reconsidered and the bill ordered to be printed and its further consideration postponed till the 20th inst. and made the special order for

12 o'clock on that day. On motion of Mr. Walker, of Richmond, his bill to divest the jurisdiction of the Superior Courts on misdemeanors in failing to list polls and property, and for other purposes passed its several readings.

VOL. XV .-- NO. 103.

THE GENERAL DEMOCRATIC CON-

PERENCE. [Raleigh News of Thursday.] Pursuant to the call made by the Central Executive Committee of the Democratic party of the State, there was a full representation in the city yesterday of the members of the Congressional Committees and of other leading men in the State to consider the question of calling a Convention. Every Congressional District was represented in the meeting of the Committee, which met in the office of the Chairman at 11 o'clock, being the largest attendance ever had of the Committee. Large numbers of letters were read from many prominent men who could not attend.

At I o'clock a general meeting of the committee, the Democratic members of the Legislature, a number of the press of the State and many gentlemen invited by the committee was held in the hall of the House of Representatives for the discussion of the question of Convention, and the meeting continued in session, with intermissions for dinner and supper, until a late hour last night. Able and interesting speeches were made by Messrs. Robt. Strange, Jos. J. Davis, D. G. Fowle, Walter L. Steele, Da vid A. Carter, Josiah Turner, T. B. Venable, J. A. Haughton, Wm. Johnston, J. A. Engelhard, Jno. A. Gilmer and others, reflecting the different views held upon this question. The Executive Committee desired this conference in order that the members of the Legislature might become better informed as to the wishes of the leading men of the State, and we hope good results from the deliberations of the day.

Among the prominent men present from different portions of the State we noticed Messrs. Robert Strange, W. L. Steele, W. T. Dortch. J. J. Davis, Wm. Johnston, Jas. T. Amis, Jno. W. Graham, John H. Haughton, Pride Jones, Alphonso Avery, Jno. A. Gilmer, R. B. Peebles, Thos. B. Venable, Ed. Hall, chant should be the party held re- Henry Bryan, Wm. H. Day, D. W. Courts, M. S. Robins, Capt. Worth of Cumberland, Col. Dillard and Major Malone, besides the Central Committee and other leading citi zens of Raleigh, the Democratic members of the Legislature and the following members of the press: Messrs. Jos. A. Engelhard, W. J. Yates, E. R. Stamps, Robt. Blow, H. A. Foote, P. F. Duffy, J. J. Stewart, J. S. Murrell, W. F. McDiarmid and W. P. Williamson.

The Executive Committee will be in session again to day, and will doubtless give an expression of their views to the Democratic members of the Legislature.

The question of Convention is now. an all-absorbing one with the Legislature as well as with the public, and it is certain that a cancus on the subject will be heard at an early day .-We cannot safely predict the course that will be decided upon in the premises, but we believe a large proportion of the Democratic members of both Houses strongly favor an

immediate call.

[Raleigh Sentinel.] Judge Bynnm has done much to reinstate the Supreme Court to its proper position in the minds of the people of the State. The court lost character by its members telling how suits relating to State bonds would be decided, and then deciding contrary to the opinion given by a member. It will take some time for the court to recover its old character and win the confidence of the people. In the case of the University against McIver, Judge Bynum has delivered an able opinion which is all the talk at the bar and among the members of the profession. The decision dissolves and decides against the pretensions of Solomon Pool and Governor Holden-that Pool, Brewer & Co. are the proper Trustees and Profes-

Mirror of Ireland. This beautiful panorama of Ireland's romantic scenery will be exhibited for the first time in Wilmington at the Opera House on Friday night, Jan. 22d, for a short season of two nights and one matinee. These pictures of Erin's green isle have been carefully selected and painted from sketches made by artists of the London Illustrated News and other pictorial papers, both in England and America. To many of our citizens who were born in the "ould country" they will bring many a pleasant recollection of "days of auld lang syne," while to others, they can witness the wonders of a foreign land without the discomforts of a sea voyage.

In connection with the above is James Taylor, the celebrated English comedian, well known to many of our citizens, when here some years since, for his laughable impersonations of facial and character acting, especially in the parts of "Yorkshire Sam," "Simple Simon" and many others. Miss Ada Alexander, said to be a charming serio-comic and operatic vocalist; Mr. Warren Bordwell, a gentleman well known for his Teutonic specialties: Miss Jeannette Morris, an Irish danseuse of much spirit and grace; Prof. Chas. Archer, the accomplished musician and lecturer, and many others. The Franco-German war panorama, illustrating the principal scenes of the late struggle for the supremacy between Germany and France will also be shown.

One novel feature the management of this entertainment have adopted, viz: for the accommodation of families all tickets purchased at Heinsberger's book store before 12 o'clock on the day of performance will be sold at 50 cents; after that hour 75 cents, same as at night. So go early and secure your seats. A special matinee for schools will be given on Saturday at 2:30 P. M., when children will be admitted for 15 cents each, every child receiving a

Carolina Central Railway-Trouble

Among Some of the Officials. The Superintendent of the Carolina Cenral Railway was arrested on a peace warrant, issued by Justice Cassidey, on Wednesday evening, and required to give bond in the sum of \$500 to keep the peace and for his personal appearance at the present term of the Superior Court. The arrest was made on the affidavit of Mr. J. O. Bowden, who charges that defendant, having secured the right of way through his property, was about commencing to run the track of the road mentioned through the same without complying with the law in such cases, which requires that Commissioners appointed for the purpose shall assess the damages to such property, and that such assessment shall be duly confirmed and the money tendered before work can be commenced; also that after such assessment is made either party has a right to appeal to the Superior Court and no work can be prosecuted on the land of the citizen, such as contemplated by defendant, until a

decision is announced by such tribunal. Yesterday morning Mr. Thos. Evans, of the firm of J. R. Blossom & Evans, made affidavit before Justice Cassidey, charging the Superintendent and other officials and employees of the road with forcible trespass upon their property, the work of laying the track or preparing to lay it, through the same, having been actually commenced. These arrests were made on the same grounds as above recited, and the defendants were required to give security in the sum of \$200 for their appearance before

the present term of the Superior Court. The track referred to is the one proposed to connect the new depot of the company with the main line.

Fire in this County. The outhouses on the premises of Mr. Fred. Croom, in Columbia Township, in this county, including barn, stables, &c., were destroyed by fire on the night of the 6th inst. His loss, which is very heavy, includes about two hundred and fifty bushels of corn, farming utensils, carts, harness, &c. His horses, fortunately, were all hired out at the time, or else they too would doubtless have perished in the flames. It is a severe blow to Mr. Croom, who is represented to be an energetic, industrious man. The fire was no doubt the work of an in-

Republicans Indignant.

The Republicans of this city are to hold an indignation meeting at City Hall this evening for the purpose of expressing their disapprobation of the course of Senator Cantwell in introducing a substitute for resolutions introduced by a Democratic member denunciatory of President Grant and Gen. Sheridan, and which substitute is reported as strongly denouncing Grant for his military interference in the affairs of Louisiana. A lively meeting is ex-

The charming Katie Putnam and her Comedy Company will commence a three nights engagement at the Opera House in this city on Monday evening next, on which occasion will be presented "Little Barefoot," in which Miss Putnam will introduce an original song entitled "Barefoot's Praycharge at Heinsberger's book store. She will no doubt have a full house.

Edwin Adams.

From Mr. J. W. Spaulding, the Advance Agent, who arrived in this city yesterday, we learn that Edwin Adams and his troupe will give an entertainment at the Opera House in this city on Saturday evening, the 30th of January. Mr. Adams is one of the three or four who occupy the first rank among the actors of this country, and his appearance in " Enoch Arden," his specialty, will no doubt be greeted by our playgoers with a crowded house.

Caught Fire. The roof of the dwelling on the north side of Market, between Third and Fourth streets, occupied by Dr. A. A. Watson, Rector of St. James' Episcopal Church.

caught fire yesterday morning, about 11 o'clock, from a spark from a burning chimney. With the assistance of parties who happened in the neighborhood at the time the flames were soon extinguished with but trifling damage. There was no alarm.

New Fire Bucket Company. We are glad to learn that our young friends in the Fifth Ward are forming s first-class fire bucket company, which will soon be organized and ready for service.-Quite a large number have already put down their names as members. Bucket companies are valuable and useful auxiliaries to the fire department, and should be

From Raleigh. The Conservative-Democratic Executive Committee and other members of the party composing the Conference on the Conven-

tion question were in secret session as Raleigh yesterday, and the proceedings had not transpired up to a late hour last night, as we learn by special telegram. Magistrate's Court. M. Anderson, was arraigned before Jus-

SIR:-Four days, from the 14th to the 17th instant, inclusive, have been employed by your committee in a tour of inspection of the harbor and its improvements. Since our visit on the 8th of October last reported on the 22d) a third dredge has een brought into service and commenced operations upon the shoals above Big Island on the 16th of December, since which time she has been constantly at work with apparent good results, the chan-

nel over these shoals being now reported much improved. The dredge at work upon Snow March channel seems to be pretty generally engaged, but apparently not very effective, having accomplished but little of perceptible results. It was expected, we believe, that the contract for opening this channe would have been completed by or before

this time. No work has been done at Federal Point and no perceptible change in the status of affairs there.

Zeke's Island appears to be growing, as also the beach in front of the breakwater, but the point of beach just beyond the breakwater is very much encroached upon. which, with the long line of narrow beach extending quite to Smith's Island, we regard as in a very precarious if not dangerous condition, requiring attention. We feel that we cannot too strongly urge the importance of some steps being taken for building up this beach and strengthening it by the cultivation of grass and other

pare at low tide. Bald Head point has been considerably encroached upon, but not so much as was feared; the point has been thrown around into a hook, leaving a deep pocket which is in line with the straight shore of Smith's Island up to Bald Head creek, leaving quite a narrow neck of beach to separate it from the ocean, the waves of which break over upon very high tides. There seems no pressure upon this neck by the inside current, which passes outside of the point. the real danger being from the ocean waves opening a passage through the pocket, which would sweep away the entire point. The suction dredge Woodbury, seems to be donig effective service of late, upon Bald Head channel, although there may not probably be much increase in the depth of water

character of the channel was very greatly improved, both in width and straightness, seeming to have concentrated all the conflicting currents of the outlet. We have been informed by pilots that a cut-off slue has been opened across the up-per end of the Middle Ground Shoals (known as Je Burch Shoal) from near the rip buoy of the western channel in the direction of the outer buoy of the Bald Head

over what was last reported. The general

able portion of the upper point of this shoal has been carried away.

If these reports should prove true, it would seem that the channel is disposed to straighten itself into the brack of the old eastern channel, which we believe passed out a little east of south (instead of south-west, as the present channel does,) and no doubt was the original direction given it by

From all the lights before us we have no hesitation in saying that vessels of 154 feet draught can pass in and out with ease upon ordinary high tides, and upon Spring tides one foot more may pass with perfect ease, while ordinary vessels of 12 feet may beat through at will. This class of vessels, which includes our regular lines of steamships, WHOLE NO. 2,277.

need not now be detained by tides anywhere between Wilmington and the ocean And now that the main outlet is being enlarged and adapting itself to the more easy egress of an increased volume of the river's water, it would seem appropriate to com mence operations for checking the flow of water out of New Inlet, and send it down to assist in scouring out the main outlet; and, in view of this object, we respectfully suggest to the Chamber the propriety of taking such steps towards securing a full appropriation for this work from the present Congress, as in its judgment may seem necessary and proper.

Respectfully submitted,

THE TOLLEY GUN.-COPY OF TESTIMONIAL. Hudson City, N. J., Sept. 30th, 1874 .- MESSES. J. & W. Tolley-29 Maiden Lane, New York:-The 10-guage Gun No. 3078 I ordered from you gives me entire satisfaction. I was very exacting when ordering the Gun, but must say that you have more than fulfilled what I required of you. I have shot several bre-ch-loaders by first-class makers, and your gun beats them all for bea ty and workmanship. As for shooting qualities, your gur shoots stronger and more even than any gun I ever shot. I have shown it to several good judges (including first-class gunmakers) and all agree that the action is very strong and durable, and that the gun is one of the best they ever saw. I have made some very long shots with it, using only 316 drs. of powder which is all your gun requires. I have shot it at a targat according to the rules of the Turf, Field and Farm trials, and the average of 6 shots at 40 yards is: Left-pattern, 169; penetration, 38: right-pattern, 175; penetration 39; using 3% drs. powder. Now I am sure such a gun is seldom met with, and am very proud to be the owner of it. But the real test of your gun is in the field-there it excells all others, killing cleaner and handsomer than any gun I ever saw, as you assured me they would. Both paper and metal shells work splendidly. Gentlemen, I have to offer you my very best thanks, and will recommend your guns to all my friends.

Yours Respectfully, HENRY LORIOT.
